BONUS!!! Download part of DumpsQuestion 1Z0-1109-25 dumps for free: <https://drive.google.com/open?id=1f6utiL4jinXnJZFk4MKFyUZJsXB-LSbz>

Whole DumpsQuestion's pertinence exercises about Oracle certification 1Z0-1109-25 exam is very popular. DumpsQuestion's training materials can not only let you obtain IT expertise knowledge and a lot of related experience, but also make you be well prepared for the exam. Although Oracle Certification 1Z0-1109-25 Exam is difficult, through doing DumpsQuestion's exercises you will be very confident for the exam. Be assured to choose DumpsQuestion efficient exercises right now, and you will do a full preparation for Oracle certification 1Z0-1109-25 exam.

The study material is available in three easy-to-access formats. The first one is PDF format which is printable and portable. You can access it anywhere with your smart devices like smartphones, tablets, and laptops. In addition, you can even print PDF questions in order to study anywhere and pass Oracle Cloud Infrastructure 2025 DevOps Professional (1Z0-1109-25) certification exam.

## Interactive 1Z0-1109-25 EBook & Latest 1Z0-1109-25 Exam Online

Constant improvements are the inner requirement for one person. As one person you can't be satisfied with your present situation and must keep the pace of the times. You should constantly update your stocks of knowledge and practical skills. So you should attend the certificate exams such as the test Oracle certification to improve yourself and buying our 1Z0-1109-25 Latest Exam file is your optimal choice. Our 1Z0-1109-25 exam questions combine the real exam's needs and the practicability of the knowledge. The benefits after you pass the test Oracle certification are enormous and you can improve your social position and increase your wage.

## Oracle Cloud Infrastructure 2025 DevOps Professional Sample Questions (Q40-Q45):

### NEW QUESTION # 40

As a DevOps Engineer, you are tasked with explaining the key concepts of Terraform to a new team member. You want to ensure they understand the fundamental concepts of Terraform.

Which of the following best describes the purpose of Terraform variables?

- A. Terraform variables are used to define input values for Terraform configurations, allowing for customization and reuse of infrastructure code.
- B. Terraform variables are used to manage the life cycle of Terraform resources.
- C. Terraform variables are used to output the final state of the infrastructure after deployment.
- D. Terraform variables are used to define the structure and organization of Terraform configuration files.

**Answer: A**

Explanation:

Terraform variables are used to define input values for Terraform configurations. They allow users to customize infrastructure deployments by providing different values without modifying the configuration files themselves. Variables help in creating reusable infrastructure code, making it easy to maintain and adjust the infrastructure setup according to different environments or needs.

### NEW QUESTION # 41

An operations team is exploring the use of OCI Container Instances to run their container workloads without managing servers.

Which of the following statements is false regarding the use of Container Instances?

- A. Container Instances require the team to perform provisioning, patching, and ongoing management of servers.

- B. The underlying infrastructure for Container Instances is fully managed and hardened by OCI, ensuring reliability and security.
- C. Billing for Container Instances is based on the allocated CPU and memory resources for each container instance.
- D. Container Instances provide a serverless compute service for running containers, eliminating the need for server management.

**Answer: A**

Explanation:

OCI Container Instances are a serverless compute service that allows you to run containerized workloads without managing the underlying infrastructure. Oracle Cloud Infrastructure (OCI) manages provisioning, patching, and all the ongoing server management tasks, providing a fully managed environment.

#### NEW QUESTION # 42

As a DevOps engineer at XYZ Corp, you have been assigned the task of setting up a new OKE (Oracle Kubernetes Engine) cluster to manage the organization's Kubernetes applications hosted on Oracle Cloud Infrastructure (OCI). Your goal is to ensure a smooth and efficient process while preparing for the cluster creation.

Which of the following statements is false regarding the preparation process for setting up a new OKE cluster?

- A. Container Engine for Kubernetes cannot utilize existing network resources for the creation of the new cluster.
- B. Access to an Oracle Cloud Infrastructure tenancy is required to set up the new OKE cluster.
- C. It is necessary to ensure sufficient quota on different resource types in your OCI tenancy for the cluster setup.
- D. Container Engine for Kubernetes automatically creates and configures new network resources for the new cluster.

**Answer: A**

Explanation:

This statement is false because Container Engine for Kubernetes (OKE) can utilize existing network resources such as Virtual Cloud Networks (VCNs), subnets, security lists, and route tables for the creation of a new cluster. You can either use pre-existing network resources or let OKE create new network resources automatically.

#### NEW QUESTION # 43

You are a developer and have been asked to develop an e-commerce website for your organization. It must support a variety of clients including desktop browsers, mobile browsers and native mobile applications.

Which two approaches can you use to build the application to achieve deployment independence, easier technology upgrades, and resiliency to architecture changes? (Choose two.)

