## C\_CPI\_2506 Verified Answers & Online C\_CPI\_2506 Bootcamps

Our C\_CPI\_2506 practice guide is cited for the outstanding service. In fact, we have invested many efforts to train our workers. All workers will take part in regular training to learn our C\_CPI\_2506 study materials. So their service spirits are excellent. We have specific workers to be responsible for answering customers' consultation about the C\_CPI\_2506 Learning Materials. All our efforts are aimed to give the best quality of C\_CPI\_2506 exam questions and best service to our customers.

## SAP C\_CPI\_2506 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none"><li>Implementing Cloud Integration: This section of the exam measures the skills of Integration Consultants and examines how cloud integration flows are designed and deployed. It emphasizes creating integration scenarios, handling connectivity, and applying best practices to build efficient, secure, and reliable integration processes in SAP's cloud environment.</li></ul>
Topic 2	<ul style="list-style-type: none"><li>SAP Event Mesh: This section of the exam measures the skills of Solution Architects and centers on using SAP Event Mesh to support event-driven integration. It highlights the importance of asynchronous communication, event publishing, and subscription models, allowing organizations to build scalable and decoupled systems.</li></ul>

Topic 3	<ul style="list-style-type: none"> <li>• <b>SAP Integration Suite Overview:</b> This section of the exam measures the skills of Integration Consultants and covers the foundational concepts of the SAP Integration Suite. It provides an understanding of the suite's capabilities, its role in connecting applications, and its relevance in modern cloud-based integration scenarios.</li> </ul>
Topic 4	<ul style="list-style-type: none"> <li>• <b>Managing APIs:</b> This section of the exam measures the skills of Solution Architects and focuses on managing APIs within the SAP ecosystem. It covers topics such as API provisioning, lifecycle management, security policies, and monitoring, ensuring candidates can handle APIs effectively for enterprise integration needs.</li> </ul>

## SAP Certified Associate - Integration Developer Sample Questions (Q55-Q60):

### NEW QUESTION # 55

Which expression language can you use to access the content of a message in an integration flow?

- A. JavaScript expression language
- **B. Simple expression language**
- C. XML expression language
- D. Spring expression language

**Answer: B**

Explanation:

To access the content of a message in an integration flow, you can use the Simple expression language. The Simple expression language is a subset of the expressions defined in Camel Simple Expression Language, which is a language for accessing and manipulating message contents and exchange properties in Apache Camel integration framework. The Simple expression language supports various built-in variables, functions, operators, and literals that can be used to construct expressions for different purposes, such as routing conditions, content modification, variable assignment, and so on. You can use the Simple expression language when configuring components that support expressions, such as content modifier, router, filter, write variables, and so on. Reference: Using Camel Simple Expression Language | SAP Help Portal, Get to know Camel's Simple expression language in SAP Cloud Integration | SAP Blogs

### NEW QUESTION # 56

Which log level must you use to examine the payload at specific processing steps in an integration flow?

- A. Error
- B. Debug
- C. Info
- **D. Trace**

**Answer: D**

Explanation:

To examine the payload at specific processing steps in an integration flow, you must use the Trace log level. The Trace log level provides the most detailed information about the message processing, including the payload content and the headers at each step. You can use the Message Processing Log to view the trace logs for a specific message. Reference: Modernize Integration with SAP Integration Suite | openSAP

### NEW QUESTION # 57

Which of the following can you use for an XSLT mapping in an integration flow?

- A. JSON
- **B. XML**
- C. PHP
- D. HTML

**Answer: B**

Explanation:

To use an XSLT mapping in an integration flow, you must use XML as the input and output format. XSLT stands for Extensible Stylesheet Language Transformations, which is a language for transforming XML documents into other XML documents or other formats. An XSLT mapping consists of an XSLT stylesheet that defines the rules for transforming the source XML document into the target XML document. You can use an XSLT mapping step in an integration flow to apply an XSLT transformation to the message body. Reference: XSLT Mapping | SAP Help Portal, XSLT - W3Schools

#### NEW QUESTION # 58

You have set up an integration process to use a SOAP adapter. Which event allows you to run the integration flow directly after deployment?

- A. End Message
- **B. Start Message**
- C. End Event
- D. Start Event

**Answer: B**

Explanation:

A Start Message event allows you to run the integration flow directly after deployment. A Start Message event is triggered when a message arrives at the integration flow through an inbound channel, such as a SOAP adapter. You can use a Start Message event to initiate an integration process based on a message input. Reference: Modernize Integration with SAP Integration Suite | openSAP

#### NEW QUESTION # 59

Which data store operation can you use to save a customer ID?

- **A. WRITE**
- B. GET
- C. SELECT
- D. POST

**Answer: A**

Explanation:

In SAP Cloud Integration (part of Integration Suite), the Data Store operations allow temporary or persistent storage of messages for asynchronous processing or correlation.

WRITE # Used to save/store data (e.g., Customer ID) in the Data Store.

GET # Retrieves stored data.

SELECT # Reads stored data with filters.

POST # Not a valid Data Store operation in SAP CPI (it's an HTTP verb).

Hence, to save a customer ID, the correct operation is WRITE.

#### NEW QUESTION # 60

.....

Our C\_CPI\_2506 training quiz will be your best teacher who helps you to find the key and difficulty of the exam, so that you no longer feel confused when review. Our C\_CPI\_2506 study materials will be your best learning partner and will accompany you through every day of the review. Our C\_CPI\_2506 Exam Quiz will help you to deal with all the difficulties you have encountered in the learning process and make you walk more easily and happily on the road of studying.
