I can say that no person can know the CLF-C01 study materials than them for they have been devoting themselves in this career for ten years. And they know every detail about the CLF-C01 learning guide. No matter how high your request is, our CLF-C01 learning quiz must satisfy you.

Amazon AWS Certified Cloud Practitioner Sample Questions (Q38-Q43):

NEW QUESTION # 38

A customer is deploying a new application and needs to choose an AWS Region.

Which of the following factors could influence the customer's decision? (Choose two.)

- A. Cooling costs in hotter climates
- B. Reduced latency to users
- C. Data sovereignty compliance
- D. The application's presentation in the local language
- E. Proximity to the customer's office for on-site visits

Answer: B,C

NEW QUESTION # 39

Distributing workloads across multiple Availability Zones supports which cloud architecture design principle?

- A. Implement automation.
- B. Design for agility.
- C. Implement elasticity.

https://www.slideshare.net/AmazonWebServices/best-practices-for-architecting-in-the-cloud-jeff-barr/10-Design_for_Failure_with_AWS "Multi-AZ Application Deployment and Data replication"

- D. Design for failure.

Answer: D

NEW QUESTION # 40

What is an AWS Cloud design best practice?

- A. High availability
- B. Tight coupling of components
- C. Overprovisioning of resources
- D. Single point of failure

Answer: B

Explanation:

Reference: https://d1.awsstatic.com/whitepapers/AWS_Cloud_Best_Practices.pdf

NEW QUESTION # 41

According to the AWS shared responsibility model, which of the following are AWS responsibilities? (Select TWO.)

- A. Guest operating systems
- B. Network infrastructure and virtualization of infrastructure
- C. Physical security of hardware
- D. Security of application data
- E. Credentials and policies

Answer: D,E

NEW QUESTION # 42

Which of the following provides the ability to share the cost benefits of Reserved Instances across AWS accounts?

- A. Linked accounts and consolidated billing
- B. AWS Cost Explorer between AWS accounts
- C. Amazon EC2 Instance Usage Report between AWS accounts
- D. Amazon Elastic Compute Cloud (Amazon EC2) Reserved Instance Utilization Report

Answer: A

Explanation:

Explanation

The way that Reserved Instance discounts apply to accounts in an organization's consolidated billing family depends on whether Reserved Instance sharing is turned on or off for the account. By default, Reserved Instance sharing for all accounts in an organization is turned on. You can change this setting by Turning Off Reserved Instance Sharing for an account.

The capacity reservation for a Reserved Instance applies only to the account the Reserved Instance was purchased on, regardless of whether Reserved Instance sharing is turned on or off.
