

Exam CWAP-405 Cram - 100% Authoritative Questions Pool

The image shows a screenshot of a table titled "CWNP CWAP-405 Certification Syllabus". The table has two columns: "Topic" and "Weight". The topics and their weights are: Protocol Analysis (15%), Spectrum Analysis (10%), PHY Layers and Technologies (10%), MAC Sublayer and Functions (25%), WLAN Medium Access (10%), and 802.11 Frame Exchanges (30%). At the bottom of the table, there is a small text that says "100% Guaranteed Success with NWExam.com".

Topic	Weight
Protocol Analysis	15%
Spectrum Analysis	10%
PHY Layers and Technologies	10%
MAC Sublayer and Functions	25%
WLAN Medium Access	10%
802.11 Frame Exchanges	30%

2026 Latest SureTorrent CWAP-405 PDF Dumps and CWAP-405 Exam Engine Free Share: https://drive.google.com/open?id=1s0Nf67-8V_eD4g0wssF7ACs62OqbPXLE

For candidates who buy CWAP-405 exam bootcamp online, they may have the concern about the money safety. We apply the international recognition third party for the payment, and it will protect the interests of you. Therefore you put your mind at rest if you buy CWAP-405 exam bootcamp from us. In addition, we have free demo for you to have a try, so that you can have a deeper understanding the complete version of the CWAP-405 Exam Dumps. If you have any other questions, just contact us, and we will do what we can do to help you.

CWAP-405 test guide is an examination material written by many industry experts based on the examination outlines of the calendar year and industry development trends. Its main purpose is to help students who want to obtain the certification of CWAP-405 to successfully pass the exam. Compared with other materials available on the market, the main feature of CWAP-405 Exam Materials doesn't like other materials simply list knowledge points. According to our statistics on the data so far, the passing rate of the students who have purchased one exam exceeds 99%, which is enough to see that CWAP-405 test guide is a high-quality product that can help you to realize your dream.

Free PDF CWNP - CWAP-405 - Certified Wireless Analysis Professional – Valid Exam Cram

Maybe you are busy with working every day without the help of our CWAP-405 learning materials. The heavy work leaves you with no time to attend to study. It doesn't matter. Our CWAP-405 learning materials can help you squeeze your time out and allow you to improve your knowledge and skills while having work experience. And there are three versions of our CWAP-405 Exam Questions for you to choose according to your interests and hobbies.

CWNP Certified Wireless Analysis Professional Sample Questions (Q95-Q100):

NEW QUESTION # 95

You suspect an interfere may exist in a BSS that is experiencing sporadic problems. You want to identify and locate the device. The actual device identify is not known.

What tool should be used for this purpose?

- A. Throughput tester
- **B. Spectrum analyzer**
- C. Cable tester
- D. Protocol analyzer

Answer: B

NEW QUESTION # 96

What is encrypted within the third message of the 4-Way Handshake?

- A. PMK
- B. PTK
- C. GMK
- **D. GTK**

Answer: D

Explanation:

The GTK (Group Temporal Key) is encrypted within the third message of the 4-Way Handshake. The 4-Way Handshake is a process that establishes a secure connection between a STA (station) and an AP (access point) using WPA2 (Wi-Fi Protected Access 2), which is a security protocol that uses AES-CCMP (Advanced Encryption Standard-Counter Mode CBC-MAC Protocol) as its encryption algorithm. The 4-Way Handshake consists of four messages that are exchanged between the STA and the AP. The first message is sent by the AP to the STA, containing the ANonce (Authenticator Nonce), which is a random number generated by the AP. The second message is sent by the STA to the AP, containing the SNonce (Supplicant Nonce), which is a random number generated by the STA, and the MIC (Message Integrity Code), which is a value that verifies the integrity of the message. The third message is sent by the AP to the STA, containing the GTK, which is a key that is used to encrypt and decrypt multicast and broadcast data frames, and the MIC. The GTK is encrypted with the KEK (Key Encryption Key), which is derived from the PTK (Pairwise Temporal Key).

The PTK is a key that is used to encrypt and decrypt unicast data frames, and it is derived from the PMK (Pairwise Master Key), the ANonce, and the SNonce. The fourth message is sent by the STA to the AP, containing only the MIC, to confirm the completion of the 4-Way Handshake. The other options are not correct, as they are not encrypted within the third message of the 4-Way Handshake. The PMK is a key that is derived from a passphrase or obtained from an authentication server, and it is not transmitted in any message of the 4-Way Handshake. The PTK is a key that is derived from the PMK, the ANonce, and the SNonce, and it is not transmitted in any message of the 4-Way Handshake. The GMK (Group Master Key) is a key that is generated by the AP and used to derive the GTK, and it is not transmitted in any message of the 4-Way Handshake. NEW QUESTION # 97

What is an AIFS?

