ServiceNow Certified Implementation Specialist - Strategic Portfolio Management Sample Questions (Q62-Q67):

NEW QUESTION # 62

What information are users required to enter on a cost plan for a demand?

- A. Functional currency
- B. Discount Rate %
- C. Total planned cost
- **D. Cost type**

Answer: D

Explanation:

Explanation

According to the Cost plan breakdown document, users are required to enter the cost type for each cost plan line item. Cost type is a mandatory field that specifies the type of cost, such as labor, software, hardware, etc.

The other options are not required fields for a cost plan for a demand. Discount Rate % is an optional field that applies a discount rate to the cost plan. Total planned cost is a read-only field that displays the sum of the planned cost for all the cost plan breakdowns. Functional currency is a system property that defines the currency used for cost management.

NEW QUESTION # 63

Which role in Project Portfolio Management contains both the resource_user and it_demand manager roles?

- A. itil
- **B. it_project_manager**
- C. it_program_manager
- D. it_demand_user

Answer: B

NEW QUESTION # 64

What plugin must be installed to use Capacity Planning in a portfolio?

- A. Skills Management
- B. Time Card Management
- **C. Portfolio Planning**
- D. Collaborative Work Management

Answer: C

NEW QUESTION # 65

When can a user choose from multiple rate types for their work, while logging a time card?

- A. Only one (1) rate type can apply
- **B. Only if the capability is enabled in the Time Sheet Policies**
- C. Only if this capability is enabled in the Project Record
- D. Only if the capability is enabled in the Project Preferences

Answer: B

Explanation:

According to the Using rate types and labor rate cards document, a user can choose from multiple rate types for their work, while logging a time card, only if the capability is enabled in the Time Sheet Policies. This capability allows users to select different rate types for different tasks, such as standard, overtime, or travel. The other options are not correct, as they are not the places where the capability can be enabled. The Project Record is used to create and update project details, such as name, description, and state. The Project Preferences are used to set the default values for project fields, such as number, type, and priority. The option C is not correct, as more than one rate type can apply if the capability is enabled.

NEW QUESTION # 66

Which table stores daily capacity of a user?

- A. Resource_Allocation_Daily.
- **B. Resource,Aggregate_Daily.**
- C. Resource_Event.
- D. User Profile.

Answer: B

NEW QUESTION # 67

.....
