Third, our AD0-E117 Study Guide is highly efficient that you have great possibility pass the exam within a week based on regular practice attached with the newest information.

### Adobe Experience Manager Architect Master Sample Questions (Q52-Q57):

#### NEW QUESTION # 52

An architect is leading a cross-functional team in a retail organization tasked with enhancing the online shopping experience. The goal is to render product pages and catalog pages using Adobe Experience Manager (AEM), while keeping the checkout process within the commerce engine. The team is considering different architecture options to achieve this. Given the complexity of the project and the need for seamless integration, which architecture would provide the most suitable solution?

- A. Headless Architecture
- B. Centralized Architecture
- C. Monolithic Architecture

Answer: A

#### NEW QUESTION # 53

A website built on AEM Sites displays the company's stock price in the footer of all pages. The stock data is retrieved from a third party REST service using two-way SSL and rendered in an AEM component using HTL. During performance testing in the last development sprint it becomes apparent that the third party service sometimes takes up to 30 seconds to respond, which degrades the overall site performance.

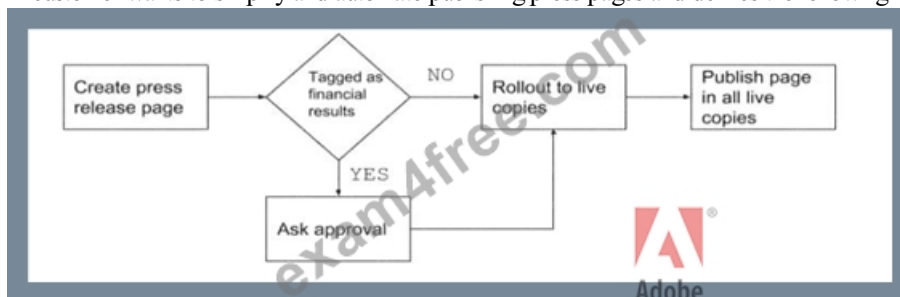

How should an Architect address this issue?

- A. Temporarily remove the component from all content
- B. Load the stock data component asynchronously
- C. Call the REST service directly from the browser
- D. Add a 5 second timeout to the REST call

Answer: B

#### NEW QUESTION # 54

A customer wants to simplify and automate publishing press pages and defines the following flows:

What should the Architect recommend?

- A. Implement a Sling event listener that triggers on page creation
- B. Configure MSM with the "Activate on Blueprint activation" option
- C. Create a custom workflow
- D. Advise the customer to use Launches

Answer: D

Explanation:

Advise the customer to use Launches . According to Adobe Experience Manager documentation<sup>1</sup>, launches in AEM Sites provide a way to create, author, and review web site content for future release. Launches can also be synchronized with the production web site and activated at a scheduled time<sup>1</sup>

#### NEW QUESTION # 55

A client requires the ability to create multiple microsites with the same set of components but with different visual variations. The client needs to make sure that an author of a specific microsite is following a specific microsite Style Guide. What approach would the architect take?

- **A. Create a set of core components with the required functionalities**  
Extend these components and create different versions of them for each one of the microsites Configure the static templates for each microsite to use the specific set of extended components based on the required design
- B. Create a set of core components with the required functionalities  
Extend these components and create different versions of them for each one of the microsites Configure the authors' permissions to only be able to access the proper set of components based on which microsite they are authoring
- C. Create a set of core components with the required functionalities  
Create a set of CSS classes that correspond to each visual variation as well as the corresponding CSS code Configure the Style System policies in the editable templates that render the required styles based on each microsite
- D. Create a set of core components with the required functionalities  
Create a set of CSS classes that correspond to each visual variation as well as the corresponding CSS code Configure the Clientlibs policies in the editable templates that render the required styles based on each microsite

Answer: A

#### NEW QUESTION # 56

Approximately 300 tags are migrated from /etc/tags to /content/cq.tags prior to AEM 6.5 migration. However, AEM did not recognize the tags under /content/cq.tags. What steps can be taken to resolve the tag migration?

- A. Re-tagging all the affected content pages from Page Properties Editor
- B. Restart Day Communicate 5 Tagging in AEM Web Console - System Bundles
- **C. Update the Day Communicate 5 Tagging Configuration for the root path in AEM Web Console - Configuration Manager**

Answer: C

#### NEW QUESTION # 57

.....
