room for delays in Experience-Cloud-Consultant Preparation exams or second thoughts when you know that you have to survive the competition and safeguard your job.

Salesforce Certified Experience Cloud Consultant Sample Questions (Q43-Q48):

NEW QUESTION # 43
By defining roles, permission sets, or profiles, Knowledge article visibility can be controlled by using which functionality?

- A. Data Category Visibility
- B. Org-Wide Defaults
- C. Automatic Topic Assignment
- D. Content Management

Answer: A

Explanation:
Data Category Visibility allows you to control which Knowledge articles are visible to which users based on data categories and user roles, permission sets, or profiles. You can assign data category visibility at different levels, such as the org-wide default, the role hierarchy, or the permission set.

NEW QUESTION # 44
Universal Containers (UC) has a B2C customer department that uses person accounts to track and manage all B2C customers. UC has set up a B2C site using Salesforce Experience Cloud. The VP of B2C business wants to enable self-registration on the portal so customers can create their own user accounts.
What should the Experience Cloud consultant at UC recommend so that the new users self-registering on the B2C site are captured as person accounts in Salesforce?

- A. Use the standard self-registration configuration under Experience Workspace and leave the default Account field empty.
- B. Create a custom self-registration page and Apex handler that creates a person account for each user self-registering on the portal.
- C. Restrict the Account record type access to Person Account record type only for the Site Guest User, so any account created is bv default a person account.

Answer: A

NEW QUESTION # 45
Universal Container (UC) has a business model that involves B2C as well B2B customers. A group of B2B customers has recently signed a contract with UC that would allow them to start working with the UC Support team in resolving low-severity B2C customer issues.
How should UC use Experience Cloud to accomplish this goal?

- A. Create a digital experience for B2C customers and B2B customers, and use the internal CRM app for employees.
- B. Create a single digital experience for B2C customers, B2B customers, and employees.
- C. Create a digital experience for B2C customer and employees, and another one for B2B customers and employees.
- D. Create a digital experience for B2B customers, a partner portal for B2B customers, and use the internal CRM org for employees.

Answer: B

NEW QUESTION # 46
The system administrator at Get Cloudy Consulting is trying to import Customer Portal users to the newly created Experience Cloud. However, the import failed.
What could be two reasons for this failure?
Choose 2 answers

- A. The portal profile record has not been created.

- B. User records are missing. Penal & Pep ore
- C. Contact records have not been created.
- D. The portal role record has not been created.

Answer: C,D

NEW QUESTION # 47
A consultant is in the process of designing the sharing and visibility model for Cloud (CK) new hiking site built on experience Cloud.
The consultant knows that CK plans to use the Customer Community License type.
What limitations should the consultant consider related to sharing and visibility for this license type?

- A. All site users that require access to all records across all objects have the proper Sharing Set.
- B. All site users have the appropriate role assigned.
- C. Any site users that require access to specific records have the proper Sharing Rule.
- D. All site users that require access to certain records for certain objects have the proper Sharing set.

Answer: D

Explanation:
The limitation that the consultant should consider related to sharing and visibility for the Customer Community license type is A. The Customer Community license type is a license type that allows external users to access your Experience Cloud site through a customer account. Customer Community users have limited access and visibility to data in your Salesforce org, and they cannot use roles or sharing rules to share records. To share records with Customer Community users, you need to use Sharing Sets, which are features that allow you to share records based on common account or contact fields.

NEW QUESTION # 48
