SAP Certified Associate - Implementation Consultant - SAP SuccessFactors Learning Sample Questions (Q59-Q64):

NEW QUESTION # 59

In which section of the LMS System Administration can Administrators enable or disable the peer recommendation functionality for users?

- A. System admin a Configuration a Global variables
- B. System admin a Configuration a User Settings
- C. System admin a Configuration a User-Created Accounts
- D. System admin a Security (rollen)**

Answer: D

NEW QUESTION # 60

Which permission in the System Administration category is required in each administrator role that needs to run reports?

- A. View User Reports**
- B. View User Background Job
- C. View All Configuration Report
- D. Run Unpublished Reports

Answer: A

NEW QUESTION # 61

Which of the following permissions should be assigned to an Administrator to create new instructor accounts, update course materials, and search for specific classes?

- A. Edit Item, Add Instructor, Search Class
- B. Edit Instructor, Add Class, Copy Curriculum
- C. Add Curriculum, Delete Assignment Profile, Search Instructor
- D. Delete Instructor, Copy Item, Edit Assignment Profile

Answer: A

Explanation:

Step by Step Explanation with exact Extract from SAP SuccessFactors Learning documents:

* Understanding Administrator Permissions:

* In SAP SuccessFactors Learning, permissions are assigned to roles (e.g., Administrator role) to control access to specific actions, such as creating instructor accounts, updating course materials, and searching for classes.

* Required Permissions for the Tasks:

* The question specifies three tasks: creating new instructor accounts (Add Instructor), updating course materials (Edit Item), and searching for specific classes (Search Class).

* Extract from SAP SuccessFactors Learning Documentation (SAP Help Portal, Security Guide, Role-Based Permissions):

"Role-Based Permissions allow administrators to perform specific actions based on assigned permissions. The

'Add Instructor' permission enables creating new instructor records, 'Edit Item' allows updating course materials, and 'Search Class' permits searching for scheduled classes."

* Breaking Down the Permissions:

* Edit Item: Allows administrators to modify course content, such as updating materials or settings for learning items.

"The Edit Item permission grants access to modify item details, including course materials, objectives, and settings" (SAP SuccessFactors Learning Admin Guide).

* Add Instructor: Enables the creation of new instructor accounts in the system.

"The Add Instructor permission allows administrators to create and manage instructor records under Learning Activities > Instructors" (SAP SuccessFactors Learning Admin Guide).

* Search Class: Permits searching for specific class schedules or offerings.

"The Search Class permission enables searching for classes by criteria such as course ID, date, or location" (SAP SuccessFactors Learning Admin Guide).

* Why Other Options are Incorrect:

* Option A (Delete Instructor, Copy Item, Edit Assignment Profile): Deleting instructors and editing Assignment Profiles are unrelated to the specified tasks.

"Delete Instructor removes instructor records, and Edit Assignment Profile manages automatic assignments, not course materials or class searches" (SAP SuccessFactors Learning Security Guide).

* Option C (Edit Instructor, Add Class, Copy Curriculum): Editing instructors and copying curricula do not cover updating course materials or searching classes.

"Edit Instructor modifies existing instructor records, and Copy Curriculum duplicates curricula, not relevant to the specified tasks" (SAP SuccessFactors Learning Admin Guide).

* Option D (Add Curriculum, Delete Assignment Profile, Search Instructor): These permissions focus on curricula and instructor searches, not course materials or class searches.

"Add Curriculum creates new curricula, and Search Instructor locates instructor records, not classes" (SAP SuccessFactors Learning Admin Guide).

* Conclusion:

* The permissions required to create new instructor accounts, update course materials, and search for classes are Edit Item, Add Instructor, and Search Class, as specified in option B.

NEW QUESTION # 62

You want to define the customer tenant ID suffix for connector file names in SuccessFactors Learning. What is the recommended way to do this in System Admin?

- A. Choose System Configuration and modify the LMS_ADMIN configuration file to define the tenant suffix
