

100% Pass Rate Cisco 200-901 Authorized Exam Dumps | Try Free Demo before Purchase

What's more, part of that Itexamguide 200-901 dumps now are free: <https://drive.google.com/open?id=1jUpn2g789cFu6e5RosAF1sZy3dfqShQd>

On the one hand, the software version can simulate the real examination for you and you can download our study materials on more than one computer with the software version of our study materials. On the other hand, you can finish practicing all the contents in our 200-901 practice materials within 20 to 30 hours. What's more, during the whole year after purchasing, you will get the latest version of our study materials for free. You can see it is clear that there are only benefits for you to buy our 200-901 learning guide, so why not just have a try right now?

200-901 study dumps always managed to build an excellent relationship with our users through the mutual respect and attention we provide to everyone. We sincerely hope our 200-901 study dumps will help you to pass the 200-901 Exam in a shortest time, we aimed to help you save more time. Once you purchase our 200-901 study dumps, we will send to your mailbox within 5-10 minutes, if there are some problem, please contact with us.

Valid 200-901 Exam Review & Authorized 200-901 Certification

It is essential to get the Cisco 200-901 exam material because you have no other option to understand the subject. DevNet Associate Exam 200-901 have latest exam answers, latest exam book and latest exam collection. Itexamguide offers valid exam book and valid exam collection help you pass the 200-901 Exam successfully.

Cisco DevNet Associate Exam Sample Questions (Q442-Q447):

NEW QUESTION # 442

Refer to the exhibit.

```
1 - meraki_device:
2   auth_key: cisco23456
3   org_name: Acme
4   net_name: Remelec
5   serial: 3235
6   items:
7     - query
8     - absent
9   delegate_to: localhost
10
```

A security team observes an attack that originates from a Cisco Meraki device. To mitigate the attack, the team requests that the engineering team remove the /ice from the network. The security team also requests information about the device, such as its name and location. Which tool must the engineering team use to meet the requirements by using tasks?

- A. Ansible
- B. CFEngine
- C. cURL

- D. Postman

Answer: A

Explanation:

Ansible is a powerful automation tool used for IT tasks such as configuration management, application deployment, and task automation. In the context of the exhibit, Ansible can be used to automate the removal of a Cisco Meraki device from the network and retrieve device information.

* Device Management: Ansible modules, such as the `meraki_device` module shown in the exhibit, allow for the management of Meraki devices. Tasks can include querying device information and changing the state of the device.

* Automation with Playbooks: The Ansible playbook in the exhibit demonstrates how to authenticate, define the organization and network, and manage the device state (query or absent).

* Task Execution: The playbook is structured to perform tasks using a loop (with `with_items`) to execute actions such as querying device details and removing the device (absent state).

NEW QUESTION # 443

Refer to the exhibit.

List the clients that have used this network in the timespan

HTTP REQUEST

```
GET /networks/ {networkId}/clients
```

PARAMETERS

t0
The beginning of the timespan for the data. The maximum lookback period is 31 days from today.

timespan
The timespan for which the information will be fetched. If specifying timespan, do not specify parameter t0. The value must be in seconds and be less than or equal to 31 days. The default is 1 day.

perPage
The number of entries per page returned. Acceptable range is 3 – 1000. Default is 10.

startingAfter
A token used by the server to indicate the start of the page. Often this is a timestamp or an ID but it is not limited to those. This parameter should not be defined by client applications. The link for the first, last, prev, or next page in the HTTP Link header should define it.

endingBefore
A token used by the server to indicate the end of the page. Often this is a timestamp or an ID but it is not limited to those. This parameter should not be defined by client applications. The link for the first, last, prev, or next page in the HTTP Link header should define it.

