

OGEA-101 Certification Dump - OGEA-101 Latest Test Bootcamp

BTW, DOWNLOAD part of Lead2Passed OGEA-101 dumps from Cloud Storage: <https://drive.google.com/open?id=1RivqJ3Ni28qOUuZYHxmgdhBiljSHsgUW>

Most of our clients found our OGEA-101 exam questions and answers amazing. All they learned from Lead2Passed is that the The Open Group OGEA-101 practice test questions were accurately similar to the actual questions they faced on their TOGAF Enterprise Architecture Part 1 Exam exam. It made them utterly confident to go through the whole process of the TOGAF Enterprise Architecture Part 1 Exam. Feel free to compare our quality of The Open Group OGEA-101 Exam Questions dumps with other courses. Nothing can help people pass their The Open Group OGEA-101 certification exam more than we do. Even people who were on their first time taking The Open Group Target OGEA-101 certification can pass their TOGAF Enterprise Architecture Part 1 Exam exam with Lead2Passed's help.

The Open Group OGEA-101 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none"> Architecture Governance: This topic of The Open Group OGEA-101 exam covers the governance framework and responsibilities of architecture boards. It evaluates the skills of TOGAF practitioners in establishing governance structures.
Topic 2	<ul style="list-style-type: none"> Introduction to the Architecture Development Method (ADM): The ADM is central to TOGAF, outlining a structured approach to developing and managing enterprise architecture. This section assesses comprehension of TOGAF practitioners about the ADM phases and their application, ensuring they grasp the method's iterative nature, which is vital for the OGEA-101 exam.
Topic 3	<ul style="list-style-type: none"> Architecture Change Management: Focusing on managing architecture changes, this topic of the TOGAF Enterprise Architecture Part 1 exam assesses skills of practitioners in handling change requests and maintaining architecture repositories.
Topic 4	<ul style="list-style-type: none"> Information Systems Architecture: Focusing on data and application architectures, this topic of the OGEA-101 exam assesses ability of TOGAF practitioners to define and manage information systems. It measures their skills in identifying data entities and application components.
Topic 5	<ul style="list-style-type: none"> Implementation Governance: This topic of The Open Group OGEA-101 Exam emphasizes the governance framework for architecture implementation, including compliance processes. It measures the understanding of TOGAF practitioners about governance principles, a key competency for the OGEA-101 exam.
Topic 6	<ul style="list-style-type: none"> Architecture Vision: Aspiring TOGAF practitioners learn to develop an architecture vision that aligns with business goals and drivers. This topic evaluates the skills in articulating a clear and compelling vision, a necessary competency for successfully navigating the OGEA-101 exam and implementing enterprise architecture.

Topic 7	<ul style="list-style-type: none"> • ADM Phase Requirements: This topic of the TOGAF Enterprise Architecture Part 1 exam focuses on the specific requirements for each ADM phase, including stakeholder identification and architecture scope definition. It measures the ability of aspiring TOGAF Practitioner to apply these requirements in real-world scenarios.
Topic 8	<ul style="list-style-type: none"> • Fundamental Concepts of Enterprise Architecture: This topic covers the definition, purpose, and benefits of enterprise architecture, emphasizing its role in aligning business objectives with IT strategies. It measures the understanding of TOGAF practitioners about foundational principles essential for effective enterprise architecture practice, crucial for passing the OGEA-101 exam.

Master The Open Group OGEA-101 Exam Topics

With the company of our OGEA-101 study dumps, you will find the direction of success. There is nothing more exciting than an effective and useful OGEA-101 question bank to study with for your coming exam. The sooner you use OGEA-101 Training Materials, the more chance you will pass the OGEA-101 exam, and the earlier you get your certificate. You definitely have to have a try and you will be satisfied without doubt.

The Open Group TOGAF Enterprise Architecture Part 1 Exam Sample Questions (Q23-Q28):

NEW QUESTION # 23

Which section of the TOGAF template for Architecture Principles should highlight the requirements for carrying out the principle?

- A. Rationale
- B. Name
- C. Implications
- D. Statement

Answer: C

Explanation:

The Implications section describes the impact of adhering to the principle on the organization, the processes, the information systems, and the technology²³. It also identifies the changes, costs, and risks that may result from applying the principle²³. The Implications section helps to communicate the benefits and consequences of the principle to the stakeholders and to guide the implementation and governance of the architecture²³.

The other sections of the TOGAF template for Architecture Principles are¹:

*Name: This section provides a short and memorable name for the principle that represents its essence and purpose²³. The name should not mention any specific technology or solution²³.

*Statement: This section provides a concise and formal definition of the principle that expresses the fundamental rule or constraint that the principle imposes²³. The statement should be clear, unambiguous, and testable²³.

