P.S. Free 2026 Cyber AB CMMC-CCA dumps are available on Google Drive shared by PrepAwayExam: [https://drive.google.com/open?id=1KHgu4RicyP\\_-seBBugayjrjJ60w1PETs](https://drive.google.com/open?id=1KHgu4RicyP_-seBBugayjrjJ60w1PETs)

No matter in China or other company, Cyber AB has great influence for both enterprise and personal. If you can go through examination with CMMC-CCA latest exam study guide and obtain a certification, there may be many jobs with better salary and benefits waiting for you. Most large companies think a lot of IT professional certification. CMMC-CCA Latest Exam study guide makes your test get twice the result with half the effort and little cost.

## Cyber AB CMMC-CCA Exam Syllabus Topics:

Topic	Details

Topic 1	<ul style="list-style-type: none"> <li>• <b>CMMC Level 2 Assessment Scoping:</b> This section of the exam measures skills of cybersecurity assessors and revolves around determining the proper scope of a CMMC assessment. It involves analyzing and categorizing Controlled Unclassified Information (CUI) assets, interpreting the Level 2 scoping guidelines, and making accurate judgments in scenario-based exercises to define what assets and systems fall within assessment boundaries.</li> </ul>
Topic 2	<ul style="list-style-type: none"> <li>• <b>Evaluating Organizations Seeking Certification (OSC) against CMMC Level 2 Requirements:</b> This section of the exam measures skills of cybersecurity assessors and focuses on evaluating the environments of organizations seeking certification at CMMC Level 2. It covers understanding differences between logical and physical settings, recognizing constraints in cloud, hybrid, on-premises, single, and multi-site environments, and knowing what environmental exclusions apply for Level 2 assessments.</li> </ul>
Topic 3	<ul style="list-style-type: none"> <li>• <b>Assessing CMMC Level 2 Practices:</b> This section of the exam measures skills of cybersecurity assessors in evaluating whether organizations meet the required practices of CMMC Level 2. It emphasizes applying CMMC model constructs, understanding model levels, domains, and implementation, and using evidence to determine compliance with established cybersecurity practices.</li> </ul>
Topic 4	<ul style="list-style-type: none"> <li>• <b>CMMC Assessment Process (CAP):</b> This section of the exam measures skills of compliance professionals and tests knowledge of the full assessment lifecycle. It covers the steps needed to plan, prepare, conduct, and report on a CMMC Level 2 assessment, including the phases of execution and how to document and follow up on findings in alignment with DoD and CMMC-AB expectations.</li> </ul>

## Latest CMMC-CCA Test Labs - CMMC-CCA New Braindumps Pdf

We all know that the CMMC-CCA exam is not easy to pass and the certification is not easy to get. But where is a will, there is a way. If you are really determined, go buy CMMC-CCA study materials now. With the help of CMMC-CCA learning guide, your road will go more smoothly. If you want to know more about our products, maybe you can use the trial version of CMMC-CCA simulating exam first. Of course, you can also spend a few minutes looking at the feedbacks to see how popular our CMMC-CCA exam questions are.

### Cyber AB Certified CMMC Assessor (CCA) Exam Sample Questions (Q66-Q71):

#### NEW QUESTION # 66

A software development company wins a DoD contract requiring CMMC Level 2. The company is small and has one main office. However, it outsources some data storage requirements to a cloud service provider (CSP). What type of organization would the cloud service provider be considered in the CMMC assessment scope?

- A. The HQ Organization
- **B. A Supporting Unit**
- C. An Enclave
- D. The Host Unit

**Answer: B**

Explanation:

Comprehensive and Detailed Explanation:

The CMMC Assessment Scope - Level 2 defines the Host Unit as the entity (OSC) directly performing the DoD contract work—here, the software development company. A Supporting Unit includes external entities, such as a cloud service provider (CSP), that provide services supporting the Host Unit but are not the primary contractor. The CSP, by handling data storage, supports the OSC's operations without being the Host Unit (Option C) or HQ Organization (Option D, the parent entity). An Enclave (Option B) is a technical boundary, not an organization. A is correct per the scoping guide.

Reference:

CMMC Assessment Scope - Level 2, Section 2.1 (Host Unit and Supporting Organizations), p. 3: "Supporting Units are external entities providing services to the Host Unit."

### NEW QUESTION # 67

While assessing the scope provided by an OSC, you realize they have two environments with distinct characteristics: the headquarters space located at 24 Industrial Pkwy and an off-site location at 25 Industrial Pkwy. The headquarters houses several offices where document processing occurs on a cloud-hosted Microsoft Dynamics 365 GCC environment. At the off-site location, users access designs from servers hosted at the headquarters through a Virtual Private Network (VPN). These designs are used first in a 3D printer to develop prototypes and subsequently in a Computer Numerical Control (CNC) machine for production. All these operations are supported by a high-quality Industrial Control System (ICS). What type of environment is the off-site facility located at 25 Industrial Pkwy?

