## Real AI-102 Torrent & AI-102 Test Testking

The Dumpexams is a trusted and reliable platform that has been offering real, valid, and verified AI-102 exam questions. These Dumpexams AI-102 exam questions are designed and checked by the Microsoft subject matter experts. They check each Dumpexams AI-102 Exam Practice question thoroughly and ensure the top standard of Dumpexams AI-102 exam questions all the time.

The Microsoft AI-102 exam covers various topics related to AI solution development, including designing and implementing AI workflows, creating natural language processing solutions, leveraging computer vision techniques, and implementing machine learning models. It also tests the candidate's ability to work with Azure services such as Azure Cognitive Services, Azure Machine Learning, and Azure Databricks.

Microsoft AI-102 Exam is suitable for individuals who have experience in developing AI solutions and are looking to showcase their expertise in designing and implementing AI solutions using Microsoft Azure services. AI-102 exam also provides an opportunity for professionals to enhance their skills in the field of AI and prepare for a career in AI development.

## Microsoft Designing and Implementing a Microsoft Azure AI Solution Sample Questions (Q265-Q270):

### NEW QUESTION # 265

You have a monitoring solution that uses the Azure AI Anomaly Detector service.

You provision a server named Server1 that has intermittent internet access.

You need to deploy the Azure AI Anomaly Detector to Server1.

Which four actions should you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.

**Answer:**

## Explanation:

- 1 - Install the Docker Engine on Server1.
- 2 - From Server1, run the docker pull command.
- 3 - From Server1, run the docker run command.
- 4 - Query the prediction endpoint on Server1.

Topic 1, Contoso, Ltd.

## Overview

This is a case study. Case studies are not timed separately. You can use as much exam time as you would like to complete each case. However, there may be additional case studies and sections on this exam. You must manage your time to ensure that you are able to complete all questions included on this exam in the time provided.

To answer the questions included in a case study, you will need to reference information that is provided in the case study. Case studies might contain exhibits and other resources that provide more information about the scenario that is described in the case study. Each question is independent of the other questions in this case study.

At the end of this case study, a review screen will appear. This screen allows you to review your answers and to make changes before you move to the next section of the exam. After you begin a new section, you cannot return to this section.

To start the case study

To display the first question in this case study, click the Next button. Use the buttons in the left pane to explore the content of the case study before you answer the questions. Clicking these buttons displays information such as business requirements, existing environment, and problem statements. If the case study has an All Information tab, note that the information displayed is identical to the information displayed on the subsequent tabs. When you are ready to answer a question, click the Question button to return to the question.

## General Overview

Contoso, Ltd. is an international accounting company that has offices in France, Portugal, and the United Kingdom. Contoso has a professional services department that contains the

## Infrastructure

Contoso has the following subscriptions:

- \* Azure
- \* Microsoft 365
- \* Microsoft Dynamics 365

## Azure Active (Azure AD) Directory

Contoso has Azure Active Directory groups for securing role-based access. The company uses the following group naming conventions:

- \* ICountryJ-[Level]-[Role]
- \* [Level]-[Role]

## Intellectual Property

Contoso has the intellectual property shown in the following table.

Text-based content is provided only in one language and is not translated.

## Planned Projects

Contoso plans to develop the following:

- \* A document processing workflow to extract information automatically from PDFs and images of financial documents
- \* A customer-support chatbot that will answer questions by using FAQs
- \* A searchable knowledgebase of all the intellectual property

## Technical Requirements

Contoso identifies the following technical requirements:

- \* All content must be approved before being published.
- \* All planned projects must support English, French, and Portuguese.
- \* All content must be secured by using role-based access control (RBAC).
- \* RBAC role assignments must use the principle of least privilege.
- \* RBAC roles must be assigned only to Azure Active Directory groups.
- \* AI solution responses must have a confidence score that is equal to or greater than 70 percent.
- \* When the response confidence score of an AI response is lower than 70 percent, the response must be improved by human input.

## Chatbot Requirements

Contoso identifies the following requirements for the chatbot:

- \* Provide customers with answers to the FAQs.
- \* Ensure that the customers can chat to a customer service agent.
- \* Ensure that the members of a group named Management-Accountants can approve the FAQs.
- \* Ensure that the members of a group named Consultant-Accountants can create and amend the FAQs.
- \* Ensure that the members of a group named the Agent-CustomerServices can browse the FAQs.
- \* Ensure that access to the customer service agents is managed by using Omnichannel for Customer Service.
- \* When the response confidence score is low, ensure that the chatbot can provide other response options to the customers.

## Document Processing Requirements

Contoso identifies the following requirements for document processing:

- \* The document processing solution must be able to process standardized financial documents that have the following characteristics:
- \* Contain fewer than 20 pages.
- \* Be formatted as PDF or JPEG files.
- \* Have a distinct standard for each office.
- \* The document processing solution must be able to extract tables and text from the financial documents.
- \* The document processing solution must be able to extract information from receipt images.
- \* Members of a group named Management-Bookkeeper must define how to extract tables from the financial documents.
- \* Members of a group named Consultant-Bookkeeper must be able to process the financial documents.

## Knowledgebase Requirements

Contoso identifies the following requirements for the knowledgebase:

- \* Supports searches for equivalent terms
- \* Can transcribe jargon with high accuracy
- \* Can search content in different formats, including video
- \* Provides relevant links to external resources for further research

## NEW QUESTION # 266

You are developing an app that will use the Speech and Language APIs.

You need to provision resources for the app. The solution must ensure that each service is accessed by using a single endpoint and credential.

Which type of resource should you create?

- **A. Azure AI Services**
- B. Azure AI Speech
- C. Azure AI Language
- D. Azure AI Content Safety

**Answer: A**

## NEW QUESTION # 267

You are examining the Text Analytics output of an application.

The text analyzed is: "Our tour guide took us up the Space Needle during our trip to Seattle last week." The response contains the data shown in the following table.

Which Text Analytics API is used to analyze the text?

- A. Entity Linking
- **B. Named Entity Recognition**
- C. Sentiment Analysis
- D. Key Phrase Extraction

**Answer: B**

## NEW QUESTION # 268

Hotspot Question

You have an Azure subscription that contains an Azure OpenAI resource named AI1.

You plan to develop a console app that will answer user questions.

You need to call AI1 and output the results to the console.

How should you complete the code? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

**Answer:**

Explanation:

## NEW QUESTION # 269

Select the answer that correctly completes the sentence.

**Answer:**

Explanation:

Explanation:

## NEW QUESTION # 270
