Now on the Internet, a lot of online learning platform management is not standard, some web information may include some viruses, cause far-reaching influence to pay end users and adverse effect. Choose the PRINCE2-Practitioner Study Tool, can help users quickly analysis in the difficult point, high efficiency of review, and high quality through the PRINCE2 Practitioner Exam exam, work for our future employment and increase the weight of the promotion, to better meet the needs of their own development.

PRINCE2 Practitioner Exam Sample Questions (Q100-Q105):

NEW QUESTION # 100

Which 2 statements should be recorded under the Major risks heading?

- A. Owing to employment contract changes staff may resist outsourcing, which would make it difficult to transfer staff to the selected service provider.
- B. MFH's operations may be reduced and the 1a-year contract may not achieve its estimated value of E80m, which would reduce the service provider's profit.
- C. Due to market conditions a suitable service provider may not be found, possibly leading to premature closure of the project.
- D. The initial estimates, taken from the feasibility study report, indicate that the project will take two years to complete, which means that the business problems would remain for this period.
- E. The management stages recommended by the consultants may not be appropriate, resulting in confusion in planning.

Answer: A,D

Explanation:

 Business Case Theme
 Question Set 3

NEW QUESTION # 101

At the end of stage 2, an external consultant responsible for developing the 'e-learning course', was appointed to the project board as a senior supplier. The stage 3 plan identifies the consultant as a reviewer of the 'e-learning course'. When preparing for a quality review of the 'e-learning course', the consultant found 15 possible errors. The consultant then documented these possible errors in the quality register. Is this an appropriate activity when preparing for a quality review, and why?

- A. Yes, because the quality reviewers should update the quality register as quality review activities are completed.
- B. Yes, because each team manager should update the quality register as quality review activities are completed.
- C. No, because possible errors that are found when preparing for a quality review should be documented on a question list.
- D. No, because the senior supplier should not be identified as a reviewer as part of the quality review technique.

Answer: A

NEW QUESTION # 102

Project Scenario - Health and Safety Training Project:

ABC Company is a well-established training company that uses a standard model to develop training materials and deliver courses to customers.

ABC Company has commissioned a project in response to recent changes in government legislation relating to health and safety on construction sites. The project will deliver "capability to provide health and safety training", including the materials needed for classroom-based training and e-learning. The expected benefits for construction companies include a reduction in lost days and legal costs due to accidents.

The e-learning course will be developed by a specialist external consultancy. The materials for classroom-based training will be delivered by ABC Company's development team. All course materials will be piloted before they are used. ABC Company will deliver training to its customers and also hopes to sell the course materials to other training companies as part of their operational business. ABC Company will use their own sales and marketing departments to promote the courses.

The legislation requires construction companies to comply with the new legislation within two years. The course materials and trainers have to be accredited by a government agency before courses can be delivered.

ABC Company is planning to deliver pilot courses within five months of starting the project.

The ABC Company standard development model for new courses recommends the following stages:

Stage 1	Initiation stage
Stage 2	Classroom-based training materials Marketing materials Training venue specifications Accredited classroom-based course
Stage 3	E-learning course Amended course booking procedures Marketed courses Planned pilot courses Updated corporate quality procedures Accredited e-learning course Accredited trainers
Stage 4	Delivered pilot courses Finalized materials Project product: Capability to provide health and safety training

End of the Project scenario.

Additional Information:

The Chief Executive Officer (CEO) founded the company five years ago. Under her leadership, ABC Company has grown quickly into a successful training company. It delivers a range of accredited professional training.

The Finance Director is also a founder member of ABC Company and is responsible for authorizing budgets for the Operations and Development Teams. She authorizes all large contracts personally.

The Purchasing Manager reports to the Finance Director and is responsible for managing and monitoring supplier contracts.

The Operations Director is responsible for the delivery of all training and for the training development budget. His department organizes courses, venues and trainers. They work with the Product and the Sales teams to provide a comprehensive training schedule. ABC Company's IT manager reports to the Operations Director.

