## SAP S/4HANA Cloud Private Edition - Production Planning and Manufacturing Sample Questions (Q80-Q85):

### NEW QUESTION # 80

Your quality department detects a deviation in a raw material batch. Unfortunately this batch has already been used in production. How can you identify all affected finished goods stocks?

Note: There are 2 correct answers to this question.

- A. Use the batch whereused list.
- B. Use the Batch Information Cockpit.
- C. Use batch determination.
- D. Use batch derivation.

**Answer: A,B**

### NEW QUESTION # 81

Which business processes are affected by settings in the order type dependent parameters? Note: There are 2 correct answers to this question.

- A. Define integration with cost accounting.
- B. Schedule production orders.
- C. Check material availability.
- D. Select master data.

**Answer: A,D**

### NEW QUESTION # 82

What are some benefits of planning with planned independent requirements for finished materials? Note: There are 2 correct answers to this question.

- A. Reduced times for final assembly
- B. Option to use maketooorder production
- C. Option to forecast planning for production resources
- D. Reduced delivery times

**Answer: A,D**

#### NEW QUESTION # 83

What time element of midpoint scheduled operations can be reduced by reduction strategy settings while dispatching? Note: There are 2 correct answers to this question.

- **A. Move time**
- B. Teardown time
- **C. Queue time**
- D. Setup time

**Answer: A,C**

#### NEW QUESTION # 84

What are some SAP-recommended guiding principles to achieve clean core operations? Note: There are 3 correct answers to this question.

- **A. Establish an organizational structure, technical foundation, and transformation methodology for clean core.**
- **B. Define roles and responsibilities as part of a process transformation office.**
- C. Integrate clean core practices in the end-to-end value process chain.
- **D. Establish release management.**
- E. Establish regular housekeeping tasks and procedures.

**Answer: A,B,D**

Explanation:

SAP's clean core approach for S/4HANA Cloud Private Edition aims for a standardized, upgrade-friendly system. Recommended guiding principles include:

\* Establish an organizational structure, technical foundation, and transformation methodology for clean core(A): SAP advises setting up a governance structure, technical standards (e.g., extensibility via SAP BTP), and a methodology (e.g., SAP Activate) to ensure clean core adoption, minimizing customizations from the start.

\* Establish release management(C): Effective release management (e.g., via SAP Solution Manager or SAP Cloud ALM) ensures regular updates are applied smoothly, maintaining a clean core by avoiding conflicts with custom code and leveraging new standard features.

\* Define roles and responsibilities as part of a process transformation office(E): A dedicated transformation office with clear roles (e.g., process owners, IT architects) oversees clean core adherence, ensuring accountability for standardization and extensibility across teams.

Integrate clean core practices in the end-to-end value process chain(B) is a goal, not a distinct principle-it's an outcome of other principles. Regular housekeeping tasks(D) (e.g., data archiving) supports operations but isn't a core clean core principle, which focuses on design and governance. This is per SAP's clean core strategy.

#### NEW QUESTION # 85

.....

The most important thing for preparing the C-TS422-2023 exam is reviewing the essential point. Some students learn all the knowledge of the test. They still fail because they just remember the less important point. In order to service the candidates better, we have issued the C-TS422-2023 test engine for you. Our company has accumulated so much experience about the test. So we can predict the real test precisely. Almost half questions and answers of the real exam occur on our C-TS422-2023 practice material. That means if you study our study guide, your passing rate is much higher than other candidates. Preparing the C-TS422-2023 exam has shortcut. From now, stop learning by yourself and try our test engine. All your efforts will pay off one day.
