Our HPE0-S59 test guide keep pace with contemporary talent development and makes every learner fit in the needs of the society. There is no doubt that our HPE0-S59 latest question can be your first choice for your relevant knowledge accumulation and ability enhancement. Moreover, HPE0-S59 exam questions have been expanded capabilities through partnership with a network of reliable local companies in distribution, software and product referencing for a better development. That helping you pass the HPE0-S59 Exam with our HPE0-S59 latest question successfully has been given priority to our agenda.

HP HPE0-S59 (HPE Compute Solutions) Certification Exam is designed for individuals who want to validate their skills and knowledge in designing, deploying, and managing HPE compute solutions. HPE0-S59 exam assesses the candidate's ability to design and configure solutions that meet customer requirements, as well as their understanding of HPE compute technologies and their applications. HPE0-S59 exam covers a range of topics, including HPE Synergy, HPE ProLiant, HPE BladeSystem, and HPE Apollo.

HPE0-S59 Exam is a proctored exam that consists of 60 multiple-choice questions. HPE0-S59 Exam covers a wide range of topics, including HPE ProLiant, HPE BladeSystem, HPE Synergy, HPE Apollo, and HPE SimpliVity. HPE0-S59 exam also covers HPE OneView, HPE iLO, and HPE Integrated Lights-Out. It is recommended that candidates have a minimum of one year of experience with HPE products and technologies before attempting the HPE0-S59 Exam.

100% Pass Quiz 2026 HP HPE0-S59: HPE Compute Solutions – Reliable Dumps Free Download

Some candidates may be afraid of the difficult questions in the HPE0-S59 study materials for they are hard to be understood and memorized. But if you want to pass the exam perfectly, then you have to pay more attention on them. You must cultivate the good habit of reviewing the difficult parts of our HPE0-S59 Practice Guide, which directly influences your passing rate. What is more, our experts never stop researching the questions of the real HPE0-S59 exam. So our HPE0-S59 exam questions are always the latest for you to download.

To pass the HPE0-S59 exam, candidates must have a thorough understanding of HPE compute solutions and demonstrate their ability to design, implement, and manage these solutions effectively. Candidates must also have practical experience working with HPE compute solutions and be familiar with the latest industry trends and best practices. HPE0-S59 Exam consists of 60 multiple-choice questions, and candidates have 90 minutes to complete it.

HPE Compute Solutions Sample Questions (Q49-Q54):

NEW QUESTION # 49

Which statement about the SY480 Gen10 Plus Compute Module is true?

- A. It cannot be mixed with Gen9 compute modules in the same frame.
- **B. It only supports NVDIMM Persistent Memory.**
- C. It supports 3rd Gen AMD EPYC Server Processors with 64 cores.
- D. It supports 8 memory channels and memory DIMMs of up to 256GB.

Answer: B

NEW QUESTION # 50

Your customer plans to deploy ESXi systems to HPE Synergy and HPE ProLiant servers using HPE OneView for VMware vCenter Server.

Which statement about HPE OneView for VMware vCenter Server functionality is true for this environment?

- **A. Individual systems can be added to HPE OneView for VMware vCenter Server through an ILO management processor**
- B. HPE ProLiant servers need an HPE OneView for VMware vCenter Server license for full functionality
- C. HPE Synergy requires HPE Composer 2 for full functionality of HPE OneView for VMware vCenter Server
- D. Only systems managed using HPE Oneview can use HPE Oneview for VMware vCenter Server functionalities

Answer: A

Explanation:

HPE OneView for VMware vCenter Server provides integrated management and monitoring capabilities for systems managed by HPE OneView. This means that to leverage the full functionality of HPE OneView for VMware vCenter Server, the systems (both HPE Synergy and HPE ProLiant servers) must be managed through HPE OneView. This integration allows for comprehensive infrastructure management directly from the VMware vCenter interface.

NEW QUESTION # 51

In the past a customer experienced a networking issue where network ports went down and came back up in quick succession. Which HPE Virtual Connect SE 100 GD F32 Module for HPE Synergy feature can be configured to disable such ports?

- A. Port flap protection
- B. Storm control
- **C. sFlow**
- D. Pause flood protection

Answer: C

NEW QUESTION # 52

Drag and Drop Question

Match each HPE Synergy logical component with the definition.

Component		Definition
Enclosure group		Acts as a recipe for creating a group that represents the available networks, uplink sets, and interconnect settings for a set of physical interconnects in a set of enclosures.
Logical enclosure		A single administrative entity that consists of the configuration for a set of interconnects in a single enclosure or a frame link topology.
Logical interconnect		A logical resource that defines a consistent configuration for an enclosure or a set of enclosures making up a logical enclosure.
Logical interconnect group		Contains the configuration intended for a set of physical enclosures.

Answer:

Explanation:

Component		Definition
Logical interconnect group		Acts as a recipe for creating a group that represents the available networks, uplink sets, and interconnect settings for a set of physical interconnects in a set of enclosures.
Logical interconnect		A single administrative entity that consists of the configuration for a set of interconnects in a single enclosure or a frame link topology.
Enclosure group		A logical resource that defines a consistent configuration for an enclosure or a set of enclosures making up a logical enclosure.
Logical enclosure		Contains the configuration intended for a set of physical enclosures.

NEW QUESTION # 53

Which statement about the HPE D3940 storage module is true?

- A. SATA drives require redundant IO adapters to be installed in this module.
- B. Up to five modules can be installed in a single frame with Gen10 servers.
- C. It is configured through CLI available from HPE Synergy console.
- D. Only one type of drives (SATA, SAS, SSD) can be installed in each module.

Answer: A