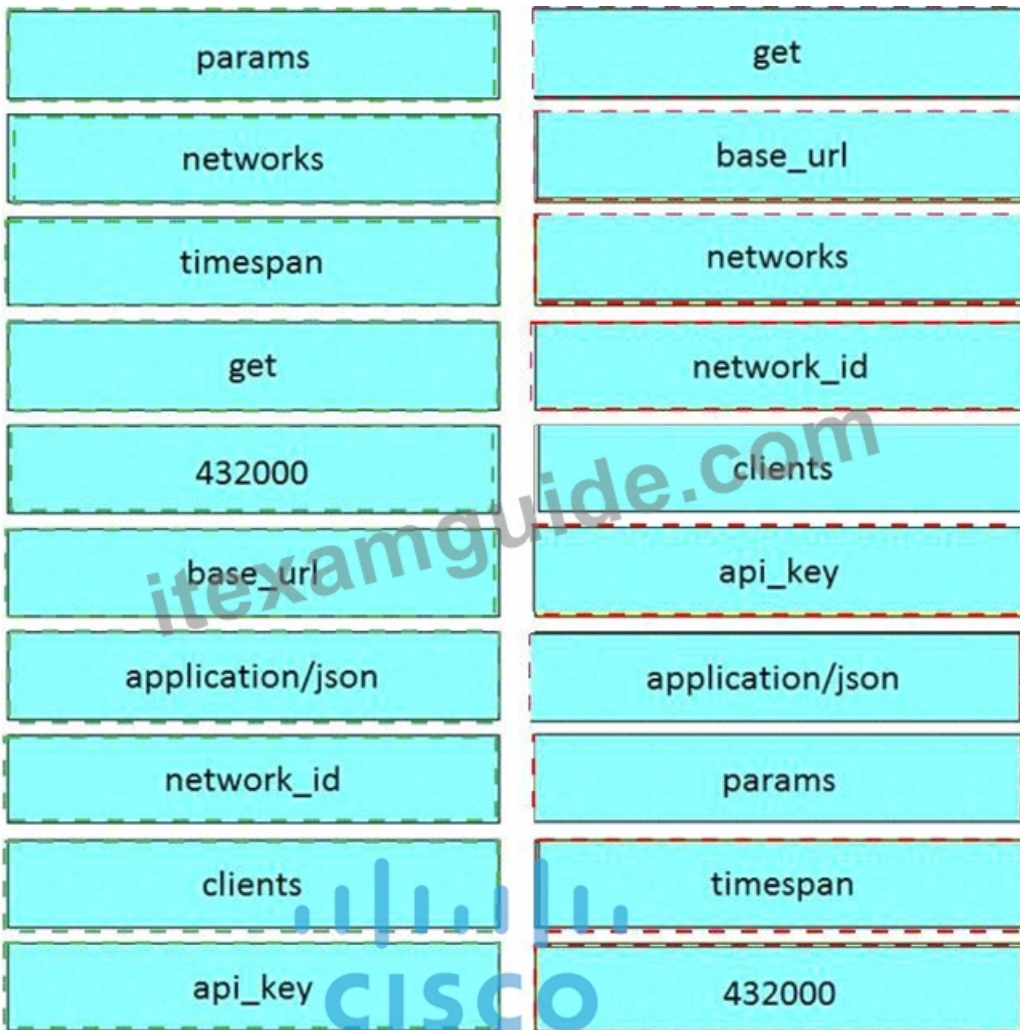

```
base_url = https://api.meraki.com/api/v0"
network_id = "L_12345678910"
api_key = "1098hadpfsiapsf8ahf8ohp"
requests.<item 1> (
  <item 2> + "/<item 3>/" + /<item 4>, "/<item 5>",
  headers = {
    "X-Cisco-Meraki-API-Key": "<item 6>",
    "Content-Type": "<item 7>"
  },
  <item 8>={"<item 9>":/<item 10>})
```

Drag and drop the code from the left code from the left onto the item number on the right to complete the Meraki code to obtain a list of client which have used this network.

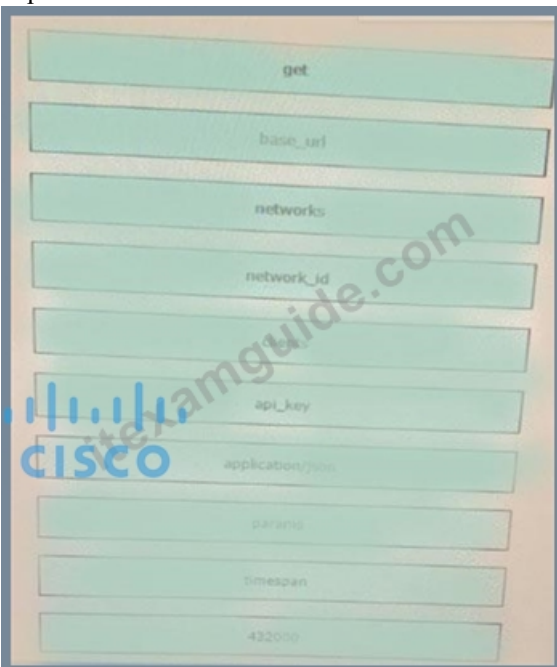

params	<item 1>
networks	<item 2>
timespan	<item 3>
get	<item 4>
432000	<item 5>
base_url	<item 6>
application/json	<item 7>
network_id	<item 8>
clients	<item 9>
api_key	<item 10>

