

# 1z0-1080-25 New Questions - 1z0-1080-25 Test Pass4sure

P.S. Free & New 1z0-1080-25 dumps are available on Google Drive shared by Itbraindumps: <https://drive.google.com/open?id=1vIQdco2Ck1b7B0WcUqm85f7QtnKJrC3q>

The online version of 1z0-1080-25 quiz torrent is based on web browser usage design and can be used by any browser device. The first time you use 1z0-1080-25 test preps on the Internet, you can use it offline next time. 1z0-1080-25 learn torrent does not need to be used in a Wi-Fi environment, and it will not consume your traffic costs. You can practice with 1z0-1080-25 Quiz torrent at anytime, anywhere. On the other hand, the online version has a timed and simulated exam function.

## Oracle 1z0-1080-25 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none"><li>• Create Reports: This section of the exam measures the skills of a Planning Administrator and involves creating reports that summarize planning activities and outcomes.</li></ul>
Topic 2	<ul style="list-style-type: none"><li>• Map data across applications: This section of the exam measures the skills of an EPM Consultant and includes how to map and align data structures between Planning and other connected applications.</li></ul>
Topic 3	<ul style="list-style-type: none"><li>• Import and export data into Planning: This section of the exam measures the skills of a Planning Administrator and covers the process of moving planning data into and out of the system.</li></ul>
Topic 4	<ul style="list-style-type: none"><li>• Set up valid and invalid intersections and cell-level security: This section of the exam measures the skills of an EPM Consultant and focuses on defining valid data intersections and applying security controls to limit data access at the cell level.</li></ul>
Topic 5	<ul style="list-style-type: none"><li>• Manage Forms, Dashboards, and Navigation Flows: This section of the exam measures the skills of an EPM Consultant and includes creating interactive forms and dashboards and setting up navigation flows for a better user experience.</li></ul>
Topic 6	<ul style="list-style-type: none"><li>• Describe Planning features: This section of the exam measures the skills of an EPM Consultant and focuses on recognizing key Planning features that help organizations manage and analyze financial data efficiently.</li></ul>
Topic 7	<ul style="list-style-type: none"><li>• Explain the benefits of using Groovy Rules: This section of the exam measures the skills of an EPM Consultant and explains how Groovy scripting enhances rule flexibility and performance.</li></ul>

Topic 8	<ul style="list-style-type: none"> <li>• Build validation rules: This section of the exam measures the skills of an EPM Consultant and includes creating rules that validate data entry in forms.</li> </ul>
Topic 9	<ul style="list-style-type: none"> <li>• Report on Planning Data: This section of the exam measures the skills of a Planning Administrator and focuses on generating reports to analyze and present Planning data effectively.</li> </ul>
Topic 10	<ul style="list-style-type: none"> <li>• Creating System Reports: This section of the exam measures the skills of a Planning Administrator and focuses on system-generated reports that provide insights into application activity.</li> </ul>
Topic 11	<ul style="list-style-type: none"> <li>• Planning Overview: This section of the exam measures the skills of an EPM Consultant and covers the general features of Planning. It includes how Planning works, its core capabilities, and how it fits into enterprise performance management.</li> </ul>
Topic 12	<ul style="list-style-type: none"> <li>• Identify metadata and data load options: This section of the exam measures the skills of a Planning Administrator and introduces options available for importing and managing metadata and data within the system.</li> </ul>
Topic 13	<ul style="list-style-type: none"> <li>• Introduction to Planning Modules: This section of the exam measures the skills of an EPM Consultant and introduces the available Planning modules, their integration, and use cases.</li> </ul>
Topic 14	<ul style="list-style-type: none"> <li>• Import and export metadata into Planning: This section of the exam measures the skills of a Planning Administrator and involves understanding how to bring metadata in and out of Planning applications.</li> </ul>
Topic 15	<ul style="list-style-type: none"> <li>• Manage Dimensions: This section of the exam measures the skills of a Planning Administrator and covers how to manage essential dimensions and hierarchies that organize planning data.</li> </ul>
Topic 16	<ul style="list-style-type: none"> <li>• Report on EPM data: This section of the exam measures the skills of a Planning Administrator and covers using reporting tools to analyze data stored in EPM applications.</li> </ul>
Topic 17	<ul style="list-style-type: none"> <li>• Assign access permissions to artifacts and cells in Planning: This section of the exam measures the skills of a Planning Administrator and involves granting permissions to users for accessing specific Planning objects and data.</li> </ul>

## 1z0-1080-25 Test Pass4sure, New 1z0-1080-25 Exam Pattern

Before you can become a professional expert in Oracle technology, you need to pass 1z0-1080-25 exam test. It means you should get the 1z0-1080-25 certification. The 1z0-1080-25 actual exam is challenging and passing is definitely requires a lot of hard work and effort. Itbraindumps will provide the latest and valid 1z0-1080-25 test study material to you. It just needs to be taken 20-30 hours for preparation, then you can attend the actual test with confident. Besides, in case of failure, we will give you full refund. While, 100% pass is the guarantee we promise to our customers.

## Oracle Planning 2025 Implementation Professional Sample Questions (Q23-Q28):

### NEW QUESTION # 23

Which two are benefits of enabling Use Database Suppression in Smart Push?

