

Trustable Download AP-209 Pdf - Find Shortcut to Pass AP-209 Exam

**APPLICATION FOR EXEMPTION
RELIGIOUS AND RELIGION BASED ORGANIZATION**

CAROLE KEETON STRAYHORN • TEXAS COMPTROLLER OF PUBLIC ACCOUNTS

Nonprofit religious organizations should use this application to request exemption from Texas sales tax, hotel occupancy tax, and franchise tax, if applicable. To receive a state tax exemption as a religious organization, a nonprofit religious organization must be an organized group of people regularly meeting at a particular location with an established congregation for the primary purpose of holding, conducting and sponsoring religious worship services according to the rites of their sect. Exemption from federal tax is not required to qualify for exemption from state tax as a religious organization.

The exemption for religious organizations is provided for in Sections 151.310, 156.102, and 171.058 of the Texas Tax Code, and more detailed information can be found in Comptroller's Rules 3.322, 3.161, and 3.541.

Some organizations will not qualify for exemption as a religious organization as that term is defined in Texas' law and rules, even though their activities may be religious in nature. Evangelistic associations do not qualify for exemption as religious organizations. Organizations that simply support and encourage religion as an incidental purpose, or that further religious work or teach their membership religious understanding, such as Bible study groups, prayer groups, and revivals do not qualify for exempt status under this category. Such an organization might still qualify for exemption from Texas sales taxes, and franchise tax, if applicable, based on their exemption under certain sections of the Internal Revenue Code (IRC).

Texas tax law provides an exemption from **sales** taxes on goods and services purchased for use by organizations exempt under IRC Section 501(c)(3), (4), (6), (10), or (19). However, exempt organizations are required to collect tax on most of their sales of taxable items. See *Exempt Organizations-Sales and Purchases*, Publication 98-122. Texas law also provides an exemption from **franchise** taxes for corporations exempted from the federal income tax under IRC Section 501(c)(2), (3), (4), (5), (6), (7), (8), (10), (16), (19), or (25).

If your organization has been granted federal tax exemption under one of the qualifying sections listed above, your organization will be granted an exemption from Texas sales tax, or sales and franchise tax, on the basis of the IRS exemption, as required by state law. Organizations that qualify for exemption based on a federal exemption are not exempt from hotel occupancy tax because the hotel tax law does not recognize any federal exemptions.

The laws, rules and other information about exemptions are online at:
<http://www.window.state.tx.us/taxinfo/exempt>

Send the completed application along with all required documentation to:

COMPTROLLER OF PUBLIC ACCOUNTS
Exempt Organizations Section
P.O. Box 13528
Austin, Texas 78711-3528

We will contact you within 10 working days after receipt of your application to let you know the status of your application. We may require an organization to furnish additional information to establish the claimed exemption. After a review of the material, we will inform the organization in writing if it qualifies for exemption. The comptroller or an authorized representative of the comptroller may audit the records of an organization at any time during regular business hours to verify the validity of the organization's exempt status.

If you have questions or need more information, contact our Tax Assistance staff at 1-800-252-5555 or, in Austin, call (512)463-4600.

You have certain rights under Ch. 559, Government Code, to review, request, and correct information we have on file about you. Contact us at the address or toll-free number listed on this form.

AP-209-1 (Rev. 3/05/05)

Quality of AP-209 practice materials you purchased is of prior importance for consumers. Our AP-209 practice materials make it easier to prepare exam with a variety of high quality functions. Their quality function is observably clear once you download them. We have three kinds of AP-209 practice materials moderately priced for your reference. All these three types of AP-209 practice materials win great support around the world and all popular according to their availability of goods, prices and other term you can think of.

We also provide timely and free update for you to get more AP-209 questions torrent and follow the latest trend. The AP-209 exam torrent is compiled by the experienced professionals and of great value. You can master them fast and easily. We provide varied versions for you to choose and you can find the most suitable version of AP-209 Exam Materials. So it is convenient for the learners to master the AP-209 questions torrent and pass the AP-209 exam in a short time.

