NEW QUESTION # 61

Your default Vault retention policy for Gmail is set to 365 days. Your legal department has just informed you that emails sent and received by the customer support department are sensitive and must be retained for only 30 days. You must enforce this new retention policy in the simplest way. What should you do?

- A. Create two custom retention policies in Vault: one for 30 days that is applied to the customer support organizational unit (OU) and one for 365 days that is applied to all other OUs in your directory
- B. Change the current default retention policy in Vault for Gmail to 30 days and apply it to the customer support organizational unit (OU). Configure a custom retention policy for Gmail for 365 days for your domain
- C. **Create a custom retention policy in Vault for Gmail for 30 days and apply it to the customer support organizational unit (OU)**
- D. Change the current default retention policy for Gmail to 30 days. Configure two custom retention policies in Vault: one for 30 days that is applied to the customer support organizational unit (OU) and one for 365 days that is applied to all other OUs in your directory

Answer: C

Explanation:

Step by Step Comprehensive Detailed Explanation:

Access Google Vault: Sign in to Google Vault.

Retention Policies: Navigate to "Retention" from the side menu.

Create New Retention Rule: Click on "Create retention rule."

Set Duration: Set the retention period to 30 days.

Apply to OU: Apply this retention rule specifically to the organizational unit (OU) for the customer support department.

Exclude Default Rule: Ensure that this custom rule overrides the default 365-day retention policy for the customer support OU.

Save and Activate: Save the rule and ensure it is activated.

NEW QUESTION # 62

As a team manager, you need to create a vacation calendar that your team members can use to share their time off. You want to use the calendar to visualize online status for team members, especially if multiple individuals are on vacation. What should you do to create this calendar?

- A. Create a secondary calendar under your account, and give your team "Make changes to events" access.
- B. Request the creation of a calendar resource, configure the calendar to "Automatically add all invitations to this calendar," and give your team "See only free/busy" access.
- C. Create a secondary calendar under your account, and give your team "See only free/busy" access
- D. Request the creation of a calendar resource, configure the calendar to "Auto-accept invitations that do not conflict," and give your team "See all event details" access.

Answer: A

Explanation:

- * Create Secondary Calendar: As the team manager, create a new calendar under your Google account specifically for tracking team vacations.
- * Access Settings: Go to the calendar settings and navigate to "Share with specific people".
- * Grant Access: Add your team members and give them "Make changes to events" access, allowing them to add their vacation times directly to the calendar.
- * Educate Team: Inform team members on how to use this calendar to add their vacation times and check others' schedules.
- * Monitor Usage: Regularly review the calendar to ensure it is being used correctly and effectively by all team members.

NEW QUESTION # 63

When reloading Gmail in Chrome, the web browser returns a 500 Error. As part of the troubleshooting process, Google support asks you to gather logs. How can this be accomplished?

- A. Admin.google.com > Reporting > Reports > Apps Reports > Gmail
- B. chrome://net-export > Start Logging to Disk > Confirm validity with <https://netlog-viewer.appspot.com>
- C. Chrome > Window Context Menu > More Tools > Developer Tools > Network Tab > Reload the page to replicate the error > "Export HAR"
- D. Chrome > Window Context Menu > More Tools > Task Manager > Screen Capture List of Running Processes

Answer: C

Explanation:

- * Open Developer Tools:
 - * In Chrome, click the three dots menu (More).
 - * Select "More Tools" > "Developer Tools".
 - * Replicate the Error:
 - * Go to the "Network" tab in Developer Tools.
 - * Reload the Gmail page to replicate the 500 error.
 - * Export HAR:
 - * After the error is replicated, right-click on the network log.
 - * Select "Save all as HAR with content".
 - * Save the HAR file, which contains detailed logs of the network activity.

This file can then be provided to Google support for further analysis.

NEW QUESTION # 64

A retail company has high employee turnover due to the cyclical nature in the consumer space. The increase in leaked confidential content has created the need for a specific administrative role to monitor ongoing employee security investigations. What step should you take to increase the visibility of such investigations?

- A. Create a 'Custom Role' and add all the Google Vault privileges for a new administrator.
- B. Validate that the new administrator has access to Google Vault.
- C. Create a 'Custom Role' and add the ability to manage Google Vault matters, holds, searches, and exports.
- D. Assign the 'Services Admin' role to an administrator with 'Super Admin' privileges.

Answer: C

Explanation:

- * Access Admin Console: Log in to the Google Admin console.
- * Navigate to Admin Roles: Go to Admin roles under Account settings.
- * Create Custom Role: Click on 'Create new role' and name it appropriately.
- * Assign Vault Privileges: Select the privileges related to Google Vault, including managing matters, holds, searches, and exports.
- * Assign Role to User: Assign this custom role to the designated administrator who will handle the security investigations.
- * Verify Access: Ensure that the new administrator has the necessary access to Google Vault to monitor and manage ongoing security investigations.
