

# Take Apple DEP-2025 Web-Based Practice Test on Popular Browsers

P.S. Free & New DEP-2025 dumps are available on Google Drive shared by DumpsActual: <https://drive.google.com/open?id=1ANgcd8mQQptx1Whj8RM8Cu-qGKFsPFmW>

Thus, it will allow you to examine the Apple DEP-2025 Dumps before purchasing it. DumpsActual proudly presents the exceptional Apple DEP-2025 material that will meet your expectations. Beware that the sections of the exam change from time to time. Therefore, be alert by checking the updates frequently. It will prevent you from wasting time, material expenses, and inner peace.

## Apple DEP-2025 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none"><li>Identity Services: This section of the exam measures the skills of an MDM Specialist and covers supported identity services on Apple devices, including Platform SSO and Single Sign-On, helping users manage secure access and authentication.</li></ul>
Topic 2	<ul style="list-style-type: none"><li>Apple Configurator: This section of the exam measures the skills of an IT Administrator and covers the usage of Apple Configurator in enrollment, supervision, and deployment of Apple devices. It includes an overview of its features and setup processes.</li></ul>
Topic 3	<ul style="list-style-type: none"><li>Network Integration: This section of the exam measures the skills of an IT Administrator and covers assessing network responsiveness and device connectivity. It also covers wireless auto-join behavior on Apple devices and ensures strong network coverage.</li></ul>
Topic 4	<ul style="list-style-type: none"><li>Apple Business Manager and Apple School Manager: This section of the exam measures the skills of an MDM Specialist and covers managing connections to resellers and managing device suppliers. It emphasizes the use of Apple Business Manager or School Manager to streamline large-scale deployments.</li></ul>
Topic 5	<ul style="list-style-type: none"><li>Device Support: This section of the exam measures the skills of an IT Administrator and covers troubleshooting Mac startup, recovery, and password reset processes using macOS Recovery. It ensures support professionals can maintain and restore device functionality.</li></ul>
Topic 6	<ul style="list-style-type: none"><li>Device Setup: This section of the exam measures the skills of an MDM Specialist and covers strategies and use cases for managing Setup Assistant via MDM. It also covers the configuration of enrollment-related settings and pane options.</li></ul>

Topic 7	<ul style="list-style-type: none"> <li>• <b>Plan a Deployment:</b> This section of the exam measures the skills of an MDM Specialist and covers the purpose and function of Apple's built-in MDM framework. It evaluates the foundational understanding needed to support the deployment of Apple devices at scale using MDM protocols and tools.</li> </ul>
Topic 8	<ul style="list-style-type: none"> <li>• <b>Manage Content and Data Flow:</b> This section of the exam measures the skills of an IT Administrator and covers app distribution methods including managed, custom, and proprietary apps. It focuses on content purchasing and delivery through Apple Business or School Manager.</li> </ul>
Topic 9	<ul style="list-style-type: none"> <li>• <b>Device Enrollment:</b> This section of the exam measures the skills of an MDM Specialist and covers the three main enrollment methods for Apple devices, their core concepts, and their properties. It prepares candidates to make appropriate choices based on organizational needs.</li> </ul>
Topic 10	<ul style="list-style-type: none"> <li>• <b>Software Updates:</b> This section of the exam measures the skills of an MDM Specialist and covers update management strategies using MDM. It includes handling deadlines, updating behavior, and ensuring that updates are properly delivered and installed.</li> </ul>
Topic 11	<ul style="list-style-type: none"> <li>• <b>Device Security:</b> This section of the exam measures the skills of an MDM Specialist and covers encryption on Apple platforms, FileVault operations, and the importance of key management. It focuses on protecting sensitive data on managed devices.</li> </ul>
Topic 12	<ul style="list-style-type: none"> <li>• <b>Planning Device Ownership and Enrollment:</b> This section of the exam measures the skills of an IT Administrator and covers enrollment planning strategies based on ownership models. It focuses on data separation and appropriate deployment paths based on user and organizational requirements.</li> </ul>
Topic 13	<ul style="list-style-type: none"> <li>• <b>Prepare Your Environment:</b> This section of the exam measures the skills of an IT Administrator and covers the important factors involved in evaluating and preparing the environment for a successful MDM implementation. It emphasizes strategic planning before rollout.</li> </ul>

## Latest DEP-2025 study materials

Now we live in a highly competitive world. If you want to find a decent job and earn a high salary you must own excellent competences and rich knowledge. Under this circumstance, owning a DEP-2025 guide torrent is very important because it means you master good competences in certain areas and can handle the job well. The DEP-2025 Exam Prep we provide can help you realize your dream to pass DEP-2025 exam and then own a DEP-2025 exam torrent easily.

