By incubating all useful content OmniStudio-Developer practice materials get passing rate from former exam candidates of 98 which evince our accuracy rate and proficiency. If your problems are divulging during the review you can pick out the difficult one and focus on those parts.

Salesforce Certified OmniStudio Developer Sample Questions (Q43-Q48):

NEW QUESTION # 43
Refer to the exhibit below. What JSON from the DRGetContactDeteils action would display all six values correctly shown?
BlkCases is a Repeat Block, and the names of the elements are the same as the label names without spaces.

- A. ☐
- B. ☐
- C. ☐
- D. ☐

Answer: D

Explanation:
According to the OmniScript Data JSON page, the OmniScript structure JSON defines the data elements and their properties that are used in an OmniScript. The exhibit shows an OmniScript structure JSON with six elements: ContactName, ContactPhone, ContactEmail, CaseNumber, CaseSubject, and CaseStatus. The DRGetContactDetails action is a DataRaptor Extract action that retrieves data from the Contact and Case objects in Salesforce. The BlkCases element is a Repeat Block that displays a list of cases related to the contact. Therefore, the JSON from the DRGetContactDetails action that would display all six values correctly shown is option A, which has the following structure:
The other options have different structures that do not match the OmniScript structure shown.

NEW QUESTION # 44
Refer to the exhibit below. A developer has configured an integration Procedure element with Additional input.
Alternatively, how could the developer configure SEND/RESPONSE TRNSFORMATION to send exactly the same data?
Assume the developer has un-checked Send Only Additional input.

- A. ☐
- B. ☐
- C. ☐
- D. ☐

Answer: D

Explanation:
Explanation
The Send JSON Path syntax for accessing an element from an Integration Procedure structure is BlockName.ElementName. In this case, the BlockName is BlockX and the ElementName is ActionZ. The colon (:) is used to separate the input and output parameters, not the block and element names. The order of the block and element names should follow the hierarchy of the structure, from top to bottom. The Additional input parameter is not needed in this case, as it is already included in the Send JSON Path.

NEW QUESTION # 45
A developer needs to create . DataRaptor to retrieve the name of an account for a contact.
Following best practices, how should a developer configure the extraction steps?

- A. Define extraction steps for the Contact and the Account objects, and set the Extract 3SON Path to Account.Name
- B. Define an extraction step for the Contact object and set the Extract JSON Path to Contact Account.Name
- C. Define an extraction step for the Account object, and set the Extract JSON Path to AccountContact.Name
- D. Define extraction steps for the Contact and the Account objects, and set the Extract JSON Path to Contact Account.Name

Answer: B

NEW QUESTION # 46
Refer to theexhibit below. In this integration production structure, what Send JSON Path would be used to send the Output of the Action1 element to a Remote Action?

- A. Action1 : BlockB. Block A

- B. BlockA: BlockB. Action 1
- C. Action1. BlockB. Block A
- D. BlockB:BlockB. Action1

Answer: A

Explanation:
Explanation
The correct syntax for the Send JSON Path is ActionName: BlockName, where ActionName is the name of the action element and BlockName is the name of the block element that contains the output data. The other options are either missing the colon or using incorrect names.

NEW QUESTION # 47
If the email address of a Contact is changed in an OmniScript, which of the following should be configured to update the contact's record in Salesforce? Multiple Books

- A. A DataRaptor Transform that maps the new Email address to the old Email address field.
- B. A DataRaptor Extract that includes the RecordId, the upsert key selected, and the new Email address.
- C. A DataRaptor Load that includes the RecordId, the upsert key selected, and the new Email address.
- D. A DataRaptor Transform that includes the previous email with the upsert key selected and the new Email address.

Answer: D

NEW QUESTION # 48
......

Very few applicants can earn the Salesforce Certified OmniStudio Developer OmniStudio-Developer certificate on their first attempts because of the challenging level of topics included in the Salesforce OmniStudio-Developer test.

I couldn't be happier!
