## UiPath UiAAAv1 Exam Questions - Easily Pass Your Exam

As you know, today's society is changing very fast. We also need new knowledge to fill in as we learn. And our UiAAAv1 learning prep can suit you most in this need for you will get the according certification as well as the latest information. UiAAAv1 Exam simulation is selected by many experts and constantly supplements and adjust our questions and answers. When you use our UiAAAv1 study materials, you can find the information you need at any time.

## UiPath Agentic Automation Associate Sample Questions (Q43-Q48):

### NEW QUESTION # 43

Scenario: A Citrix Administrator is investigating an instability in the system that is causing the Print Spooler service to stop frequently on the Virtual Delivery Agent (VDA) machine. The administrator finds printer driver conflicts in the environment and needs to remove the problem drivers while still maintaining printing functionality. Which policy setting can the administrator use to resolve this issue on the VDA machine?

- A. Automatic installation of in-box printer drivers
- B. Auto-create all client printers
- **C. Use universal printing only**
- D. Use only printer model specific drivers

**Answer: C**

Explanation:

By enabling the "Use universal printing only" policy, the VDA will rely exclusively on the Citrix Universal Print Driver instead of loading multiple printer model-specific drivers. This resolves driver conflicts, stabilizes the Print Spooler service, and maintains printing functionality.

#### NEW QUESTION # 44

Scenario: A Citrix Administrator needs to configure StoreFront to allow external users access to internal resources. The external users will authenticate on StoreFront. Which StoreFront authentication method can the administrator configure?

- A. Smart card
- B. HTTP Basic
- **C. Pass-through from NetScaler Gateway**
- D. Username and password

**Answer: C**

Explanation:

For external access, authentication is typically performed at Citrix NetScaler (now Citrix ADC).

StoreFront must then be configured with the "Pass-through from NetScaler Gateway" authentication method, allowing StoreFront to accept and trust the authentication performed externally.

#### NEW QUESTION # 45

Scenario: A Citrix Administrator needs to power-manage a group of Server OS Virtual Delivery Agent (VDA) machines that are all in the same Delivery Group. The administrator needs all the machines to be restarted once a week during the weekend. Additionally, a subset of the machines should be restarted every day during non-peak hours. Which feature must the administrator change from the default values in order to fulfill the requirements?

- A. Weekday and weekend hours
- B. Peak and non-peak hours
- C. Restart duration
- **D. Tag restrictions**

**Answer: D**

Explanation:

Tag restrictions allow administrators to apply different power management schedules to subsets of machines within the same Delivery Group. By tagging certain Server OS VDAs, the administrator can configure weekly restarts for all machines and daily restarts for only the tagged subset during non-peak hours.

#### NEW QUESTION # 46

Which feature can a Citrix Administrator use to publish applications from an Application Group, considering only a subset of the machines in the selected Delivery Group?

- A. Application Linging
- B. Session Sharing
- **C. Tag restriction**
- D. Limit Visibility

**Answer: C**

Explanation:

Tag restriction allows an administrator to publish applications from an Application Group but restrict them to run only on a subset of machines within the associated Delivery Group. This provides flexibility in controlling which resources are used for specific applications.

#### NEW QUESTION # 47

Which machine catalog supports the deployment of image updates using Citrix Studio?

- A. Manual provisioning
- **B. Machine Creation Services**
- C. Remote PC Access
- D. Citrix Provisioning

**Answer: B**

Explanation:

Machine Creation Services (MCS) integrates with Citrix Studio to manage and deploy image updates. When the master image is updated, MCS can roll out those changes to all machines in the catalog, making it the catalog type that supports image updates directly from Studio.

#### NEW QUESTION # 48

.....

There is no denying the fact that everyone in the world wants to find a better job to improve the quality of life. Generally speaking, these jobs are offered only by some well-known companies. In order to enter these famous companies, we must try our best to get some certificates as proof of our ability such as the UiAAAv1 Certification. Nowadays, the UiAAAv1 certification has been one of the criteria for many companies to recruit employees. And in order to obtain the UiAAAv1 certification, taking the UiAAAv1 exam becomes essential.
