The Advanced-Administrator Exam Certification is an important evidence of your IT skills, which plays an important role in your IT career.

Salesforce Certified Advanced Administrator Sample Questions (Q18-Q23):

NEW QUESTION # 18
The administrator at AW Computing has received an email for a system error indicating that their organization has reached is hourly

limit processing workflow time triggers.
Which two processes should the administrator review? Choose 2 answers

- A. Apex Triggers
- B. Debug Logs
- C. Paused now Interviews
- D. Time-Based Workflows

Answer: B,D

Explanation:
Explanation
Time-based workflows are a type of workflow that execute actions based on a specific time trigger, such as a certain number of days before or after a date field on a record. Time-based workflows can cause delays in processing because they are added to a queue and processed in one-hour batches. If the queue is large or the system is busy, the actions may not execute at the exact time they are scheduled. Therefore, time-based workflows can contribute to reaching the hourly limit for processing workflow time triggers. References:
https://help.salesforce.com/s/articleView?id=sf.workflow_time_action_considerations.htm&type=5
https://help.salesforce.com/s/articleView?id=sf.workflow_limits.htm&type=5

NEW QUESTION # 19
AW Computing wants to embed a report chart on the Account record page that shows the value of closed sales for that account. The chart should be limited to users in the Sales Manager role on the Account record pages.
how should this be accomplished?

- A. Create a new page layout for the Sales Manager role.
- B. Filter component visibility for the Sales Manager role.
- C. Create a new report and assign it to the component.
- D. Filter component visibility for the Account ID.

Answer: D

Explanation:
Explanation
To embed a report chart on a record page, you need to use a lightning component that displays report charts.
You can filter the component visibility by setting conditions based on record fields, user attributes, or device type. In this case, you can filter the component visibility by matching the Account ID field on the report chart with the Account ID field on the record page. This will ensure that only the relevant data for that account is shown on the chart. References:
https://help.salesforce.com/s/articleView?id=sf.reports_embed_chart_lightning.htm&type=5
https://help.salesforce.com/s/articleView?id=sf.app_builder_set_component_visibility.htm&type=5

NEW QUESTION # 20
AW Computers has enabled the feature for Contact to multiple Accounts. A rep is trying to remove the primary Account from a Contact but is unable to do so. The administrator has already updated the page layout to no longer require an Account.
What could be the issue?

- A. A primary Account relationship is required on a Contact regardless of the page layout settings.
- B. Private Contacts need to be enabled in Setup.
- C. The Account Contact relationship record needs to be deleted first in order to disassociate the Contact from the Account.
- D. The Contact has indirect relationships to other Accounts.

Answer: A

Explanation:
A primary account relationship is a feature that allows you to link a contact to a single account as its primary account. A primary account relationship is required on a contact regardless of the page layout settings or the contact to multiple accounts feature. This means that you cannot remove the primary account from a contact, but you can change it to another account. You can also add secondary accounts to a contact if you have enabled the contact to multiple accounts feature. References:

htm&type=5

NEW QUESTION # 21

Users report they are getting an Apex trigger error when they try to save a specific Account record. How could an administrator collect more information about the processing for that record?

- A. Review the Setup Audit Trail
- B. Create a Flow with a fault connector.
- C. Enable debug Logging for the user.
- D. Activate debug logging for the Apex trigger.

Answer: A

NEW QUESTION # 22

See the 4-week moving average of the number of new cases (1)

- A. custom report type
- B. cross filter
- C. dashboard filter
- D. reporting snapshot
- E. PREVGROUPVAL function
- F. bucket field

Answer: E

NEW QUESTION # 23
