With the rise of internet and the advent of knowledge age, mastering knowledge about computer is of great importance. This C\_S4PM\_2504 exam is your excellent chance to master more useful knowledge of it. Up to now, No one has questioned the quality of our C\_S4PM\_2504 training materials, for their passing rate has reached up to 98 to 100 percent. Our SAP Certified Associate study dumps are priced reasonably so we made a balance between delivering satisfaction to customers and doing our own jobs. So in this critical moment, our C\_S4PM\_2504 real materials will make you satisfied. Our C\_S4PM\_2504 exam materials can provide integrated functions. You can learn a great deal of knowledge and get the certificate of the exam at one order like win-win outcome at one try.

## SAP C\_S4PM\_2504 Exam Syllabus Topics:

| Topic   | Details  |
|---------|--|
| Topic 1 | <ul style="list-style-type: none"><li>• SAP Activate Methodology: This section of the exam measures skills of Business Process Architects and covers the structure and practical application of SAP Activate. It includes understanding the phases of the methodology: Discover, Prepare, Explore, Realize, Deploy, and Run, and the use of supporting tools such as SAP Roadmap Viewer and SAP Best Practices. Candidates are expected to demonstrate the ability to apply this methodology to streamline cloud implementation processes and ensure agile delivery.</li></ul> |

|         |  |
|---------|--|
| Topic 2 | <ul style="list-style-type: none"> <li>• Project Management</li> <li>• Organizational Change Management (OCM): This section of the exam measures the skills of Project Managers and covers the key principles of managing SAP cloud implementation projects, including team coordination, stakeholder communication, and change management. It evaluates the ability to lead project activities, manage expectations, and handle resistance during digital transformation. Emphasis is placed on aligning organizational goals with implementation strategies to ensure effective user adoption and project success.</li> </ul>          |
| Topic 3 | <ul style="list-style-type: none"> <li>• SAP S</li> <li>• 4HANA Cloud Public Edition Implementation: This section of the exam measures the skills of Implementation Consultants and covers the foundational aspects of deploying SAP S</li> <li>• 4HANA Cloud Public Edition in a business environment. It focuses on understanding system architecture, scope definition, and the technical and functional setup required for a successful implementation. The candidate is expected to have a strong grasp of how to execute the necessary configuration and adoption tasks that align with customer-specific requirements.</li> </ul> |

## Reliable C\_S4PM\_2504 Exam Pdf - C\_S4PM\_2504 Valid Exam Vce Free

If you really intend to pass the C\_S4PM\_2504 exam, our software will provide you the fast and convenient learning and you will get the best study materials and get a very good preparation for the exam. The content of the C\_S4PM\_2504 guide torrent is easy to be mastered and has simplified the important information. What's more, our C\_S4PM\_2504 prep torrent conveys more important information with less questions and answers. The learning is relaxed and highly efficiently.

## SAP Certified Associate - Managing SAP S/4HANA Cloud Public Edition Projects Sample Questions (Q65-Q70):

### NEW QUESTION # 65

What have SAP S/4HANA Cloud Business Workflows been designed for? Note: There are 3 correct answers to this question.

- A. To create complex, repeated work processes with iterative cycles
- B. To create very simple release or approval procedures
- C. To create standard procedures from SAP Signavio Process Navigator
- D. To create cross-product workflow procedures
- E. To create business processes with a high number of people involved in a pre-defined sequence

Answer: A,B,E

### NEW QUESTION # 66

You have created a project-specific deliverable that is not part of the SAP Activate roadmap in SAP Cloud ALM.

What must you create to manage all tasks that are related to that deliverable?

Note: There are 2 correct answers to this question.

- A. A custom task
- B. A custom deliverable
- C. A custom team
- D. A custom release

Answer: A,B

### NEW QUESTION # 67

You are implementing SAP S/4HANA Cloud, public edition for your customer. How do you activate the pre-configuration?

- A. Via the SAP Cloud ALM
- B. SAP Contact Center
- **C. Via the Central Business Configuration System**
- D. Via the SAP Business Technology Platform

**Answer: C**

Explanation:

Activating pre-configuration in SAP S/4HANA Cloud Public Edition involves applying predefined settings, such as SAP Best Practices, to streamline the implementation process. This is managed through a specific configuration tool.

