If you have achieved credential such as PRINCE2-Agile-Foundation then it means a bright future is waiting for you. Avail the opportunity of PRINCE2-Agile-Foundation dump at FreeCram.com that helps you in achieving good scores in the exam. Due to these innovative methodologies students get help online. The PRINCE2-Agile-Foundation Exam Questions Answers PDF is very effective and greatly helpful in increasing the skills of students. They can easily cover the exam topics with more practice due to the unique set of PRINCE2-Agile-Foundation exam dump. The PRINCE2-Agile-Foundation certification learning is getting popular with the passage of time.

PRINCE2 Agile Foundation Sample Questions (Q13-Q18):

NEW QUESTION # 13

Which statement about the waterfall methodology definition is CORRECT?

- A. It focuses on responding to changing requirements
- B. It uses an iterative and incremental approach

- C. It delivers products more frequently in shorter phases
- D. It prevents earlier phases of development being revisited

Answer: D

NEW QUESTION # 14

Which is a responsibility of the product owner?

- A. Monitor progress of the stage
- B. Prepare and maintain the project backlog
- C. Prepare and maintain the product backlog
- D. Ensure project-level risks are identified and assessed

Answer: C

Explanation:

The product owner is responsible for preparing and maintaining the product backlog, ensuring it accurately reflects user requirements, priorities, and acceptance criteria. This role acts as the voice of the customer, maximizing product value by managing backlog items, ordering them to reflect business priorities, and clarifying requirements for development teams.

Monitoring stage progress (A) and managing project-level risks (B) are typically roles of the project manager or risk owner within PRINCE2 governance. The project backlog (C) contains higher-level requirements for the entire project and is not the product owner's direct responsibility.

The product owner bridges business and delivery, ensuring the team works on the most valuable features while maintaining clarity and quality of backlog items.

Reference: PRINCE2 Agile Foundation Version 2, Section 5.2 "Roles and Responsibilities," and PRINCE2 Agile Study Guide, Chapter 5.

NEW QUESTION # 15

Which statement about the 'protect the level of quality' target is CORRECT?

- A. It is unlikely to be achieved if incomplete user documentation is provided
- B. It avoids the use of extra people to improve progress during a timebox
- C. It allows change at the detailed level to be handled dynamically
- D. It is achieved by ensuring that all features are delivered

Answer: D

NEW QUESTION # 16

Which statement about the waterfall methodology definition is CORRECT?

- A. It is a behavior that involves making things transparent
- B. It states that deadlines should not be moved
- C. It has distinct goals for each stage of development
- D. It promotes the use of experiments carried out in a scientific way

Answer: C

NEW QUESTION # 17

Which of the following BEST describes stakeholders in a project?

- A. Those who will use project products
- B. Those who can affect or be affected by the project
- C. Those who can impact the project
- D. Those who have a formal role in the project team

Answer: B

Stakeholders are best described as those who can affect or be affected by the project. This definition is aligned with PRINCE2's view and recognized globally in project management standards. Stakeholders include anyone with an interest or influence in the project outcomes, including project team members, users, suppliers, and external entities. Understanding and managing stakeholder engagement is crucial for project success, as stakeholders' expectations and needs impact decisions and project delivery. Options A, B, and D describe subsets or partial perspectives of stakeholders but do not capture the full inclusive scope. Reference: PRINCE2 Agile Foundation Version 2, Section 4.3 "Stakeholder Engagement," and PRINCE2 Agile Study Guide, Chapter 3, "Principles and Themes."
