

# Exam NCP-EUC Questions Answers & NCP-EUC Current Exam Content

What's more, part of that DumpsReview NCP-EUC dumps now are free: [https://drive.google.com/open?id=1foYvk5VxiX-zOzjkJ\\_tWRFZ66P2qigzl](https://drive.google.com/open?id=1foYvk5VxiX-zOzjkJ_tWRFZ66P2qigzl)

Nutanix NCP-EUC practice test software contains many Nutanix NCP-EUC practice exam designs just like the real Nutanix Certified Professional - End User Computing (NCP-EUC) 6.10 Exam (NCP-EUC) exam. These NCP-EUC practice exams contain all the NCP-EUC questions that clearly and completely elaborate on the difficulties and hurdles you will face in the final NCP-EUC Exam. We update our Nutanix NCP-EUC exam questions bank regularly to match the changes and improve the quality of NCP-EUC questions so you can get a better experience.

The NCP-EUC exam covers a range of topics related to Nutanix's end-user computing solutions, including architecture and deployment, user management, virtual desktop infrastructure (VDI), application virtualization, and troubleshooting. Candidates are expected to have a solid understanding of virtualization technologies, networking, storage, and security best practices. NCP-EUC Exam consists of 60 multiple-choice questions, and candidates have 90 minutes to complete it. A passing score of 300 out of 500 is required to obtain the certification.

## NCP-EUC Current Exam Content & NCP-EUC Valid Exam Book

People always feel fear of the unknown thing and cannot handle themselves with a sudden change. However, our NCP-EUC exam questions can stand by your side. And we are determined to devote ourselves to serving you with the superior NCP-EUC Study Materials in this career. Here are some features of our NCP-EUC learning guide in our free demos which you can free download, you can understand in detail and make a choice.

## Nutanix Certified Professional - End User Computing (NCP-EUC) 6.10 Exam Sample Questions (Q26-Q31):

### NEW QUESTION # 26

An administrator has been asked to enable multi-monitor support for a graphic designer that needs to be able to use four monitors. After onboarding the designer on to the Frame desktop, the end user does not see the ability to use all four monitors while using the Firefox web browser.

What should the administrator do to enable the ability to use all four monitors?

- A. Switch to Edge
- B. Switch to Chrome
- C. Switch to Safari
- D. Deploy Frame App

Answer: D

Explanation:

According to Nutanix documentation, to use more than two monitors with Frame, you need to deploy the Frame App. The Frame App provides multi-monitor support, whereas using Frame through web browsers is currently limited to two monitors. Frame App is a native application that provides a better user experience for accessing Frame desktops and applications than a web browser<sup>1</sup>. Frame App supports the Frame multi-monitor feature automatically. If an end user has more than one monitor attached to their device, Frame App prompts the user if they want to use all of their monitors<sup>1</sup>. Frame Administrators do not have to enable explicitly multi-monitor support for Frame App users<sup>1</sup>.

#### NEW QUESTION # 27

Refer to the exhibit.

An administrator is configuring a virtual desktop gold master image with P40 NVIDIA vGPU. upon trying to add a vCPU assignment in Prism Element, the administrator noticed that it is not selectable and cannot proceed.

Which two actions are correct steps to resolve this issue? (Choose two.)

- A. Install the NVIDIA GPU Manager Driver.
- B. Install the NVIDIA GPU drivers on the Gold Master.
- C. Check if ECC Mode is turned on by running `nvidia-smi -q | grep "ECC Mode" -A2`
- D. Disable ECC by running `nvidia-smi -e 0`.

**Answer: C,D**

Explanation:

ECC (Error Correcting Code) mode is a feature of some NVIDIA GPUs that provides error detection and correction for memory errors. However, ECC mode can interfere with vGPU functionality and prevent vGPU-enabled VMs from being created or started<sup>1</sup>. Therefore, two correct steps to resolve this issue are B (Disable ECC by running `nvidia-smi -e 0`) and D (Check if ECC Mode is turned on by running `nvidia-smi -q | grep "ECC Mode" -A2`).

#### NEW QUESTION # 28

A company is planning to implement Citrix Virtual Apps and Desktops on Nutanix clusters running AHV.

