Our NSK300 learning materials promise you that we will never disclose your privacy or use it for commercial purposes. And our NSK300 study guide can achieve today's results, because we are really considering the interests of users. We are very concerned about your needs and strive to meet them. Our NSK300 training prep will really protect your safety. As long as you have any problem about our NSK300 exam braindumps, you can just contact us and we will solve it for you asap.

### Netskope NSK300 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none"><li>• Netskope Platform Monitoring: This section of the exam measures the capabilities of Security Operations Center (SOC) Analysts and focuses on monitoring the platform through reporting and analytics tools. It highlights how Netskope insights support visibility into user activity, cloud app behavior, and policy effectiveness to help organizations maintain a continuous cloud security posture.</li></ul>
Topic 2	<ul style="list-style-type: none"><li>• Netskope Platform Troubleshooting: This section of the exam measures the skills of Support Engineers and focuses on identifying and resolving common issues within the Netskope platform. It includes troubleshooting client connectivity problems, analyzing steering methods, resolving general connectivity concerns, and addressing SAML integration issues. The section ensures candidates can diagnose and fix issues that impact platform performance and user access.</li></ul>

Topic 3	<ul style="list-style-type: none"> <li>• <b>Netskope Platform Management:</b> This section of the exam measures the skills of Security Administrators and covers essential administrative tasks required to manage the Netskope Security Cloud Platform. It includes managing DLP functions, handling identity integrations, and monitoring Netskope components to maintain platform stability. The domain ensures professionals can manage daily operations and maintain strong access, data, and security controls.</li> </ul>
Topic 4	<ul style="list-style-type: none"> <li>• <b>Netskope Platform Implementation:</b> This section of the exam measures the abilities of Cloud Security Engineers and focuses on implementing the Netskope Security Cloud Platform using recommended steering architectures and deployment approaches. It includes key concepts such as API-enabled protection and real-time protection features, ensuring candidates understand how to deploy Netskope to secure cloud usage effectively within enterprise networks.</li> </ul>
Topic 5	<ul style="list-style-type: none"> <li>• <b>Cloud Security Solutions:</b> This section of the exam measures the skills of Cloud Security Analysts and covers the core components and functions of the Netskope Security Cloud Platform. It includes understanding how the platform integrates with enterprise environments, the deployment methods supported by Netskope, and the role of various microservices in delivering cloud-based security. The focus is on ensuring candidates can recognize how Netskope's architecture protects users, applications, and data across cloud services.</li> </ul>

## Netskope Certified Cloud Security Architect Sample Questions (Q16-Q21):

### NEW QUESTION # 16

Users in your network are attempting to reach a website that has a self-signed certificate using a GRE tunnel to Netskope. They are currently being blocked by Netskope with an SSL error. How would you allow this traffic?

- A. Set the No SNI setting in Netskope to Bypass.
- B. Configure a Real-time Protection policy with the action set to Allow.
- C. Ensure that the users add the self-signed certificate to their local certificate store.
- **D. Configure a Do Not Decrypt SSL Decryption rule to allow traffic to pass.**

**Answer: D**

### NEW QUESTION # 17

Review the exhibit.

You created an SSL decryption policy to bypass the inspection of financial and accounting Web categories. However, you still see banking websites being inspected.

Referring to the exhibit, what are two possible causes of this behavior? (Choose two.)

- **A. The policy is in a "pending changes" state.**
- B. The policy is in a "disabled" state.
- **C. An incorrect action has been specified.**
- D. An incorrect category has been selected

**Answer: A,C**

### NEW QUESTION # 18

You need to monitor the health of configured IPsec or GRE tunnels.

In this scenario, which two methods are supported by Netskope to accomplish this task? (Choose two.)

- A. Use Dead Peer Detection.
- B. Use ICMP keepalive probing.
- C. Use Netskope Trust Portal.
- D. Use Layer 4 health checks.

Answer: A,D

#### NEW QUESTION # 19

A company wants to capture and maintain sensitive PII data in a relational database to help their customers. There are many employees and contractors that need access to sensitive customer data to perform their duties. The company wants to prevent the exfiltration of sensitive customer data by their employees and contractors. In this scenario, what would satisfy this requirement?

- A. machine learning
- B. fingerprinting
- C. exact data match
- D. regular expression

Answer: C

#### NEW QUESTION # 20

Your Netskope Client tunnel has connected to Netskope; however, the user is not receiving any steering or client configuration updates. What would cause this issue?

- A. The Netskope Client service is not running.
- B. The client is unable to establish communication to gateway-(tenant|.goskope.com
- C. An invalid steering exception was created in the tenant
- D. The client is unable to establish communication to add-on-[tenant|.goskope.com

Answer: A

Explanation:

When the Netskope Client service is not running, it cannot execute the necessary processes to receive steering or client configuration updates. The service must be active to establish communication with the Netskope cloud and apply the configurations and policies defined by the administrator.

This information aligns with the Netskope Cloud Security Architect learning objectives and documents, which emphasize the importance of running client services for proper communication and functionality.

#### NEW QUESTION # 21

.....

BraindumpsVCE has made these formats so the students don't face issues while preparing for Netskope Certified Cloud Security Architect (NSK300) certification exam dumps and get success in a single try.