\* Option A: Via the SAP Cloud ALM Incorrect. SAP Cloud ALM is used for project and test management, not for activating pre-configuration. The SAP Cloud ALM Documentation states, "SAP Cloud ALM supports project management and testing, not the activation of pre-configuration, which is handled by configuration tools."

\* Option B: Via the SAP Business Technology Platform Incorrect. SAP BTP is for development and integration, not configuration activation. The SAP BTP Documentation notes, "SAP BTP supports custom extensions, not the activation of pre-configured settings for SAP S/4HANA Cloud."

\* Option C: SAP Contact Center Incorrect. The SAP Contact Center is for support and service, not configuration tasks. The SAP S/4HANA Cloud Study Guide clarifies, "The SAP Contact Center provides customer support, not configuration activation capabilities."

\* Option D: Via the Central Business Configuration System Correct. The Central Business Configuration (CBC) system is used to activate pre-configured settings, such as SAP Best Practices, for SAP S/4HANA Cloud Public Edition. The SAP Central Business Configuration Guide explains, "The Central Business Configuration system is used to activate pre-configuration, including SAP Best Practices, for SAP S/4HANA Cloud Public Edition, enabling rapid setup of the solution." Extract from Official Documentation:

\* SAP Central Business Configuration Guide (SAP Help Portal, <https://help.sap.com>): "In SAP S/4HANA Cloud Public Edition, the Central Business Configuration system is the tool for activating pre-configured settings, such as SAP Best Practices, to streamline the implementation process."

\* SAP S/4HANA Cloud Implementation Guide (SAP Community, <https://community.sap.com>): "Pre-configuration activation, including the application of SAP Best Practices, is performed via the Central Business Configuration system, ensuring a standardized and efficient setup." Additional Context:

The CBC system is a key component of SAP S/4HANA Cloud Public Edition's configuration process, allowing customers to activate pre-configured settings quickly, aligning with the cloud's standardized approach. This reduces implementation time and ensures consistency with SAP Best Practices.

:

SAP Help Portal: SAP Central Business Configuration Guide (<https://help.sap.com>).

SAP Community: SAP S/4HANA Cloud Implementation Guide (<https://community.sap.com>).

SAP S/4HANA Cloud Study Guide: Details configuration tools.

SAP Activate Methodology: Outlines configuration activation.

## NEW QUESTION # 68

How does an implementation consultant support customer experts during Fit-to-Standard workshops? Note: There are 2 correct answers to this question.

- **A. Highlight areas that require configuration or customization decisions.**
- B. Conduct end-user training on active scope items.
- C. Determine set up instructions for customer-driven integrations.
- **D. Demonstrate SAP Best Practice business processes in the starter system**

**Answer: A,D**

Explanation:

Fit-to-Standard workshops are a cornerstone of the SAP Activate methodology's Explore phase, where consultants guide customers to align their requirements with SAP Best Practices in SAP S/4HANA Cloud Public Edition.

\* Option A: Conduct end-user training on active scope items. Incorrect. End-user training occurs in the Realize or Deploy phases, not during Fit-to-Standard workshops, which focus on requirement validation. The SAP Activate Methodology Guide states, "Fit-to-Standard workshops are for process validation, not end-user training, which is conducted later."

\* Option B: Determine set up instructions for customer-driven integrations. Incorrect. Integration setup instructions are detailed in the Realize phase, not during Fit-to-Standard workshops. The SAP S/4HANA Cloud Implementation Guide notes, "Integration requirements are identified in Fit-to-Standard, but setup instructions are developed post-workshop."

\* Option C: Highlight areas that require configuration or customization decisions. Correct.

Consultants identify gaps and areas needing configuration or customization during Fit-to-Standard workshops. The SAP Activate Methodology Guide explains, "Consultants highlight configuration and customization needs to ensure the solution aligns with customer requirements while adhering to SAP Best Practices."

\* Option D: Demonstrate SAP Best Practice business processes in the starter system. Correct.

Demonstrating SAP Best Practices in the starter system is a key activity in Fit-to-Standard workshops to show how standard processes meet customer needs. The SAP S/4HANA Cloud Study Guide confirms,

"Consultants use the starter system to demonstrate SAP Best Practice processes, enabling customers to validate the solution fit."