## Apple Deployment and Management Exam Sample Questions (Q161-Q166):

### NEW QUESTION # 161

When does an MDM server token expire?

- A. Every 6 months
- B. When new Terms and Conditions are accepted
- C. When the Managed Apple Account password is changed
- **D. Every 12 months**

**Answer: D**

Explanation:

Server tokens expire annually. The Apple Business Manager User Guide states, "The MDM server token expires every 12 months and must be renewed to maintain enrollment functionality." Reference:

Apple Business Manager User Guide, "MDM Server Token" section.

Mobile Device Management Protocol Reference, "Token Renewal" section.

### NEW QUESTION # 162

What's required to use Automated Device Enrollment?

- A. An Apple Developer account
- **B. Apple Business Manager or Apple School Manager**
- C. User acceptance
- D. A VPN configuration

**Answer: B**

Explanation:

Automated Device Enrollment (ADE) requires Apple Business Manager (ABM) or Apple School Manager (ASM) to register devices purchased from Apple or authorized resellers. These portals link devices to an MDM solution for automatic enrollment and supervision during setup. An Apple Developer account (option A) is for app development, not ADE. User acceptance (option C) isn't needed, as ADE is automatic. A VPN configuration (option D) is unrelated. The Apple Platform Deployment Guide mandates ABM/ASM for ADE.

#### NEW QUESTION # 163

Your organization buys devices from a new Apple Authorized Reseller. You want to ensure that your devices appear in Apple Business Manager or Apple School Manager. What information do you need to add in Apple Business Manager or Apple School Manager?

- A. D-U-N-S Number
- B. Purchase Order Number
- C. Organization ID
- **D. Reseller Number**

**Answer: D**

Explanation:

To link a new Apple Authorized Reseller to your Apple Business Manager (ABM) or Apple School Manager (ASM) account, you must add the reseller's Reseller Number (also known as the Apple Customer Number).

The Apple Business Manager User Guide states, "To ensure devices purchased from a new Apple Authorized Reseller appear in Apple Business Manager, add the reseller's Reseller Number in the 'Resellers' section of your account settings." Option B (Organization ID) is provided to the reseller, not added in ABM/ASM, while A and C are not required for this purpose.

References:

Apple Business Manager User Guide, "Add Resellers" section.

Apple Platform Deployment Guide, "Device Purchasing" section.

#### NEW QUESTION # 164

You configured MDM to enforce a minimum operating system version during enrollment. What happens when a device that doesn't meet this requirement tries to enroll using Automated Device Enrollment?

- **A. The device updates and resumes Setup Assistant automatically.**
- B. The device updates after completing Setup Assistant.
- C. The device enrolls and allows the update to be deferred up to seven days.
- D. The device doesn't enroll.

**Answer: A**

Explanation:

Apple's Automated Device Enrollment supports a minimum OS requirement setting in MDM. If a device attempts enrollment but does not meet this OS version, Setup Assistant automatically pauses and prompts the device to update. The update is applied immediately, and once complete, the device continues enrollment and resumes Setup Assistant from where it left off. Apple Learning emphasizes this ensures that devices are compliant from the start, reducing post-enrollment remediation. Users cannot bypass or defer the update. This workflow helps organizations maintain consistency across fleets, ensuring all devices meet baseline security and app compatibility requirements before proceeding.

References: Apple Platform Deployment - "Require a minimum OS version during Automated Device Enrollment."

What do you use to manually add a device to Apple Business Manager or Apple School Manager?

- Answer: D**

Apple Configurator is the tool for manually adding devices to ABM or ASM, especially for devices not purchased directly from Apple. The Apple Configurator User Guide states, "Use Apple Configurator to add devices to Apple Business Manager or Apple School Manager by connecting them to a Mac via USB. This process supervises the devices and assigns them to your organization's MDM server." Options A, B, and C serve other purposes and cannot perform this task.

Apple Configurator User Guide, "Adding Devices to Apple Business Manager" section.