The Business Development Director has recently been appointed to identify new training needs and propose new products. She will work with the Operations Director to ensure a cost-conscious approach and that appropriate development technologies are used for the health and safety course.

The Training Development Manager reports to the Business Development Director and is responsible for developing training materials and gaining accreditation, in accordance with the standard course development model. Course developers in his team have skills in a range of development technologies and are allocated to projects as needed.

The Training Delivery Manager, who reports to the Operations Director, is responsible for ensuring that internal and external trainers deliver ABC Company training courses to the required standard. He also checks course materials to ensure they are fit for purpose and of the required quality.

The Central Services Director has responsibility for corporate communications, facilities management and configuration management. He recently led a project to consolidate all company quality systems into one quality management system and set up a corporate quality department, now managed by the Corporate Quality Manager.

The Corporate Document Manager reports to the Central Services Director. She helped establish the company's document management system and now operates it across the business. She manages a team of administrators and contracts staff when workload is high.

The Sales Director joined ABC Company two months ago and is keen to establish himself by suggesting new markets for the courses and material. All account managers and the marketing team report to him. They promote existing training courses to other training companies and existing customers.

End of the additional information.

During stage 3, a work package was assigned to produce the 'planned pilot courses'. The product's quality criteria were defined and baselined before the work package was agreed.

Which principle is being applied, and why?

- A. 'Focus on products', because delivering a product's complete set of features is more important than delivering it on time or to cost.
- B. 'Focus on products', because a product should be agreed and defined to a reasonable extent before production begins.
- C. 'Continued business justification', because the business justification is partly defined in the product description of a specialist product.
- D. 'Continued business justification', because both work activities and products contribute to the success of the project.

Answer: B

NEW QUESTION # 103

HOTSPOT

Drop down the right answer from Column 1 to column 2.

Hot Area:

Column 1	Column 2
This plan includes the detailed design of the process model, systems model, operating model and organization model.	<input type="text"/> Plan description Plan prerequisites External dependencies Planning assumptions Lessons incorporated Monitoring and control Budgets Tolerances Schedule
A monthly stage status report will be provided to the Project Board.	<input type="text"/> Plan description Plan prerequisites External dependencies Planning assumptions Lessons incorporated Monitoring and control Budgets

The high-level models, produced in the feasibility study by the management consultant, will be used by the project.

Tolerances
Schedule

The Project Board has approved the recommendation to outsource both the Information Technology Division and the Facilities Division to one service provider and this decision must remain in place.

NEW QUESTION # 104

Scenario:

Techniques, processes and procedures

1. Any threat that may result in a loss of MFH data must be escalated immediately.

Joint agreements

2. Work is to start at the beginning of week 2 (Stage 4).
3. The project will take two years to complete, at an estimated cost of £2.5m

Tolerances

4. None.

Constraints

5. MFH staff must not be involved in any heavy lifting during the removal of existing IT equipment.
6. Installation work must take place during MFH normal working hours.
7. +£10,000 / -£25,000.

Reporting arrangements

8. Highlight Report every Monday by 10.00 am
9. The report must contain a summary of all products worked on during the previous week.
10. Project Manager must be notified of any issues immediately by telephone.

Problem handling and escalation

11. Impact analysis of all issues must be completed within 24 hours.

Extracts or references

12. The Stage Plan for stage 4 is available from Project Support.

Approval method

13. Project Assurance will review the completed Work Package and confirm completion Which 2 statements apply to either the Reporting arrangements or Problem handling and escalation sections?

- A. Replace entry 8 with 'Checkpoint Report every Monday by 10.00 am' because Highlight Reports are intended for the Project Board.
- B. Delete entry 9 because this level of detail is unnecessary.
- C. Add 'Any risks identified to be added to the Risk Register' to Reporting arrangements.
- D. Move entry 10 to Problem handling and escalation because that section describes how issues are handled.
- E. Delete entry 11 because the impact analysis should be provided when the issue is notified.

Answer: C,E
