NEW QUESTION # 16

During discovery, the customer required a feature that is not inducted in the standard Storefront Reference Architecture (SFRA). In

order to save budget, the Architect needs to find the quickest way to implement this feature.

What is the primary resource the Architect should use to search for an existing community Implementation of the requested feature?

- **A. Salesforce Commerce Cloud GitHub repository**
- B. Salesforce Commerce Cloud Trailblazer community
- C. Salesforce Trailblazer Portal
- D. Salesforce B2C Commerce Documentation

Answer: A

Explanation:

When seeking a community implementation of a feature not included in the standard Storefront Reference Architecture (SFRA), the primary resource should be the Salesforce Commerce Cloud GitHub repository (Answer A). This repository often contains projects and code samples contributed by other developers in the community, which might include custom implementations that could be adapted to meet the customer's requirements. This approach not only leverages existing solutions that have been shared publicly but also can significantly save time and resources in development.
