

# Exam Oracle 1z0-1075-25 Format & 1z0-1075-25 Pass4sure Exam Prep

## Oracle 1Z0-1075-25 Oracle Manufacturing Cloud 2025 Implementation Professional QUESTION & ANSWERS

Visit Now: <https://www.dumps-certify.com>

Our top priority is to help every customer in cracking the Oracle Manufacturing Cloud 2025 Implementation Professional (1z0-1075-25) test. Therefore, we have created these formats so that every applicant can prepare successfully for the Oracle Manufacturing Cloud 2025 Implementation Professional (1z0-1075-25) exam on the first attempt. We are aware that the cost for the registration of the Oracle 1z0-1075-25 examination is not what everyone can pay. After paying the hefty Oracle Manufacturing Cloud 2025 Implementation Professional (1z0-1075-25) test registration fee, applicants usually run on a tight budget. This is why Pass4SureQuiz provides you with the Oracle Manufacturing Cloud 2025 Implementation Professional (1z0-1075-25) real questions with up to 1 year of free updates.

1z0-1075-25 exam and they all got help from real and updated Oracle 1z0-1075-25 exam questions. You can also be the next successful candidate for the 1z0-1075-25 certification exam. No doubt the Oracle 1z0-1075-25 Certification Exam is one of the most difficult Oracle certification exams in the modern Oracle world. This 1z0-1075-25 exam always gives a tough time to their candidates.

### 1z0-1075-25 Pass4sure Exam Prep, 1z0-1075-25 Reliable Dump

Now you do not need to worry about the relevancy and top standard of Pass4SureQuiz Oracle Manufacturing Cloud 2025 Implementation Professional (1z0-1075-25) exam questions. These Oracle 1z0-1075-25 dumps are designed and verified by qualified 1z0-1075-25 exam trainers. Now you can trust 1z0-1075-25 practice questions and start preparation without wasting further time. With the 1z0-1075-25 Exam Questions you will get everything that you need to learn, prepare and pass the challenging

## Oracle Manufacturing Cloud 2025 Implementation Professional Sample Questions (Q42-Q47):

### NEW QUESTION # 42

You are defining a standard operation for visual inspection. You want the completion of this standard operation to be reported in all work orders that reference it.

Which setup task must you perform to achieve this?

- A. Select the Automatically Transact check box while defining the standard operation.
- **B. Select the Count Point check box while defining the standard operation.**
- C. Deselect the Count Point check box while defining the standard operation.
- D. Ensure that the Charge Type of the resource is Automatic.

**Answer: B**

### NEW QUESTION # 43

A Production Operator is reporting an orderless transaction and realizes that the item has to be scrapped because some specifications were not met during one of the operations of the item. While performing orderless transactions, the operator notices that the Scrap and Return from Scrap transaction types are not available to transact.

Which privilege does the operator need to have to use these two transaction types?

- A. Print Work Order Traveler
- B. Return from Scrap Transactions
- **C. Report Scrap Transactions.**
- D. Report Material Transactions

**Answer: C**

Explanation:

In Oracle Manufacturing Cloud, for a Production Operator to perform scrap and return from scrap transactions during an orderless transaction, they must have the Report Scrap Transactions privilege. This allows them to properly record and reverse scrap transactions for any items that fail to meet specifications.

\* Report Scrap Transactions grants the operator the necessary permissions to use both the Scrap and Return from Scrap transaction types. Without this privilege, these transaction types will not be available in the system.

Incorrect options:

\* Return from Scrap Transactions (B) is not the correct privilege; the privilege to both scrap and return from scrap is covered under Report Scrap Transactions.

\* Print Work Order Traveler (C) and Report Material Transactions (D) are unrelated to scrap transaction reporting.

Oracle Cloud documentation on Privileges for Orderless Transactions describes the permissions required for handling scrap and return transactions.

### NEW QUESTION # 44

The pick release of a project work order creates movement requests with the project and the task from the work order.

Which statement is NOT true about this?

- A. The expenditure type and the expenditure organization from the work order are referenced onto the shop floor movement requests.
- **B. The expenditure type and the expenditure organization from the work order are not referenced onto the shop floor movement requests.**
- C. The expenditure type for the item is derived based on the Default Expenditure Type attribute in Inventory Management. The picks for the work order are grouped by project costing, project, and task using pick slip grouping rules.
- D. The expenditure type, expenditure date, and expenditure organization are derived when the work-in-process material issue or work-in-process material pick transactions are interfaced to Costing.

**Answer: B**

Explanation:

When pick release creates movement requests for project-based work orders, there are several key points regarding expenditure information:

\* Statement D : The expenditure type and the expenditure organization from the work order are not referenced onto the shop floor movement requests - This statement is correct because the expenditure type and organization are not typically included in the shop floor movement requests. These requests focus more on the material movement aspects, while expenditure details are managed elsewhere in the system.

Oracle Cost Management documentation clarifies that shop floor movement requests handle inventory and material flow, and expenditure information is derived later in the process, not directly tied to these requests.

Incorrect Statements:

Statement A : The expenditure type, date, and organization are derived when interfacing with Costing, which ensures that project-related costs are tracked accurately.

Statement B : The expenditure type for the item is derived based on the default expenditure type in Inventory Management, which is true for how items are picked for a work order.