Extract from Official Documentation:

\* SAP Activate Methodology Guide (<https://www.sap.com>): "During Fit-to-Standard workshops, implementation consultants demonstrate SAP Best Practice processes in the starter system and highlight areas requiring configuration or customization to address customer-specific needs."

\* SAP S/4HANA Cloud Implementation Guide: "The Fit-to-Standard process involves showcasing standard processes in the starter system and identifying configuration decisions to ensure alignment with customer requirements." Additional Context: Fit-to-Standard workshops emphasize a cloud mindset, prioritizing standard processes over customizations.

Consultants play a critical role in guiding customers through this process to minimize deviations and accelerate implementation.

:

SAP Help Portal: SAP Activate Methodology Guide (<https://www.sap.com>).

SAP S/4HANA Cloud Implementation Guide: Details Fit-to-Standard workshops.

SAP S/4HANA Cloud Public Edition Study Guide: Explains consultant roles in the Explore phase.

## NEW QUESTION # 69

What accelerator can help you document the configuration definition in the Explore phase?

- A. Backlog template
- B. Data definition template
- C. Test plan template
- D. Change request template

**Answer: A**

Explanation:

In the Explore phase of the SAP Activate methodology, documenting the configuration definition is essential to capture requirements and gaps identified during Fit-to-Standard workshops. An accelerator is needed to structure this documentation effectively.

\* Option A: Data definition template. Incorrect. Data definition templates are used for data migration planning, typically in the Realize phase. The SAP S/4HANA Cloud Migration Guide states, "Data definition templates support data migration tasks, not configuration documentation in the Explore phase."

\* Option B: Test plan template. Incorrect. Test plan templates are used in the Realize phase for testing activities, not for configuration documentation. The SAP S/4HANA Cloud Testing Guide notes, "Test plan templates are for organizing test cases, not documenting configuration definitions."

\* Option C: Change request template. Incorrect. Change request templates manage changes to the system, typically post-Explore. The SAP S/4HANA Cloud Implementation Guide clarifies, "Change request templates are used for managing system changes, not for capturing configuration definitions in the Explore phase."

\* Option D: Backlog template. Correct. The backlog template is an accelerator used to document configuration definitions, including gaps and delta requirements, during the Explore phase. The SAP Activate Methodology Guide explains, "The backlog template is a key accelerator in the Explore phase, used to document configuration definitions and delta requirements identified during Fit-to-Standard workshops, forming the basis for Realize phase activities." Extract from Official Documentation:

\* SAP Activate Methodology Guide (SAP Community, <https://community.sap.com>): "In the Explore phase, the backlog template serves as an accelerator to document configuration definitions, capturing requirements and gaps from Fit-to-Standard workshops for subsequent configuration."

\* SAP S/4HANA Cloud Implementation Guide (SAP Help Portal, <https://help.sap.com>): "The backlog template is used during the Explore phase to document configuration definitions, including delta requirements, ensuring a structured transition to the Realize phase." Additional Context:

The backlog template is a critical tool in SAP Cloud ALM, enabling teams to organize and prioritize configuration tasks identified during Fit-to-Standard workshops. Its use aligns with the agile nature of SAP Activate, ensuring traceability and clarity as the project moves into configuration and development phases.

:

SAP Help Portal: SAP S/4HANA Cloud Implementation Guide (<https://help.sap.com>).

SAP Community: SAP Activate Methodology Guide (<https://community.sap.com>).

SAP S/4HANA Cloud Study Guide: Details Explore phase accelerators.

SAP Cloud ALM Documentation: Outlines backlog template usage.

## NEW QUESTION # 70

.....

For more than ten years, our C\_S4PM\_2504 practice engine is the best seller in the market. More importantly, our good C\_S4PM\_2504 guide questions and perfect after sale service are approbated by our local and international customers. If you want to pass your practice exam, we believe that our C\_S4PM\_2504 Learning Engine will be your indispensable choices. More and more people have bought our C\_S4PM\_2504 guide questions in the past years. What are you waiting for? Just rush to buy our C\_S4PM\_2504 exam braindumps and become successful!
