With the arrival of experience economy and consumption, the experience marketing is well received in the market. If you are fully attracted by our 312-85 training practice and plan to have a try before purchasing, we have free trials to help you understand our products better before you completely accept our 312-85 study dumps. you must open the online engine of the study materials in a network environment for the first time. In addition, the 312-85 Study Dumps don't occupy the memory of your computer. When the online engine is running, it just needs to occupy little running memory. At the same time, all operation of the online engine of the 312-85 training practice is very flexible as long as the network is stable.

ECCouncil Certified Threat Intelligence Analyst Sample Questions (Q19-Q24):

NEW QUESTION # 19

Joe works as a threat intelligence analyst with Xsecurity Inc. He is assessing the TI program by comparing the project results with the original objectives by reviewing project charter. He is also reviewing the list of expected deliverables to ensure that each of those is delivered to an acceptable level of quality.

Identify the activity that Joe is performing to assess a TI program's success or failure.

- A. Identifying areas of further improvement
- B. Determining the fulfillment of stakeholders
- C. Determining the costs and benefits associated with the program
- **D. Conducting a gap analysis**

Answer: D

Explanation:

By assessing the Threat Intelligence (TI) program through a comparison of project results with the original objectives, and by ensuring that all expected deliverables have been produced to an acceptable quality level, Joe is conducting a gap analysis. Gap analysis involves identifying the difference between the current state and the desired state or objectives, in this case, the outcomes of the TI program versus its intended goals as outlined in the project charter. This process allows for the assessment of what was successful, what fell short, and where improvements can be made, thereby evaluating the program's overall effectiveness and identifying areas for future enhancement. NEW QUESTION # 20

John, a professional hacker, is trying to perform APT attack on the target organization network. He gains access to a single system of a target organization and tries to obtain administrative login credentials to gain further access to the systems in the network using various techniques.

What phase of the advanced persistent threat lifecycle is John currently in?

- A. Persistence
- **B. Expansion**
- C. Initial intrusion
- D. Search and exfiltration

Answer: B

Explanation:

The phase described where John, after gaining initial access, is attempting to obtain administrative credentials to further access systems within the network, is known as the 'Expansion' phase of an Advanced Persistent Threat (APT) lifecycle. This phase involves the attacker expanding their foothold within the target's environment, often by escalating privileges, compromising additional

systems, and moving laterally through the network. The goal is to increase control over the network and maintain persistence for ongoing access.

This phase follows the initial intrusion and sets the stage for establishing long-term presence and eventual data exfiltration or other malicious objectives.

NEW QUESTION # 21

Alice, a threat intelligence analyst at HiTech Cyber Solutions, wants to gather information for identifying emerging threats to the organization and implement essential techniques to prevent their systems and networks from such attacks. Alice is searching for online sources to obtain information such as the method used to launch an attack, and techniques and tools used to perform an attack and the procedures followed for covering the tracks after an attack.

Which of the following online sources should Alice use to gather such information?

- A. Hacking forums
- B. Financial services
- C. Job sites
- D. Social network settings

Answer: A

Explanation:

Alice, looking to gather information on emerging threats including attack methods, tools, and post-attack techniques, should turn to hacking forums. These online platforms are frequented by cybercriminals and security researchers alike, where information on the latest exploits, malware, and hacking techniques is shared and discussed. Hacking forums can provide real-time insights into the tactics, techniques, and procedures (TTPs) used by threat actors, offering a valuable resource for threat intelligence analysts aiming to enhance their organization's defenses. NEW QUESTION # 22

In which of the following storage architecture is the data stored in a localized system, server, or storage hardware and capable of storing a limited amount of data in its database and locally available for data usage?

- A. Cloud storage
- B. Centralized storage
- C. Object-based storage
- D. Distributed storage

Answer: B

NEW QUESTION # 23

Kathy wants to ensure that she shares threat intelligence containing sensitive information with the appropriate audience. Hence, she used traffic light protocol (TLP).

Which TLP color would you signify that information should be shared only within a particular community?

- A. Amber
- B. Red
- C. White
- D. Green

Answer: D

NEW QUESTION # 24

.....

To help applicants prepare successfully according to their styles, we offer three different formats of Certified Threat Intelligence Analyst (312-85) exam dumps. These formats include desktop-based Certified Threat Intelligence Analyst (312-85) practice test software, web-based ECCouncil 312-85 Practice Exam, and Building Certified Threat Intelligence Analyst (312-85) dumps pdf format.
