You may urgently need to attend MB-335 certificate exam and get the MB-335 certificate to prove you are qualified for the job in some area. But what certificate is valuable and useful and can help you a lot? Passing the MB-335 test certification can help you prove that you are competent in some area and if you buy our MB-335 Study Materials you will pass the MB-335 test almost without any problems. There are many benefits after you pass the MB-335 certification such as you can enter in the big company and double your wage.

To prepare for the MB-335 exam, you must have a solid understanding of the overall structure of Dynamics 365 Supply Chain Management, including the core modules and functionalities, as well as the tools and techniques used for testing, debugging, troubleshooting, and optimizing the application. Additionally, candidates must also have experience working with Microsoft Power Platform, Power Apps, Power Automate, and Power BI tools.

Microsoft MB-335 certification exam is ideal for professionals who want to enhance their skills and knowledge in supply chain management. It is an excellent opportunity for functional consultants to showcase their expertise in Dynamics 365 Supply Chain Management and demonstrate their ability to implement end-to-end supply chain solutions. Microsoft Dynamics 365 Supply Chain Management Functional Consultant Expert certification exam covers a broad range of topics, including inventory management, procurement and sourcing, production control, warehouse management, transportation management, and quality management. Passing the Microsoft MB-335 Certification Exam can help professionals stand out in the highly competitive job market and open up new career opportunities.

MB-335 Interactive Questions & Exam MB-335 Tutorial

We believe our MB-335 exam questions will meet all demand of all customers. If you long to pass the exam and get the certification successfully, you will not find the better choice than our MB-335 preparation questions. Now you can have a chance to try our MB-335 study braindumps before you pay for them. There are the free demos on our website for you download to check the quality and validity of our MB-335 practice engine. Just have a try, then you will fall in love with our MB-335 learning quiz!

Microsoft Dynamics 365 Supply Chain Management Functional Consultant Expert Sample Questions (Q155-Q160):

NEW QUESTION # 155

Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.

After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear on the review screen.

A manufacturing company produces electronic components and devices.

The company has scheduling issues related to using working time calendars in manufacturing.

You need to ensure that the working time calendar is used when manufacturing jobs are scheduled.

Solution: Enable automatic consumption of run time.

Does the solution meet the goal?

- A. Yes
- B. No

Answer: B

NEW QUESTION # 156

A pharmaceutical manufacturer uses Process manufacturing.

You are consolidating planned batch orders for a specific medication. The order must cover two weeks of demand. No other items need to be consolidated.

You need to change the coverage group of the items.

Which four actions should you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.

Actions	Answer area
⋮ Create a new item number for the medication.	
⋮ Change the general coverage group in the master planning parameters to the newly defined coverage group.	
⋮ Delete the old coverage group from the coverage group table.	
⋮ Edit the coverage period on the current coverage group on the medication.	
⋮ Create a new coverage group.	
⋮ Define the coverage period as the equivalent of two weeks in days.	
⋮ Apply the new coverage group to the medication.	
⋮ Rerun the plan.	

Microsoft

Answer:

Explanation:

Actions

- Create a new item number for the medication.
- Change the general coverage group in the master planning parameters to the newly defined coverage group.
- Delete the old coverage group from the coverage group table.
- Edit the coverage period on the current coverage group on the medication.
- Create a new coverage group.
- Define the coverage period as the equivalent of two weeks in days.
- Apply the new coverage group to the medication.
- Rerun the plan.

Answer area

- Create a new coverage group.
- Define the coverage period as the equivalent of two weeks in days.
- Apply the new coverage group to the medication.
- Rerun the plan.

Explanation:

Actions

- Create a new item number for the medication.
- Change the general coverage group in the master planning parameters to the newly defined coverage group.
- Delete the old coverage group from the coverage group table.
- Edit the coverage period on the current coverage group on the medication.

Answer area

- Create a new coverage group.
- Define the coverage period as the equivalent of two weeks in days.
- Apply the new coverage group to the medication.
- Rerun the plan.

NEW QUESTION # 157

A manufacturer uses Dynamics 365 Supply Chain Management to create bicycle parts as a configure-to-order configuration. All bicycle parts are sourced from external sources and assembled in the manufacturing facility.

The manufacturer plans to expand its capabilities to create custom bicycles parts in an engineer-to-order model. All bicycle parts will be created in the manufacturing facility. The custom bicycle parts must be omitted from any master planning process.

You need to describe the concepts for the requirements.

Which concepts should you use? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Answer Area

Requirement

Redesign the manufacturing facility for the new facility capabilities.

Configure for the engineer-to-order items.