- A. Choose monolithic approach over microservices as it has better fault isolation capability.
- B. Use microservices architecture as it eliminates any long-term commitment to a technology stack.
- C. Use monolithic approach to as it makes it easier to incrementally adapt to newer technology.
- D. Implement each module as an independent service/process which can be replaced, updated, or deleted without disrupting the rest of the application.
- E. Use monolithic approach, as it allows you to easily redeploy your applications to perform frequent updates.

**Answer: B,D**

Explanation:

By implementing each module as an independent service/process (which is a core feature of microservices architecture), you can replace, update, or delete services without affecting the rest of the application. This ensures deployment independence and makes it easier to adapt to architecture changes or technology upgrades without major disruptions.

Microservices architecture allows each service to be built with the best-suited technology stack for its specific function. This flexibility ensures that you are not tied to a single technology for the entire application, making future technology upgrades easier and eliminating long-term technology commitments.

#### NEW QUESTION # 44

Which command creates the docker registry secret required in the application manifests for OKE to pull images from Oracle Cloud Infrastructure Registry?

• A.

```
kubectl create passwd docker-registry <secret-name> --docker-server=  
<region-key>.oke.io --docker-username=<tenancy-namespace>/<oci-  
username> --docker-password='<oci-auth-token>' --docker-email=<email-  
address>
```

• B.

```
kubectl create passwd docker-registry <secret-name> --docker-server=  
<region-key>.oke.io --docker-username=<oci-username> --docker-  
password='<oci-auth-token>' --docker-email=<email-address>
```

• C.

```
kubectl create secret docker-registry <secret-name> --docker-server=  
<region-key>.ocir.io --docker-username=<oci-username> --docker-  
password='<oci-auth-token>' --docker-email=<email-address>
```

• D.

```
kubectl create secret docker-registry <secret-name> --docker-server=  
<region-key>.ocir.io --docker-username=<tenancy-namespace>/<oci-  
username> --docker-password='<oci-auth-token>' --docker-email=<email-  
address>
```

**Answer: D**

Explanation:

To create a Docker registry secret to pull images from the Oracle Cloud Infrastructure Registry (OCIR), you need to specify the correct parameters such as the region key, namespace, OCI username, and OCI authentication token.

Chosen command is correct because:

The `kubectl create secret docker-registry` command creates a Docker registry secret.

The `--docker-server=<region-key>.ocir.io` specifies the correct endpoint for OCIR.

The `--docker-username=<tenancy-namespace>/<oci-username>` provides both the tenancy namespace and the OCI username, which is the required format for authentication with OCIR.

The `--docker-password='<oci-auth-token>'` specifies the OCI auth token, which acts as a password for authentication.

The `--docker-email=<email-address>` is also included.

The other commands have errors, such as missing tenancy namespace or using incorrect flags (`passwd` instead of `secret`).

## NEW QUESTION # 45

.....

Do you want to pass your exam by using the least time? 1Z0-1109-25 exam braindumps of us can do that for you. With skilled professionals to compile and verify, 1Z0-1109-25 exam dumps of us is high quality and accuracy. You just need to spend 48 to 72 hours on practicing, and you can pass your exam. We are pass guaranteed and money back guaranteed. If you fail to pass the exam, we will give you full refund. Besides, we offer you free demo to have a try before buying 1Z0-1109-25 Exam Dumps. We also have free update for one year after purchasing.

**Interactive 1Z0-1109-25 EBook:** <https://www.dumpsquestion.com/1Z0-1109-25-exam-dumps-collection.html>

Our 1Z0-1109-25 exam questions are carefully compiled by the veteran experts who know every detail of the content as well as the displays, Oracle 1Z0-1109-25 New Test Materials. The reason for this difference is simple: we respect and value your time. So if you really want to pass the Interactive 1Z0-1109-25 EBook - Oracle Cloud Infrastructure 2025 DevOps Professional exam as well as getting the IT certification with the minimum of time and efforts, just buy our Interactive 1Z0-1109-25 EBook - Oracle Cloud Infrastructure 2025 DevOps Professional study torrent, and are always here genuinely and sincerely waiting for helping you. You can download a small part of PDF demo, which is in form of questions and answers relevant to your coming Oracle 1Z0-1109-25 exam; and then you may have a decision about whether you are content with it.

Our 1Z0-1109-25 study materials will change your mind. However, with 1Z0-1109-25 exam questions, you will never encounter such problems, because our materials are distributed to customers through emails.

# 1Z0-1109-25 New Test Materials | Pass-Sure Interactive 1Z0-1109-25 EBook: Oracle Cloud Infrastructure 2025 DevOps Professional

Our 1Z0-1109-25 Exam Questions are carefully compiled by the veteran experts who know every detail of the content as well as the displays, The reason for this difference is simple: we respect and value your time!

So if you really want to pass the Oracle Cloud Infrastructure 2025 DevOps Professional exam as well as getting the IT certification 1Z0-1109-25 with the minimum of time and efforts, just buy our Oracle Cloud Infrastructure 2025 DevOps Professional study torrent, and are always here genuinely and sincerely waiting for helping you.