Statement C : Expenditure type and organization from the work order are referenced in costing, but not directly on movement requests.

#### NEW QUESTION # 45

Which is NOT a required setup task for Manufacturing master data?

- A. Manage Plant Parameters
- **B. Manage Plant Profiles**
- C. Manage Production Resources
- D. Manage Work Areas
- E. Manage Work Centers

**Answer: B**

Explanation:

In Oracle Manufacturing Cloud, setting up the Manufacturing master data involves a series of required tasks to enable production operations. The following are the key setups:

\* Manage Production Resources : This setup task is essential for defining resources such as labor, equipment, and tools that are used in the manufacturing process. Resources are vital to the production planning and scheduling functions.

\* Manage Plant Parameters : This task is required to define how the plant will operate in terms of material handling, scheduling, costing, and other key operational metrics. These parameters control important aspects of how manufacturing will function at the plant level.

\* Manage Work Centers : Work centers represent the physical or logical locations where manufacturing operations occur. They must be set up for scheduling and executing production activities.

\* Manage Work Areas : Work areas are required to group related work centers and define operational zones within a plant. This is important for organizing production and ensuring efficient material flow.

\* Manage Plant Profiles : This task is not required for setting up manufacturing master data. Plant profiles are typically used for broader plant-level settings but are not directly tied to the manufacturing execution setup.

Oracle Manufacturing Cloud Implementation documentation outlines the mandatory steps needed to set up the manufacturing process, including work centers, work areas, resources, and plant parameters. Plant profiles are part of more administrative configuration and are not directly tied to production execution.

#### NEW QUESTION # 46

In a manufacturing plant, two purchase components, PI and P2, and a resource, RI, are required to assemble a product. The cost of the assembly is calculated by using the standard costing method. The work definition and resource rates for the assembly have been defined as Required.

A Cost Accountant is estimating cost of the assembly, and analyzing rolled-up costs before finally publishing estimates as frozen standards to Cost Accounting by using a Cost Planning Scenario. While reviewing rolled-up costs, the extended costs of purchase components are not included in a rolled-up scenario.

What is the reason for this?

- **A. Purchase components PI and P2 are not associated with the material cost plan of the Cost Planning Scenario.**
- B. Costs for purchase components PI and P2 are not defined In Cost Accounting.
- C. Create Accounting Distributions was not initiated.
- D. Create Accounting was not initiated.

**Answer: A**

Explanation:

In Oracle Manufacturing Cloud, when performing a cost analysis using Cost Planning Scenarios, all components and resources involved in the assembly must be associated with the material cost plan to be included in the rolled-up cost estimates. The reason the extended costs of purchase components (P1 and P2) are not included in the rolled-up scenario is that:

\* Purchase components P1 and P2 are not associated with the material cost plan of the Cost Planning Scenario. This means that although the components are defined in the system, they haven't been linked to the cost planning scenario, so their costs are not included in the rolled-up calculations.

Incorrect options:

\* Costs for purchase components P1 and P2 are not defined in Cost Accounting (A): While defining costs is necessary, the issue here is the components not being associated with the cost plan.

\* Create Accounting (C) and Create Accounting Distributions (D) are not relevant to the rolled-up scenario in this context, as they relate to the accounting process, not cost planning.

Oracle Cloud's Cost Accounting documentation details the setup required for purchase components to be included in cost roll-ups, emphasizing their association with cost plans.

## NEW QUESTION # 47

.....

our 1z0-1075-25 exam questions beckon exam candidates around the world with our attractive characters. Our experts made significant contribution to their excellence. So we can say bluntly that our 1z0-1075-25 simulating exam is the best. Our effort in building the content of our 1z0-1075-25 Study Materials lead to the development of learning guide and strengthen their perfection. To add up your interests and simplify some difficult points, our experts try their best to design our study material and help you understand the learning guide better.

**1z0-1075-25 Pass4sure Exam Prep:** <https://www.pass4surequiz.com/1z0-1075-25-exam-quiz.html>

Our 1z0-1075-25 exam braindumps have become a brand that is good enough to stand out in the market, Oracle Exam 1z0-1075-25 Format Our product is elaborately composed with major questions and answers, We also hired dedicated IT staff to continuously update our question bank daily, so no matter when you buy 1z0-1075-25 study materials, what you learn is the most advanced, Our company devoted ourselves to providing high-quality 1z0-1075-25 pdf vce to our customers since ten years ago.

Each review adds another line to the list in the left pane of the Tracker, Let's take a look at what each of these means, Our 1z0-1075-25 Exam Braindumps have become a brand that is good enough to stand out in the market.

## **Realistic Exam 1z0-1075-25 Format - 100% Pass Oracle Oracle Manufacturing Cloud 2025 Implementation Professional Pass4sure Exam Prep**

Our product is elaborately composed with 1z0-1075-25 major questions and answers, We also hired dedicated IT staff to continuously update our question bank daily, so no matter when you buy 1z0-1075-25 study materials, what you learn is the most advanced.

Our company devoted ourselves to providing high-quality 1z0-1075-25 pdf vce to our customers since ten years ago, Third, you wonder if our customer service is good, or if you fail the exam after you purchase our 1z0-1075-25 braindumps.