Exam AP-209 Overview | Exam AP-209 Guide

After you pay for our AP-209 exam material online, you will get the link to download it in only 5 to 10 minutes. You don't need to worry about safety in buying our AP-209 exam materials. Our products are free from computer virus and we will protect your private information. You won't get any telephone harassment or receiving junk E-mails after purchasing our AP-209 Study Guide. If we have a new version of your study material, we will send an E-mail to you. Whenever you have questions about our AP-209 study material, you are welcome to contact us via E-mail.

Salesforce Advanced Field Service Accredited Professional Sample Questions (Q48-Q53):

NEW QUESTION # 48

Universal Containers installers are required to complete a standardized quality checklist that includes data inputs as well as capturing some pictures of the completed installation.

How should a Field Service consultant set up the mobile experience for those installers?

- **A. Leverage 'Work Plans' and a flow to launch from a 'Work Step'**
- B. Use 'Deep Linking' in order to achieve this requirement
- C. Create fields on the Service Appointment and create a Service Appointment 'Record Update' action for the quality check items and leverage 'Chatter' to post images
- D. Give complete edit access to the mobile app so the installers have the flexibility to update what they need

Answer: A

Explanation:

This scenario describes a structured process with validation (Checklist + Data + Images).

* Option A is correct. Work Plans are the standard, modern feature for checklists in Salesforce Field Service. A Work Plan consists of "Work Steps." These steps can be linked to a Flow, which provides a user-friendly wizard to capture specific data inputs and upload images in a structured way.

* Option B is the legacy method. Adding fields directly to the Service Appointment creates clutter and doesn't offer a step-by-step "Checklist" experience.

* Option C is a security risk (too much access) and provides no process guidance.

* Option D (Deep Linking) is used to jump out of the app to another app, which is not needed here since SFS can handle flows natively.

NEW QUESTION # 49

Which parts of the 'Dispatcher Console' support adding Custom Actions? (Choose 3 options)

- A. Child Service Territories in the Gantt
- B. Multiple Service Resources in the Gantt
- **C. Individual Service Resources in the Gantt**
- **D. Multiple Service Appointments in the Appointment list**
- **E. Individual Service Appointments in the Appointment list**

Answer: C,D,E

Explanation:

Custom Actions (configured in Field Service Settings) allow dispatchers to trigger Apex classes or Visualforce pages/components from the console.

* Option B is correct: You can add custom actions to the Resource List on the Gantt (e.g., right-click a technician's name to "Send SMS" or "Show on Map").

* Option E is correct: You can add custom actions to individual Service Appointments (e.g., right-click an appointment bar or list item to "Reschedule" or "Print Label").

* Option D is correct: You can add Mass Actions to the Appointment List (select multiple checkboxes -> Actions -> "Bulk Dispatch").

* Note: You generally cannot perform custom actions on the "Service Territory" grouping headers (Option A) or multiple resources simultaneously (Option C) in the standard UI.

NEW QUESTION # 50

A customer has few types of resources: internal full-time, internal part-time, and full-time contractors. The requirement is to prefer full-time employees over contractors, and contractors over part-time employees.

How should a consultant implement this requirement?

- **A. Use 'Resource Priority' Service Objective, set the full-time employees with priority '10', contractors with priority '9' and part-time with priority '8'.**
- B. Use the 'Required Resource' Work Rule and set the full-time employees as required for all Accounts, use the 'Preferred

Resource' Service Objective, and set the part-time and contractors as preferred to all Accounts.

- C. Use 'Preferred Resource' Service Objective, assign the full-time employees as preferred for all Accounts.
- D. Use 'Resource Priority' Service Objective, set the full-time employees with priority '1', contractors with priority '2' and part-time employees with priority '3'.

Answer: A

Explanation:

To tier resources generally (not per customer), you use the Resource Priority Service Objective.

* Option C is correct. The Resource Priority objective works on a scoring scale where a Higher Value indicates a Higher Priority. The optimization engine attempts to assign the appointment to the resource that yields the highest overall schedule score.

