NEW QUESTION # 224

You have a Microsoft 365 E5 tenant

You create a data loss prevention (DLP) policy to prevent users from using Microsoft Teams to share internal documents with external users.

To which two locations should you apply the policy? To answer, select the appropriate locations in the answer area.

NOTE: Each correct selection is worth one point.

☐

Answer:

Explanation:

☐

NEW QUESTION # 225

HOTSPOT

Your company uses a legacy on-premises LDAP directory that contains 100 users.

The company purchases a Microsoft 365 subscription.

You need to import the 100 users into Microsoft 365 by using the Microsoft 365 admin center.

Which type of file should you use and which properties are required? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

☐

Answer:

Explanation:

☐

Explanation

Box 1: CSV

Add multiple users in the Microsoft 365 admin center

Sign in to Microsoft 365 with your work or school account.

In the admin center, choose Users > Active users.

Select Add multiple users.

On the Import multiple users panel, you can optionally download a sample CSV file with or without sample data filled in.

Etc.

Note: More information about how to add users to Microsoft 365

Not sure what CSV format is?

A CSV file is a file with comma separated values. You can create or edit a file like this with any text editor or spreadsheet program, such as Excel.

Box 2: User Name and Display Name

What if I don't have all the information required for each user? The user name and display name are required, and you cannot add a new user without this information. If you don't have some of the other information, such as the fax, you can use a space plus a comma to indicate that the field should remain blank.