Concept

- Lean
- Unified
- Process
- Lean
- Discrete
- Supply policies
- Supply policies
- Supply schedule
- Planning optimization
- Priority-based planning

Answer:

Explanation:

Answer Area

Requirement
Redesign the manufacturing facility for the new facility capabilities.
Configure for the engineer-to-order items.

Concept

- Lean
- Unified
- Process
- Lean
- Discrete
- Supply policies
- Supply policies
- Supply schedule
- Planning optimization
- Priority-based planning

Explanation:

To describe the concepts for the requirements, you should use the following:

* Redesign the manufacturing facility for the new facility capabilities: You should use the Discrete concept. Discrete manufacturing is a type of manufacturing that produces distinct items that can be easily counted, touched, or seen¹. Discrete manufacturing is suitable for producing custom bicycle parts in an engineer-to-order model, because it allows you to create unique products based on customer specifications and engineering drawings². Discrete manufacturing also supports complex production processes that involve multiple steps, resources, and materials².

* Configure for the engineer-to-order items: You should use the Supply policies concept. Supply policies are rules that determine how supply is generated for a product based on its demand³. Supply policies can be configured at the product level, the product master level, or the coverage group level³. For engineer-to-order items, you can configure a supply policy that omits them from any master planning process. For example, you can set the coverage code to None, which means that no planned orders are generated for the product. You can also set the replenishment system to None, which means that no replenishment orders are generated for the product.

1: What is discrete manufacturing? 2: Discrete manufacturing overview 3: Supply policies : [Coverage codes] : [Replenishment systems]

NEW QUESTION # 158

A company uses Discrete manufacturing concepts to produce cables. The company's production scheduler uses internal documents to track issues on in-process production orders.

The production scheduler must group all in-process production orders according to issues. The scheduler must be able to easily determine issues with production orders.

You need to implement a method to easily identify production orders with issues.

Which three actions should you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.

Actions

- Add a note to the BOM and list the issue of the production order.
- Create an item group for issues.
- Add the item group to the production order.
- Create a production pool for issues.
- Add the production pool to the production order.
- Filter the production orders by production pool.

Answer Area

Answer:

Explanation:

Actions	Answer Area
<div> <div></div> Add a note to the BOM and list the issue of the production order. </div>	<div> <div></div> Create a production pool for issues. </div>
<div> <div></div> Create an item group for issues. </div>	<div> <div></div> Add the production pool to the production order. </div>
<div> <div></div> Add the item group to the production order. </div>	<div> <div></div> Filter the production orders by production pool. </div>
<div> <div></div> Create a production pool for issues. </div>	
<div> <div></div> Add the production pool to the production order. </div>	
<div> <div></div> Filter the production orders by production pool. </div>	

NEW QUESTION # 159

You need to resolve the issue for UserF.

What should you configure? To answer, select the appropriate options in the answer area.

Requirement	Configuration
Machinery	<div> <div></div> Setup time, Route group, Resource </div> <div> <div></div> Run time category, Route group, Resource </div> <div> <div></div> Setup time, Route group, Resource </div> <div> <div></div> Resource, Scheduling direction </div>
Scheduling	<div> <div></div> Operations scheduling with Finite material only </div> <div> <div></div> Operations scheduling with Finite capacity only </div> <div> <div></div> Job scheduling only </div> <div> <div></div> Operations scheduling with Finite material only </div> <div> <div></div> Job scheduling with Operations scheduling </div>

NOTE: Each correct selection is worth one point.

Answer:

Explanation:

Requirement	Configuration
Machinery	<div> <div></div> Setup time, Route group, Resource </div> <div> <div></div> Run time category, Route group, Resource </div> <div> <div></div> Setup time, Route group, Resource </div> <div> <div></div> Resource, Scheduling direction </div>
Scheduling	<div> <div></div> Operations scheduling with Finite material only </div> <div> <div></div> Operations scheduling with Finite capacity only </div> <div> <div></div> Job scheduling only </div> <div> <div></div> Operations scheduling with Finite material only </div> <div> <div></div> Job scheduling with Operations scheduling </div>

Explanation:

Requirement	Configuration
Machinery	<div> <div></div> Setup time, Route group, Resource </div>
Scheduling	<div> <div></div> Operations scheduling with Finite material only </div>

NEW QUESTION # 160

.....

We PDFTorrent are growing faster and faster owing to our high-quality latest MB-335 certification guide materials with high pass rate. Based on our past data, our pass rate of MB-335 training guide is high up to 99% to 100% recently years. Many customer will become regular customer and think of us once they have exams to clear after choosing our MB-335 Exam Guide one time. So we have no need to spend much spirits to advertise but only put most into researching and after-sale service. As long as you study with our MB-335 learning questions, you will find that it is a right choice.
