The top-notch highlights are given to clients to affect the essential undertaking in certification. Every one of you can test your course of action with ServiceNow CSA Dumps by giving the phony test.

ServiceNow Certified System Administrator Sample Questions (Q212-Q217):

NEW QUESTION # 212

Data Policy can enforce mandatory data on import.

- A. True
- B. False

Answer: A

Explanation:

A Data Policy in ServiceNow is used to enforce mandatory and read-only field conditions for data that is entered manually through forms or imported into the system.

Data Policies apply to data coming from external sources, such as imports, web services (API), and integrations.

If a field is set as mandatory in a Data Policy, records cannot be imported unless that field contains a value.

This ensures data integrity by preventing incomplete or invalid data from entering the system.

If an administrator configures a Data Policy to make the "Caller" field mandatory on the Incident table, any imported incidents without a Caller value will be rejected.

How Data Policies Enforce Mandatory Data on Import: Example Scenario:

Why "True" is the Correct answer:Data Policies enforce mandatory fields for both UI entry and imports.

Why "False" is Incorrect:If Data Policies didn't enforce mandatory fields on imports, incomplete records could enter the system, leading to data integrity issues.

ServiceNow Documentation:Data Policies

CSA Exam Guide:Covers Data Policy enforcement for UI forms and imports.

Reference from CSA Documentation:Thus, the correct answer is:

A: True

NEW QUESTION # 213

Which of the following is used to categorize, flag, and locate records?

- A. Favorites
- **B. Tags**
- C. Bookmarks
- D. Search

Answer: B

NEW QUESTION # 214

Which icon would you double click, to expand and collapse the list of all Applications and Modules?

- A. Star
- B. Clock
- C. Funnel
- **D. Application**

Answer: D

Explanation:

In ServiceNow, the Application Navigator allows users to browse and access Applications and Modules.

To expand or collapse the Application Navigator, users interact with the Application Menu icon (#), commonly known as the "Hamburger" menu.

Locate the three-line "Hamburger" icon (#) at the top-left of the Application Navigator.

Double-click or single-click to expand/collapse the list of applications and modules.

A). Star (Incorrect)

The Star icon (#) represents Favorites, allowing users to mark frequently used modules for quick access.

B). Clock (Incorrect)

The Clock icon (##) is for Recently Viewed Items, showing the user's most recent navigations.

D). Funnel (Incorrect)

The Funnel icon (#) is a filter used to refine search results or application lists, not to expand/collapse the navigator.

Modules: Explanation of Incorrect Options: Official References from Certified System Administrator (CSA) Documentation:

NEW QUESTION # 215

You are showing your customer a new form that you have created for their new application. They would like to add a field to the form. Where could you do that? (Choose two.)

- A. Select Field Class Manager module

- B. Select Fields and Columns module
- C. Right click on form header, select Configure > Form Layout
- D. Click on context menu, select Configure > Form Designer

Answer: C,D

NEW QUESTION # 216

From a related list, what would a user click for personalize the layout of the columns?

- A. Context Menu
- B. Gear
- C. Pencil
- D. Magnifier

Answer: B

Explanation:

In ServiceNow, when a user wants to personalize the layout of the columns in a related list, they need to click the Gear icon (⚙️).

How It Works:

Navigate to a record that contains a related list.

Look at the top-right corner of the related list for the Gear icon.

Click the Gear icon to open the "Personalize List Columns" interface.

From there, the user can add, remove, or rearrange columns in the related list.

Why Other Answers Are Incorrect:

A . Magnifier - A magnifying glass is typically used for search functions but not for column customization.

B . Context Menu - The context menu (right-click) provides other actions but does not allow column layout changes.

C . Pencil - A pencil icon typically represents editing but not column layout customization.