* By assigning Full-Time = 10, Contractors = 9, and Part-Time = 8, the engine will "score" the Full-Time option highest, followed by the Contractor.

* Option D uses the inverse logic (1, 2, 3). If deployed, the engine would favor the Part-Time employees (Score 3) over the Full-Time employees (Score 1), which is the opposite of the requirement.

* Options A and B refer to Preferred Resource, which is typically defined on the Account or Work Order level (e.g., "Bob is preferred for Customer X"). It is not efficient for ranking entire groups of employees globally.

NEW QUESTION # 51

Universal Containers has a job that requires two technicians, and both must possess the skills defined as 'Required' for that job. They need to show up at the same time and work through the entire job duration together. The technicians will also need to be able to be assigned to individual jobs later that day.

Which option should an architect recommend to support this scenario?

- **A. One Work Order, two child Service Appointments with Appointment Dependency of 'Same Start' between them**
- B. One Work Order, one child Service Appointment with one Assigned Resource and a Work Order Line Item to store the second resource. Set Resource Absence on the second resource for the duration of the joint service
- C. Service Crew Resource related to one Crew and two Crew Members assigned for the whole day
- D. One Work Order, one child Service Appointment and two Assigned Resources

Answer: A

Explanation:

This is a classic "Double-Booking" vs. "Complex Work" scenario.

* Option B is correct. To book two distinct people for the same work at the same time, you create two Service Appointments. You link them using a Complex Work dependency of type Same Start. This tells the optimization engine: "Find a time where Resource A (Appointment 1) and Resource B (Appointment 2) are BOTH free, and book them simultaneously."

* Option A is incorrect because a single Service Appointment can typically only have one active Assigned Resource for scheduling purposes in the standard optimization model (unless using Crew Management, but Crews are for static teams, not ad-hoc pairs).

* Option D is incorrect because the requirement states they need to be assigned to "individual jobs later that day". Service Crews are designed for resources who stay together all day. Breaking a crew apart for half a day is administratively difficult.

* Option C is a hack (Resource Absence) that blocks the second tech's time but doesn't link them to the actual job details properly.

NEW QUESTION # 52

A dispatcher notices that the Service Territory schedule for the next week is full with routine maintenance appointments, while there are several urgent repair jobs still waiting to be scheduled in the appointment list.

Which three actions should the dispatcher take to schedule the urgent repair jobs?

- **A. Check the 'Scheduling Priority' of the repair and maintenance Service Appointments**
- B. Invoke 'Resource Schedule Optimization' for each Service Resource in the Service Territory
- **C. Use 'Global Optimization' to optimize the territory schedule for the next week**
- **D. Ensure that the maintenance Service Appointments are not 'Pinned' and can be rescheduled**
- E. Manually update the 'Assigned Resource' on each of the urgent repairs

Answer: A,C,D

Explanation:

The goal is to fit high-priority work into a schedule already filled with low-priority work.

* Option B is correct. The system must know that the Repair jobs are more important than the Maintenance jobs. This is handled by

theScheduling Priorityfield (used in the optimization logic to decide which job to drop if there is a conflict) or the Priority field mapped to Service Objectives.

* Option C is correct.Global Optimizationis the best tool here. It will look at the entire week, see the high-priority unscheduled jobs, and the low-priority scheduled jobs. It will then un-schedule or move the maintenance jobs to make room for the urgent repairs.

* Option D is correct.For Optimization to work, the existing maintenance appointments mustnot be Pinned. If they are pinned, the optimizer treats them as immovable rock, and it won't be able to free up the time needed for the repairs.

* Option A (Manual assignment) is inefficient and risky (could double-book). Option E (Resource Schedule Optimization) optimizes one person at a time; Global Optimization is better suited for balancing the load across the whole territory.

NEW QUESTION # 53

.....

If you must complete your goals in the shortest possible time, our AP-209 exam materials can give you a lot of help. For our AP-209 study guide can help you pass you exam after you study with them for 20 to 30 hours. And our products are global, and you can purchase our AP-209 training guide is wherever you are. Believe us, our products will not disappoint you. Our global users can prove our strength.