- A. A medium access method introduced by 802.11n, but never implemented
- B. A form of aggregation performed at the PHY layer based on 802.11e UP values interpreted from DSCP values
- **C. A variable Interframe Space introduced by 802.11e to help prioritize medium access for different Access Categories**
- D. The shortest period of time a STA can sleep

Answer: C

Explanation:

An AIFS is a variable interframe space introduced by 802.11e to help prioritize medium access for different Access Categories (ACs). An interframe space is a period of time that a STA (station) has to wait before attempting to access the medium. An AIFS is a type of interframe space that varies depending on the AC of the traffic. An AC is a logical queue that corresponds to a QoS (Quality of Service) level for different types of traffic. There are four ACs defined by 802.11e: AC_VO (Voice), AC_VI (Video), AC_BE (Best Effort), and AC_BK (Background). Each AC has a different AIFSN (Arbitration Interframe Space Number) value, which determines how long it has to wait before attempting to access the medium. A lower AIFSN value means a higher priority and a shorter waiting time. The other options are not correct, as they do not describe what an AIFS is. An AIFS is not a medium access method introduced by 802.11n, but never implemented, as it is part of the 802.11e standard and widely used in QoS-enabled WLANs. An AIFS is not a form of aggregation performed at the PHY layer based on 802.11e UP values interpreted from DSCP values, as aggregation is a technique that combines multiple frames into one larger frame to improve efficiency and throughput, not prioritization or medium access. An AIFS is not the shortest period of time a STA can sleep, as sleeping is a power saving mode that allows a STA to conserve battery power by periodically turning off its radio, not accessing the medium. References: [Wireless Analysis Professional Study Guide CWAP-405], Chapter 7: QoS Analysis, page 194-195

NEW QUESTION # 98

What element was added to the general frame of 802.11 with the 802.11e amendment and the 802.11-2007 rollup?

- **A. QoS Control**
- B. Address 4
- C. HT Control
- D. RSN-IE

Answer: A

NEW QUESTION # 99

What is the function of 802.11 Management frames?

- A. Communicate configuration changes between WLAN controller and APs
- **B. Manage the BSS**
- C. Prioritize network administration traffic
- D. Manage the flow of data

Answer: B

Explanation:

The function of 802.11 management frames is to manage the BSS. A BSS (Basic Service Set) is a group of STAs (stations) that share a common SSID (Service Set Identifier) and communicate with each other through an AP (access point) or directly in an ad hoc mode. Management frames are one of the three types of 802.11 frames, along with control and data frames. Management frames are used to establish, maintain, and terminate associations between STAs and APs, as well as to advertise and discover BSSs, exchange security information, report errors, and perform other management functions. The other options are not correct, as they are not functions of 802.11 management frames. Prioritizing network administration traffic, communicating configuration changes between WLAN controller and APs, and managing the flow of data are functions of other types of frames or protocols. References: [Wireless Analysis Professional Study Guide CWAP-405], Chapter 5: 802.11 MAC Sublayer, page 120-121

NEW QUESTION # 100

.....

Our SureTorrent provides CWAP-405 braindumps and training materials in PDF and software, which contains CWAP-405 exam dumps and answers. Moreover, the content of CWAP-405 braindumps and training materials covers largely and more reliably, and it will help you most to prepare CWAP-405 test. If you fail the CWAP-405 certification exam with our CWAP-405 dumps, please don't worry. We will refund fully.

New CWAP-405 Dumps Files: <https://www.suretorrent.com/CWAP-405-exam-guide-torrent.html>

Our CWAP-405 exam training will provide you with real exam questions with verified test answers that reflect the actual CWAP-405 exam, If you failed CWNP CWAP-405 real exam with our CWAP-405 pass guide, first you can choose to wait the updating of CWAP-405 exam dumps or free change to other dumps if you have other test, CWNP Exam CWAP-405 Cram We offer a full refund if you fail your test.

Information used to identify a particular user of the Services and this CWAP-405 site, such as name, email address, user name, IP address or other online identifier, A gadget should not be a crucial application.

HOT Exam CWAP-405 Cram - CWNP Certified Wireless Analysis Professional - Valid New CWAP-405 Dumps Files

Our CWAP-405 exam training will provide you with real exam questions with verified test answers that reflect the actual CWAP-405 Exam, If you failed CWNP CWAP-405 real exam with our CWAP-405 pass guide, first you can choose to wait the updating of CWAP-405 exam dumps or free change to other dumps if you have other test.

We offer a full refund if you fail your test, You will be regret missing our CWAP-405 certification training questions because it has highest passing rate on every year when our customers finish their test, which is almost 100%.

Please trust us; let us be your everlasting Exam CWAP-405 Cram Certified Wireless Analysis Professional test practice vce provider and help you win a bright future.
