300-745 Guaranteed Success, 300-745 Reliable Test Objectives

The reason why many people choose Lead2PassExam is that Lead2PassExam brings more convenience. IT elites of Lead2PassExam use their professional eye to search the latest 300-745 certification training materials, which ensure the accuracy of our 300-745 Exam Dumps. If you still worry, you can download 300-745 free demo before purchase.

Cisco Designing Cisco Security Infrastructure Sample Questions (Q43-Q48):

NEW QUESTION # 43

A logistics company wants to deploy an application in the cloud using cloud native techniques.

The company must ensure that the development, testing, and production environments are as identical as possible with the lowest risk of the development and testing environments impacting production. Which solution must be used to accomplish the task?

- A. network access control list
- **B. separate cloud accounts**
- C. service quotas
- D. lambda functions

Answer: B

Explanation:

Using separate cloud accounts for development, testing, and production ensures strong isolation between environments. This prevents accidental impact on production while maintaining consistent, cloud-native deployments across all stages with minimal risk.

NEW QUESTION # 44

A global hotel chain is using Cisco ISE and Cisco switches to manage the network. The hotel company wants to enhance network security by segmenting users and endpoints. The company must ensure that devices within the same VLAN cannot communicate with each other. The goal is to prevent cross-communication without the use of dynamic access control lists. Which action must be taken using Cisco ISE to meet the requirement?

- A. Implement device posturing.
- B. Enable identity groups.
- C. Set up endpoint profiling.
- **D. Configure TrustSec.**

Answer: D

Explanation:

Cisco TrustSec provides software-defined segmentation by assigning Security Group Tags (SGTs) to users and devices. This allows policy enforcement that prevents communication between devices in the same VLAN without needing dynamic ACLs. It is the correct approach to achieve secure segmentation in this scenario.

NEW QUESTION # 45

A legal services company wants to prevent remote employees from accessing personal email and social media accounts while using corporate laptops. Which security solution enforces the policy?

- A. RADIUS server
- **B. Cisco Umbrella**
- C. network monitoring tool
- D. Cisco TrustSec

Answer: B

Explanation:

Cisco Umbrella provides DNS-layer security and content filtering, allowing organizations to block categories such as personal email and social media. This enforces acceptable-use policies for remote employees regardless of where they connect, ensuring corporate devices comply with security requirements.

NEW QUESTION # 46

Employees in a healthcare organization could not access their devices when they returned to work after the weekend. The security team discovered that a threat actor had encrypted the devices. Which security solution would mitigate the risk in future?

- A. data loss prevention
- B. password policy enforcement
- **C. endpoint detection and response**
- D. network configuration management

Answer: C

Explanation:

Endpoint Detection and Response (EDR) provides continuous monitoring, detection, and automated response to suspicious activity on devices. It can identify and stop ransomware attacks before encryption occurs, mitigating the risk of device lockouts in the future.

NEW QUESTION # 47

Which two best practices align with incident response and compliance objectives? (Choose two.)

- A. Disable auditing to improve performance
- **B. Maintain immutable logs**
- C. Use shared admin credentials
- **D. Implement real-time monitoring**

Answer: B,D

Explanation:

Immutable logs preserve evidence integrity, while real-time monitoring allows faster detection and response-both essential for incident response and regulatory compliance.

NEW QUESTION # 48

.....

The Lead2PassExam is committed to helping the Cisco Designing Cisco Security Infrastructure exam candidates in the certification exam preparation and success journey. To achieve this objective the Lead2PassExam is offering valid, updated, and verified Cisco 300-745 Exam Questions in three different formats. These three different Cisco Designing Cisco Security Infrastructure exam dumps types are Cisco PDF Questions Links to an external site.
