If you want to enjoy the real exam environment, the software version of our 300-415 exam questions will help you solve your problem, because the software version of our 300-415 test torrent can simulate the real exam environment. The 300-415 study materials from our company can help you get your certification easily, and if you use our 300-415 Study Materials, it will be very easy for you to save a lot of time, we believe our 300-415 learning guide will be the most suitable choice for you,

Router deployment

This part of the syllabus focuses mainly on the deployment of WAN Edge, and how configuring and verifying SD-WAN data planes, OMP, TLOCs as well as CLI and vManage are carried out. This section too carries 20% of the questions in the exam and requires one to be knowledgeable in underlay-overlay connectivity, on-boarding, and more.

Domain 6: Management and Operations

This domain encompasses explaining vManage monitoring and reporting; explaining REST API monitoring; explaining vManage software upgrade; customizing and assessing monitoring and reporting.