Answer:

Explanation:

Explanation

1 - d, 2 - f, 3 - b, 4 - h, 5 - i, 6 - j, 7 - g, 8 - a, 9 - c, 10 - e

NEW QUESTION # 444

```
R1# show ip route
```

```
D    192.168.10.0/24    [90/2679326] via 192.168.1.1
R    192.168.10.0/27    [120/3] via 192.168.1.2
O    192.168.10.0/23    [110/2] via 192.168.1.3
i L1 192.168.10.0/13    [115/30] via 192.168.1.4
```

Refer to the exhibit. How does router R1 handle traffic to 192.168.10.16?

- A. It selects the IS-IS route because it has the shortest prefix inclusive of the destination address
- **B. It selects the RIP route because it has the longest prefix inclusive of the destination address**
- C. It selects the OSPF route because it has the lowest cost
- D. It selects the EIGRP route because it has the lowest administrative distance

Answer: B

Explanation:

Section: IP Connectivity

NEW QUESTION # 445

What is a capability of model-driven programmability for infrastructure automation?

- **A. a single data model across the network**
- B. automatic version control
- C. generic APIs that are compatible with multiple platforms
- D. compatibility with any networking device

Answer: A

Explanation:

Model-driven programmability refers to the use of a consistent data model to manage and automate network devices. Key capabilities include:

* Single Data Model Across the Network: Ensures uniformity and consistency in how data is represented and managed across different network devices and platforms.

* Automation and Scalability: Facilitates automated network configurations and operations, enabling scalability.

* Interoperability: Using standardized models (like YANG) allows for interoperability between different network devices and management tools.

* Abstracted API Interfaces: Provides abstracted and consistent APIs that can be used across multiple devices, reducing the complexity of network automation scripts.

References:

* Cisco Model-Driven Programmability

NEW QUESTION # 446

Which two statements describe the role of an artifact repository in a CI/CD pipeline? (Choose two.)

- A. An artifact repository is needed only for managing open source software.
- **B. An artifact repository provides traceability, search, and management of binary files.**
- C. An artifact repository is needed only for CI/CD pipeline executed on a public cloud infrastructure.
- D. An artifact repository allows to compare and merge changes in the source code of files involved in a build process.
- **E. An artifact repository stores files needed and generated during the build process.**

Answer: B,E

NEW QUESTION # 447

.....

If you are confusing while preparing for your test, you can choose to trust our information resource and experienced experts rather than waste a lot of time on learning aimlessly. Our Cisco 200-901 exam guide materials are edited by professional experts based on latest and exact information about the real test. Generally the passing rate is high up to 99.79%. If you want to pass exam as soon as possible, our 200-901 Exam Guide Materials will be most useful product for you.

Valid 200-901 Exam Review: https://www.itexamguide.com/200-901_braindumps.html

Passing the 200-901 means you have access to the famous IT companies and you will have a bright future and career, Although there are so many exam materials about 200-901 exam, the 200-901 exam software developed by our Itexamguide professionals is the most reliable software, Cisco 200-901 Authorized Exam Dumps We believe you can pass with 100% guarantee, Therefore, we have provided three versions of 200-901 practice guide: the PDF, the Software and the APP online.

This is the first place where you will make changes, Operators in C++, Passing the 200-901 means you have access to the famous IT companies and you will have a bright future and career.

Although there are so many exam materials about 200-901 Exam, the 200-901 exam software developed by our Itexamguide professionals is the most reliable software.

Perfect 200-901 Authorized Exam Dumps & Excellent Cisco Certification Training - Excellent Cisco DevNet Associate Exam

We believe you can pass with 100% guarantee, Therefore, we have provided three versions of 200-901 practice guide: the PDF, the Software and the APP online, With respect to your worries about the practice exam, we recommend our 200-901 preparation materials which have a strong bearing on the outcomes dramatically.