- A. It automatically merges comments, attachments, and supporting detail when mapping a database for reporting.
- B. It enables you to apply row suppression at the database level instead of the application level.
- C. It eliminates the impact on query threshold and improves wait times.
- D. It allows you to load large amounts of data from an aggregate storage cube without using the missing block and row suppression options.
- E. It suppresses rows or columns, or both that contain no Data (Missing or Zero, but not both).

**Answer: B,C**

#### NEW QUESTION # 24

Which three are configuration or post-configuration tasks for Financials?

- A. Setting up exchange rates (for multicurrency applications)
- B. Removing custom dimensions
- C. Adding custom expense driver categories
- D. Completing Planning and Forecast Preparation
- E. Adding custom dimensions

**Answer: A,D,E**

Explanation:

In Oracle Planning 2024, configuring and post-configuring the Financials module involves tasks to establish its structure and functionality. The three valid configuration or post-configuration tasks are:

\* A. Adding custom expense driver categories: Incorrect. While Financials supports driver-based planning (e.g., revenue drivers), adding custom expense driver categories is not a standard configuration task-it's more of a customization within forms or rules, not a core setup step.

\* B. Adding custom dimensions: Correct. Adding custom dimensions (e.g., Region, Product) is a key configuration task in Financials to tailor the module to business needs, often done during or shortly after initial setup.

\* C. Completing Planning and Forecast Preparation: Correct. This mandatory configuration task defines the planning periods, scenarios, and versions for Financials, setting the foundation for budgeting and forecasting.

\* D. Setting up exchange rates (for multicurrency applications): Correct. For multicurrency-enabled Financials applications, configuring exchange rates is a critical task during or post-configuration to support currency conversion in financial planning.

\* E. Removing custom dimensions: Incorrect. Removing dimensions is not a standard configuration or post-configuration task-it's a rare adjustment that could disrupt existing data and is not recommended as part of setup.

The Oracle documentation identifies B, C, and D as essential tasks during or after Financials configuration, ensuring the module meets planning and reporting requirements.

#### NEW QUESTION # 25

You want to view a summary of the Capital expense planning details that are rolled into Financials. Which statement describes what you can do to see that summary?

- A. Run the Rollup rule from the Balance Sheet Integration Summary. Then, review the updated data.
- B. Run the Financial Statement Integration data map to push data from Capital to Financials. In Financials, view the Capital data on the Financials Integration Summary page.
- C. Map Capital accounts to Financials accounts on the Configure page. After you save the changes to assets, O data is automatically pushed to Financials based on the mapping. Then, review the updated data on Financials.
- D. Select a Capital account and run the Rollup rule on the Financials Integration Summary page. Then, review the update data.

**Answer: B**

#### NEW QUESTION # 26

You can override expense lines in Financials with the more detailed values that Workforce stores. What steps would you take to move the detailed values to Financials?

- A. In data maps, for Financial Statement Integration, define how the detailed Workforce accounts roll up into the Financials accounts.
- B. On the Financials Integration Summary form, from the Actions menu, select the Rollup business rule.
- C. On the Financials Integration Summary form, calculate compensation data to update the underlying details for Workforce data.
- D. In data maps, for Compensation Data, synchronize and then push the data.

**Answer: A**

Explanation:

In Oracle Planning 2024, integrating detailed Workforce data (such as salary, benefits, and taxes) into Financials involves leveraging out-of-the-box integration features like data maps and Smart Push. To override expense lines in Financials with more detailed values stored in Workforce, the correct approach is to define how Workforce accounts roll up into Financials accounts using the "Financial Statement Integration" data map. This process involves mapping specific Workforce accounts (e.g., payroll taxes, total salary) to corresponding Financials accounts and then synchronizing and pushing the data to update Financials with the detailed values.

Option A is the verified answer because it directly addresses the initial setup required to move detailed Workforce values into Financials by defining the rollup mappings in the Financial Statement Integration data map. After this mapping is configured, administrators can synchronize and push the data to reflect the detailed values in Financials reporting. Option B is incorrect because the Financials Integration Summary form is used to view rolled-up data, not to calculate compensation data for updating underlying Workforce details-this is a Workforce-specific task, not a data movement step. Option C is also incorrect, as there is no "Rollup business rule" explicitly mentioned in the Financials Integration Summary form's Actions menu for this purpose; instead, rollup occurs via data maps. Option D, while related to Compensation Data synchronization, is a narrower action that does not fully address the broader task of moving detailed Workforce values into Financials expense lines, which requires the Financial Statement Integration data map.

The Oracle Planning 2024 Implementation documentation highlights that Financials integrates with Workforce using predefined data maps, such as Financial Statement Integration, to roll up detailed employee expenses into financial reporting, making Option A the most accurate and complete step for this scenario.

## NEW QUESTION # 27

With Machine Learning, which type of prediction would you define to predict using the same dimension, measure, and slice of data?

- **A. Univariate Prediction**
- B. Dimension Prediction
- C. Source Prediction
- D. Forecast Prediction

**Answer: A**

## NEW QUESTION # 28

.....

As long as you get to know our 1z0-1080-25 exam questions, you will figure out that we have set an easier operation system for our candidates. Once you have a try, you can feel that the natural and seamless user interfaces of our 1z0-1080-25 study materials have grown to be more fluent and we have revised and updated 1z0-1080-25 learning guide according to the latest development situation. In the guidance of teaching syllabus as well as theory and practice, our 1z0-1080-25 training engine has achieved high-quality exam materials according to the tendency in the industry.