- A. Backup environment
- **B. Industrial environment**
- C. Off-site environment
- D. Professional environment

**Answer: B**

Explanation:

Comprehensive and Detailed in Depth Explanation:

The off-site facility at 25 Industrial Pkwy is characterized by production activities involving 3D printers, CNC machines, and an ICS, which are hallmarks of an industrial environment per CMMC scoping guidance. These systems support manufacturing and prototyping, distinguishing it from a backup (Option A) or generic office (Option B) environment. While "off-site" (Option D) describes its location, "industrial" defines its function, aligning with CMMC's focus on environment types handling CUI. Option C is the correct answer.

Reference Extract:

\* CMMC AG Level 2, Section 1.3: "Industrial environments include production facilities with ICS, 3D printers, or CNC machines processing CUI." Resources: [https://dodcio.defense.gov/Portals/0/Documents/CMMC/AG\\_Level2\\_MasterV2.0\\_FINAL\\_202112016\\_508.pdf](https://dodcio.defense.gov/Portals/0/Documents/CMMC/AG_Level2_MasterV2.0_FINAL_202112016_508.pdf)

### NEW QUESTION # 68

During a social event after work, a CCA from your C3PAO team brags about providing "consulting advice" to an OSC they recently assessed for CMMC compliance. You know this directly violates the CoPC's restrictions on CCAs offering such services during an assessment. What is your ethical obligation in this situation?

- A. Publicly confront the CCA and remind them of the CoPC violation.
- **B. Discreetly approach the CCA and offer to help them understand the CoPC guidelines.**
- C. Ignore the situation, as it doesn't involve you directly.
- D. Immediately report the incident to the Cyber AB.

**Answer: B**

Explanation:

Comprehensive and Detailed in Depth Explanation:

The CoPC encourages internal resolution of violations before escalation, making Option B the ethical first step. Public confrontation (Option A) risks unprofessionalism, immediate reporting (Option C) skips internal correction, and ignoring (Option D) neglects duty. Providing advice during an assessment violates CoPC professionalism.

Extract from Official Document (CoPC):

\* Paragraph 4.1(1)(a) - Violation Reporting (pg. 10): "Attempt to rectify the violation with the individual in question prior to reporting."

\* Paragraph 3.1 - Professionalism (pg. 6): "Do not offer consulting advice during an assessment." References: CMMC Code of Professional Conduct, Paragraphs 4.1(1)(a) and 3.1.

### NEW QUESTION # 69

Which of the following can be taken into consideration when assessing AC.L2-3.1.3 Privacy & Security Notices?

- A. Alerts received from Intrusion Detection and Protection devices
- B. Posters in the workplace warning of the dangers of phishing and shoulder-surfing
- **C. System use notifications during system log-in**

- D. Sending out notices in email reminding employees to be conscious of security concerns

**Answer: C**

Explanation:

Practice AC.L2-3.1.3 requires that users are presented with privacy and security notices (system use notifications) at the point of system log-in to ensure that they are aware of authorized usage and monitoring.

Extract:

"Display privacy and security notices (system use notifications) before granting system access." Posters, alerts, or general awareness messages do not satisfy this practice because they are not tied directly to system access.

Reference: CMMC Assessment Guide - Level 2, AC.L2-3.1.3.

### NEW QUESTION # 70

A contractor allows for the use of mobile devices in contract performance. Some employees access designs and specifications classified as CUI on such devices like tablets and smartphones. After assessing AC.L2-3.1.18 - Mobile Device Connection, you find that the contractor maintains a meticulous record of mobile devices that connect to its information systems. AC.L2-3.1.19 - Encrypt CUI on Mobile, requires that the contractor implements measures to encrypt CUI on mobile devices and mobile computing platforms. The contractor uses device-based encryption where all the data on a mobile device is encrypted. Which of the following personnel should you interview to determine how well the contractor has implemented AC.L2-3.1.19 - Encrypt CUI on Mobile?

- **A. Personnel with access control responsibilities for mobile devices**
- B. IT helpdesk staff who troubleshoot basic mobile device issues
- C. Staff in the Human Resources department
- D. Executives in the company

**Answer: A**

Explanation:

Comprehensive and Detailed In-Depth Explanation:

CMMC practice AC.L2-3.1.19 requires that organizations "encrypt CUI on mobile devices and mobile computing platforms" to protect sensitive data from unauthorized access. To assess the implementation effectively, you need to interview personnel who have direct knowledge of and responsibility for the encryption measures on mobile devices. Personnel with access control responsibilities for mobile devices are best suited for this, as they are likely involved in configuring, managing, and enforcing encryption policies specific to mobile devices handling CUI. Executives may have a high-level overview but lack technical details. IT helpdesk staff typically handle basic troubleshooting and may not have insight into encryption implementation. HR staff focus on personnel management, not technical security controls. The CMMC Assessment Guide emphasizes interviewing individuals with operational responsibility for the specific control to verify implementation details.

Extract from Official CMMC Documentation:

\* CMMC Assessment Guide Level 2 (v2.0), AC.L2-3.1.19: "Interview: Personnel with information security responsibilities; personnel with mobile device responsibilities; network and system administrators."

\* NIST SP 800-171A, 3.1.19: "Interview personnel with responsibilities for encrypting CUI on mobile devices to determine the processes and mechanisms in place." Resources:
