The clients can enter in the big companies and earn the high salary. You may double the salary after you pass the EX-Con-101 exam.

Salesforce Certified Experience Cloud Consultant Sample Questions (Q21-Q26):

NEW QUESTION # 21

Universal Containers (UC) is building a new self-service site for its large global customer base. Customers will be posting questions, viewing Knowledge articles, downloading warranties, opening tickets, and registering their recent purchases. Purchases are stored in a custom object. UC has decided to use Customer Service template for the experience and Customer Community Plus license for the customers.

Which limitation could cause a potential issue for UC?

- A. Customer Service template does not allow record pages for custom objects out-of-the-box.
- B. Customer Community Plus license does not allow access to custom objects.
- C. Customer Service template does not allow downloading documents out-of-the-box.
- **D. Customer Community Plus license allows only up to 2 million users per org.**

Answer: D

Explanation:

Customer Community Plus licenses have a limit of 2 million users per org, which could be a potential issue for UC if they have a large global customer base that exceeds this limit. The other options are not limitations of the Customer Service template or the Customer Community Plus license.

NEW QUESTION # 22

AW Computing wants to create a site that gives customers access to Knowledge articles and peer-to-peer conversations, with the aim of decreasing the number of calls to its support organization.

What should AW Computing do to accomplish this goal?

- A. Give access to its internal orgs using Chatter groups
- B. Create a site with the Marketing Microsite template
- C. Open its Slack implementation to all customers
- **D. Create a site with the Customer Service template**

Answer: D

Explanation:

To create a site that gives customers access to Knowledge articles and peer-to-peer conversations, AW Computing should use the Customer Service template. The Customer Service template is a pre-built site that includes features such as Knowledge, Chatter, Cases, and Topics. AW Computing can use this template to provide self-service options to its customers, such as browsing or searching for articles, posting or answering questions, creating or viewing cases, and following or filtering topics. This can help AW Computing reduce the number of calls to its support organization.

NEW QUESTION # 23

Cloud Kicks (CK) is about to launch a public site and is expecting very high traffic in certain regions. CK will be using Content Delivery Network (CDN).

What should CK consider during the go-live phase to prevent usability issues?

- A. CK should provision and activate CDN in those regions where traffic is low
- **B. CK should provision and activate CDN in those regions where traffic is high.**
- C. CK should provision CDN in those regions where traffic is high and activate CDN where traffic is low.
- D. CK should provision CDN in those regions where traffic is low and activate CDN where traffic is high.

Answer: B

Explanation:

To prevent usability issues, CK should provision and activate CDN in those regions where traffic is high. A CDN is a network of servers that delivers cached static content from websites to users based on the geographic location of the user. By provisioning and activating CDN in high-traffic regions, CK can improve the performance and availability of their public site for their users.

NEW QUESTION # 24

Cloud Kicks (CK) uses SSO (Single Sign-on) for its customer portal. The customer portal is built on the Customer Service template which uses LDS (Lightning Design System) and has public pages that use Lightning Web Components. CK has also set up the Salesforce Content Delivery Network (CDN) for its domain, which CK is planning to change.

- A. Changing the Salesforce CDN affects SAML SSO settings for all custom URLs in that domain.
- B. Changing the Salesforce CDN impacts the AppExchange packages in the org that use Documents object.
- C. Changing the Salesforce CDN overwrites LDS defaults.
- **D. Changing the Salesforce CDN impacts definitions of all Lightning Web Components used in public pages.**

Answer: D

Explanation:

Salesforce Content Delivery Network (CDN) is a feature that allows you to improve the performance of your site by caching static resources, such as images, JavaScript, and CSS files. However, changing the Salesforce CDN has some implications, such as:

- * Changing the Salesforce CDN impacts definitions of all Lightning Web Components used in public pages. You need to redeploy your components after changing the CDN to ensure that they work properly.
- * Changing the Salesforce CDN does not affect SAML SSO settings for all custom URLs in that domain. SAML SSO settings are independent of the CDN settings.
- * Changing the Salesforce CDN does not impact the AppExchange packages in the org that use Documents object. Documents object is not affected by the CDN settings.
- * Changing the Salesforce CDN does not overwrite LDS defaults. LDS defaults are not affected by the CDN settings.

NEW QUESTION # 25

In which two ways can Opportunities with a Community User be shared?
Choose 2 answers Calculator

- **A. Create a criteria-based sharing rule with a Partner Community role.**
- B. Add a Customer Community Plus profile to a Sharing Set and add Opportunities as an object in the Sharing Set.
- C. Create an owner-based sharing rule with a Customer Community User.
- **D. Add a Partner Community profile to a Sharing Set and add Opportunities as an object in the Sharing Set.**

Answer: A,D

Explanation:

Sharingsets allow you to grant access to records that have a lookup relationship to the same account or contact that the community user has. You can use sharing sets to share opportunities with partner community users who belong to the same account as the opportunity owner.

Criteria-based sharing rules allow you to share records based on field values. You can use criteria-based sharing rules to share opportunities with partner community users who meet certain criteria, such as region, industry, or status.
