Microsoft SC-900 exam is an important certification for IT professionals and security practitioners who are looking to validate their knowledge of security, compliance, and identity management. Microsoft Security, Compliance, and Identity Fundamentals certification can help individuals advance their careers by providing them with the skills and knowledge needed to succeed in the ever-evolving field of cybersecurity.

The SC-900 exam covers a range of topics such as security concepts, security capabilities in Azure, identity and access management, compliance, and governance. Candidates are expected to have a basic understanding of the cloud computing model and the ability to identify and describe various types of cloud services, including software as a service (SaaS), platform as a service (PaaS), and infrastructure as a service (IaaS). SC-900 Exam consists of 40-60 questions and has a 60-minute time limit. Passing SC-900 exam validates the candidate's knowledge and understanding of essential security, compliance, and identity concepts and provides a solid foundation for further certification and skill development.
