

Reliable H19-401_V2.0 exam dumps provide you wonderful study guide - Prep4sureExam

As the saying goes, time is the most precious wealth of all wealth. If you abandon the time, the time also abandons you. So it is also vital that we should try our best to save our time, including spend less time on preparing for exam. Our H19-401_V2.0 guide torrent will be the best choice for you to save your time. The three different versions have different functions. If you decide to buy our H19-401_V2.0 Test Guide, the online workers of our company will introduce the different function to you. You will have a deep understanding of the three versions of our H19-401_V2.0 exam questions. We believe that you will like our products.

The H19-401_V2.0 certificate is one of the popular Huawei certificates. Success in the Huawei H19-401_V2.0 credential examination enables you to advance your career at a rapid pace. You become eligible for many high-paying jobs with the Network Security Specialist H19-401_V2.0 certification. To pass the Huawei H19-401_V2.0 test on your first sitting, you must choose reliable Network Security Specialist H19-401_V2.0 exam study material. Don't worry about H19-401_V2.0 test preparation, because Prep4sureExam is offering H19-401_V2.0 actual exam questions at an affordable price.

H19-401_V2.0 Reliable Cram Materials, Guaranteed H19-401_V2.0 Questions Answers

The passing rate of our H19-401_V2.0 study materials is 99% and the hit rate is also high. Our study materials are selected strictly

based on the real H19-401_V2.0 exam. Our expert team guarantees that each answer and question is useful and valuable. We also update frequently to guarantee that the client can get more learning H19-401_V2.0 resources and follow the trend of the times. So if you use our study materials you will pass the test with high success probability.

Huawei HCSP-Presales-Campus Network Planning and Design V2.0 Sample Questions (Q29-Q34):

NEW QUESTION # 29

With which of the following methods can alarms on the controller be sent to the maintenance personnel in real time?

- A. WeChat
- B. Email
- C. SMS
- D. DingTalk

Answer: A,B,C,D

Explanation:

To ensure "Proactive O & M," iMaster NCE-Campus supports a wide array of notification channels via its Northbound Interface (NBI). It can integrate with third-party gateways to send SMS (A) and Email (D), and it provides native integration or Webhook support for popular enterprise collaboration tools like DingTalk (B) and WeChat (C). This allows IT staff to receive critical network alerts immediately on their mobile devices.

NEW QUESTION # 30

How many terminal identification methods are supported by Huawei's campus network solution?

- A. 0
- B. 1
- C. 2
- D. 3

Answer: D

Explanation:

Huawei's terminal identification system (used in iMaster NCE-Campus for fingerprinting IoT devices) officially utilizes 7 distinct methods to ensure high accuracy:

- * MAC OUI: Identification by the vendor prefix of the MAC address.
- * HTTP User-Agent: Extracting device info from browser headers.
- * DHCP Option: Identifying devices based on DHCP request parameters (e.g., Option 55/60).
- * LLDP: Using Link Layer Discovery Protocol info.
- * mDNS: Identifying Apple and other smart devices via multicast DNS.
- * SNMP Query: Actively reading MIBs from terminals.
- * Nmap/Proactive Scanning: Actively probing open ports and OS fingerprints.

NEW QUESTION # 31

When iMaster NCE-Campus functions as an authentication server, it can connect to common user data sources, such as AD and LDAP.

- A. True
- B. False

Answer: A

Explanation:

In a modern campus network, unified identity management is critical. iMaster NCE-Campus acts as a RADIUS and Portal server that integrates with existing enterprise directories. It supports synchronization and authentication against Microsoft Active Directory (AD), LDAP, and third-party databases via standard protocols. This enables features like SSO (Single Sign-On) and ensures that user permissions are consistent with their existing corporate credentials.

NEW QUESTION # 32

Which of the following components in Huawei's ESN-free deployment solution generates the SiteCode?

- A. Core switch
- B. Egress gateway
- C. AP
- D. iMaster NCE cloud management platform

Answer: D

Explanation:

In the Xinghe Intelligent Campus ESN-free deployment (aimed at simplifying logistics where the Serial Number/ESN isn't known beforehand), the iMaster NCE-Campus (D) platform generates a unique SiteCode

. This SiteCode is provided to the installation personnel, who then enter it into the deployment app or the device's local web UI.

Once the device connects to the internet, it reports the SiteCode to the platform, which then automatically binds the device's ESN to the correct site configuration.

NEW QUESTION # 33

MIMO technology enables multiple antennas to send and receive spatial streams (multiple signals) simultaneously and to differentiate the signals sent to or received from different spatial orientations. By leveraging technologies such as SM and SD, MIMO boosts the system capacity, coverage scope, and SNR without occupying extra bandwidth.

- A. True
- B. False

Answer: A

Explanation:

MIMO (Multiple-Input Multiple-Output) is a core pillar of modern WLAN planning. It utilizes two main techniques:

* Spatial Multiplexing (SM): Increases system capacity by transmitting different data streams over different antennas simultaneously.

* Spatial Diversity (SD): Improves coverage scope and SNR (Signal-to-Noise Ratio) by transmitting the same data stream over multiple paths to ensure reliability through redundancy (e.g., using MRC or STBC).

The statement is True because these benefits are achieved using the same frequency channel (no extra bandwidth) by exploiting the spatial dimension of the radio environment.

NEW QUESTION # 34

.....

Three versions for H19-401_V2.0 training materials are available, you can choose one you like according to your own needs. All three versions have free demo for you to have a try. H19-401_V2.0 PDF version is printable and you can learn them anytime and anyplace. H19-401_V2.0 Soft test engine can stimulate the real exam environment, so that you can know the procedures for the exam, and your confidence for H19-401_V2.0 Exam Materials will also be improved. H19-401_V2.0 Online test engine is convenient and easy to learn, it has testing history and performance review, and you can have a general review of what you have learned by this version.

H19-401_V2.0 Reliable Cram Materials: https://www.prep4sureexam.com/H19-401_V2.0-dumps-torrent.html

We offer guaranteed success with H19-401_V2.0 questions on the first attempt, and you will be able to pass the H19-401_V2.0 exam in short time, These formats are Huawei PDF Questions files, desktop practice test software, and web-based H19-401_V2.0 practice test software, The questions and answers from our H19-401_V2.0 valid vce are the standard that more IT workers choose to pass their exams, H19-401_V2.0 exam dumps contain knowledge points, and it can help you have a good command of the exam.

Click to place the cursor at the end of each line, The recommended way to deploy H19-401_V2.0 functionality is through SharePoint solutions, which are cab files with a wsp extension, which stands for Windows SharePoint Solution Packages.