*Rationale: This section provides the reasoning and justification for the principle, explaining why it is important and how it supports the business goals and drivers²³. The rationale should also link the principle to the higher-level enterprise or IT principles that it elaborates on²³.

NEW QUESTION # 24

Complete the sentence. Actions arising from the Business Transformation Readiness Assessment technique should be incorporated in the

- A. Architecture Roadmap
- B. Implementation Governance Model
- C. Architecture Requirements Specification
- D. Implementation and Migration Plan

Answer: D

Explanation:

The Business Transformation Readiness Assessment technique is used to evaluate the readiness of the organization to undergo change and to identify the actions needed to increase the likelihood of a successful business transformation. These actions should be incorporated in the Implementation and Migration Plan, which is the detailed plan to transition from the Baseline Architecture to the Target Architecture. The Implementation and Migration Plan also includes the Transition Architectures, the Architecture Building Blocks, the Work Packages, the Implementation Governance Model, and the Architecture Contract¹² Reference: 1: The TOGAF Standard, Version 9.2, Part III: ADM Guidelines and Techniques, Chapter 27: Business Transformation Readiness Assessment 2: The TOGAF Standard, Version 9.2, Part II: Architecture Development Method (ADM), Chapter 21: Phase F: Migration Planning

NEW QUESTION # 25

Which ADM Phase includes initial implementation planning?

- A. Phase H
- B. Preliminary
- **C. Phase E**
- D. Phase A

Answer: C

Explanation:

In TOGAF, Phase E (Opportunities & Solutions) is the first phase that transitions from architecture models into actionable implementation. Within Phase E, architects identify candidate implementation projects or work packages, assess dependencies, cost/benefit, constraints, and derive a high-level implementation and migration strategy and initial plans. That means the first planning around how to carry out the architecture begins in Phase E. Later phases refine and govern the implementation (e.g. in Phase F and G), but the initial planning belongs in Phase E. Thus Phase E includes the initial implementation planning.

NEW QUESTION # 26

Which of the following is a responsibility of an Architecture Board?

- **A. Establishing targets for re-use of components**
- B. Conducting assessments of the maturity level of architecture discipline within the organization
- C. Allocating resources for architecture projects
- D. Creating the Statement of Architecture Work

Answer: A

Explanation:

* An Architecture Board is an executive-level group responsible for the review and maintenance of the strategic architecture and all of its sub-architectures¹. It is a key element in a successful Architecture Governance strategy².

* An Architecture Board is typically made responsible, and accountable, for achieving some or all of the following goals²:

oProviding the basis for all decision-making with regard to the architectures
oConsistency between sub-architectures
oEstablishing targets for re-use of components
oFlexibility of the Enterprise Architecture: To meet changing business needs
To leverage new technologies
oEnforcement of Architecture Compliance
oImproving the maturity level of architecture discipline within the organization
oEnsuring that the discipline of architecture-based development is adopted
oSupporting a visible escalation capability for out-of-bounds decisions

* Therefore, the correct answer is option D, which captures one of the goals of an Architecture Board as stated in the TOGAF Standard, Version 9.2².

* Option A is incorrect, because conducting assessments of the maturity level of architecture discipline within the organization is not a direct responsibility of an Architecture Board, but rather a part of the Architecture Capability Framework³.

* Option B is incorrect, because allocating resources for architecture projects is not a direct responsibility of an Architecture Board, but rather a part of the Architecture Governance Framework⁴.

* Option C is incorrect, because creating the Statement of Architecture Work is not a direct responsibility of an Architecture Board, but rather a part of the Architecture Development Method⁵. Reference:

* 1: Architecture Board - The Open Group³

* 2: TOGAF Standard, Version 9.2 - Part VI: Architecture Governance Framework - Architecture Board

* 3: TOGAF Standard, Version 9.2 - Part VI: Architecture Governance Framework - Architecture Capability Framework

* 4: TOGAF Standard, Version 9.2 - Part VI: Architecture Governance Framework - Architecture Governance Framework

NEW QUESTION # 27

Refer to the table below:

Which ADM Phase does this describe?

- A. Phase C
- B. Preliminary Phase
- C. Phase A
- **D. Phase B**

Answer: D

Explanation:

Phase B of the ADM cycle is the Business Architecture phase. It describes the development of a Business Architecture to support an agreed Architecture Vision. The objectives of this phase are to describe the baseline and target Business Architecture, identify candidate Architecture Roadmap components based on gaps between the baseline and target, and determine whether an incremental approach is required. Reference:

The TOGAF Standard | The Open Group Website, Section 3.2.2 Phase B: Business Architecture.

NEW QUESTION # 28