The initial implementation will be sized for 1000 virtual desktops with Windows 11, Microsoft Office 2021 and Adobe Creative Cloud All Apps installed.

What is the correct prerequisite to implement a successful installation of the Nutanix AHV MCS Plug-in?

- A. The user running Nutanix AHV MCS installer must have administrator privileges on the Citrix Broker.
- B. Nutanix cluster virtual IP address is reachable.
- C. Nutanix data services IP address is reachable.
- D. The user running Nutanix AHV MCS installer must have administrator privileges on the Citrix Storefront.

**Answer: A**

Explanation:

The Nutanix AHV MCS Plug-in is a tool that enables Citrix Virtual Apps and Desktops Delivery Controllers (also called Brokers) to create and manage Citrix-provisioned VMs in a Nutanix AHV infrastructure environment. The plug-in is based on the Citrix-defined plug-in framework<sup>2</sup>.

To install the Nutanix AHV MCS Plug-in, you need to meet some prerequisites, such as:

The Delivery Controller version must be 7.15 LTSR CU3 or later.

The Delivery Controller must be able to communicate with Prism Element (PE) using HTTPS port 9440.

The Delivery Controller must have PowerShell 5.1 or later installed.

The user running the installer must have administrator privileges on the Delivery Controller<sup>2</sup>.

#### NEW QUESTION # 29

An administrator has been asked to investigate encrypting intra-cluster storage traffic.

Which factor should be considered in this implementation?

- A. Lack of encryption for Volume-Group connections
- B. Higher User-VM CPU and memory utilization
- **C. Increased IO latency and CVM CPU utilization**
- D. Stargate traffic between CVMs remains unencrypted

**Answer: C**

Explanation:

Nutanix supports Data-in-Transit Encryption to secure traffic flowing between nodes (CVM to CVM) and between the CVM and hypervisor. This feature uses TLS to encrypt replication and storage data traffic.

However, the Security Guide notes that enabling encryption introduces computational overhead. The encryption and decryption of storage traffic are handled by the Controller VM (CVM) CPUs. Therefore, a key design consideration is that this configuration results in increased CVM CPU utilization. Consequently, due to the processing time required for encryption operations, there may be a slight increase in I/O latency.

Administrators must ensure the cluster has sufficient CPU headroom on the CVMs to absorb this overhead without impacting application performance.

### NEW QUESTION # 30

An administrator is deploying a new virtual desktop environment onto an existing Nutanix solution.

The virtual desktop environment will consist of these elements:

1000 instant clone call center virtual desktops (supporting 5 business units)

500 full clone developer virtual desktops (supporting 2 business units)

150 applications delivered via AppStacks (supporting 7 business units)

How many storage containers should be created to support these workloads?

- A. 0
- B. 1
- **C. 2**
- D. 3

**Answer: C**

Explanation:

Based on the given information, the administrator is deploying 1000 instant clone virtual desktops, 500 full clone virtual desktops, and 150 applications. To support these workloads, the Nutanix solution will need multiple storage containers.

According to the Nutanix Certified Professional - End User Computing (NCP-EUC) v6 guide, for VDI workloads, it is recommended to create a separate storage container for each type of desktop (e.g. instant clone, full clone) and another container for AppStacks. It is also recommended to have at least one container for metadata and one container for replicas.

Therefore, for this scenario, a total of 3 storage containers should be created:

One container for 1000 instant clone virtual desktops

One container for 500 full clone virtual desktops

One container for 150 applications delivered via AppStacks

So the answer is C. 3.

### NEW QUESTION # 31

.....

With DumpsReview's Nutanix NCP-EUC Exam Training materials you can pass the Nutanix NCP-EUC exam easily. The training tools which designed by our website can help you pass the exam the first time. You only need to download the DumpsReview Nutanix NCP-EUC exam training materials, namely questions and answers, the exam will become very easy. DumpsReview guarantee that you will be able to pass the exam. If you are still hesitant, download our sample of material, then you can know the effect. Do not hesitate, add the exam material to your shopping cart quickly. If you miss it you will regret for a lifetime.
