SAP C-BCBTM-2509 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none"> Understanding SAP Signavio and SAP LeanIX Solutions: This section of the exam measures the expertise of Enterprise Architects and focuses on the core concepts of SAP Signavio and SAP LeanIX. It includes understanding how these solutions enhance enterprise architecture management, process intelligence, and business process transformation. Learners explore how SAP Signavio provides visibility into business processes and how SAP LeanIX supports IT landscape transparency, allowing organizations to improve alignment between business goals and IT systems.
Topic 2	<ul style="list-style-type: none"> Understanding WalkMe: This section of the exam evaluates the competencies of Digital Adoption Specialists and covers the role of WalkMe within the SAP ecosystem. It focuses on how WalkMe enhances user experience, drives digital adoption, and simplifies workflows across SAP solutions. Candidates learn how WalkMe guidance and automation tools support end-users in navigating complex SAP applications, ultimately improving productivity, engagement, and system utilization.
Topic 3	<ul style="list-style-type: none"> Positioning SAP Business Transformation Management Solutions: This section of the exam measures the skills of SAP Solution Consultants and focuses on understanding how to position SAP Business Transformation Management solutions within diverse enterprise environments. It covers identifying the value proposition of these solutions, aligning them with customer transformation strategies, and demonstrating how they support business agility and operational excellence through data-driven insights and process optimization.
Topic 4	<ul style="list-style-type: none"> Understanding Business Transformation: This section of the exam evaluates the abilities of Business Transformation Advisors and covers the fundamental principles of business transformation in the digital age. It emphasizes recognizing transformation drivers, defining strategic objectives, and integrating technological innovations into organizational change processes. Candidates are expected to understand how SAP tools and methodologies enable efficient transformation planning, execution, and sustainability across various industries.

SAP Certified Associate - Positioning SAP Business Transformation Management Solutions Sample Questions (Q29-Q34):

NEW QUESTION # 29

What are typical challenges SAP customers face in an ERP transformation?

(Note: There are 3 correct answers to this question.)

- A. Inability to generate financial reports due to a lack of data analytics capabilities
- B. Lack of transparency into processes and system landscapes
- C. Alignment between business and IT
- D. Not knowing how and where to start their transformation journey
- E. Significant reduction in product quality

Answer: B,C,D

Explanation:

According to SAP's Business Transformation Management (BTMP) and SAP Signavio Transformation Framework, the most common ERP transformation challenges are strategic alignment, starting complexity, and lack of visibility across business and IT landscapes.

"Organizations often face difficulties with aligning business and IT, defining where to start transformation efforts, and gaining transparency across processes and systems." Reference:

A - Alignment between Business and IT:

Misalignment leads to inconsistent objectives between operations and technology strategy.

"Achieving alignment between IT capabilities and business goals remains one of the biggest barriers to transformation." B - Not Knowing Where to Start:

Many organizations lack clarity on prioritization and readiness assessment.

"Determining the starting point and sequencing of transformation steps is a recurring challenge in ERP modernization projects." C -

Lack of Transparency:

Without visibility into existing processes, companies struggle to identify inefficiencies or dependencies.

"Insufficient transparency across processes and system landscapes hinders effective transformation planning and execution."

Incorrect Options:

D: Financial reporting challenges are typically ERP operational issues, not transformation barriers.

E: Product quality reduction is not a standard ERP transformation issue.

Verified Correct Answers: A, B, and C.

NEW QUESTION # 30

What is the SAP Signavio Process Manager?

- A. A tool for automating financial transactions in ERP systems.
- B. A software for managing customer relationships and sales pipelines.
- C. An analytics solution for process mining and data analysis.
- **D. A cloud-based tool for designing, modeling, and improving business processes.**

Answer: D

Explanation:

SAP describes SAP Signavio Process Manager as a collaborative, browser-based BPM tool focused on process design and improvement:

"SAP Signavio Process Manager is a cloud-based solution to model, document, and optimize business processes collaboratively using BPMN 2.0." Reference:

Option B confuses it with a different product in the same portfolio. SAP states that process mining sits in SAP Signavio Process Intelligence (not Process Manager):

"SAP Signavio Process Intelligence is the process mining and analytics solution of the SAP Signavio portfolio." Option C refers to ERP transaction automation, which is not the scope of Process Manager. SAP positions Process Manager for process modeling and documentation, not transaction execution/automation:

"Use SAP Signavio Process Manager to design and document processes and drive process improvement; execution of transactions is handled by operational systems (e.g., ERP)." Option D is about CRM. SAP clarifies that CRM and sales pipeline management are covered by customer experience/CRM solutions, not by Process Manager:

"Process Manager provides process modeling and governance, not CRM pipeline management."

NEW QUESTION # 31

How does SAP differentiate itself from competitors in the area of business transformation?

- **A. By providing a comprehensive suite of capabilities across all project phases with high integration.**
- B. By limiting transparency and accessibility of insights and recommendations.
- C. By focusing on traditional methodologies without leveraging data-driven insights.
- D. By avoiding collaboration with ecosystem partners and other stakeholders.

Answer: A

Explanation:

SAP distinguishes itself in the transformation landscape through its comprehensive and fully integrated suite of Business Transformation Management (BTM) solutions. This suite connects business process intelligence (SAP Signavio), enterprise architecture management (SAP LeanIX), and digital adoption (WalkMe) into one end-to-end transformation framework.

"SAP differentiates itself by offering a comprehensive suite of integrated capabilities that cover every phase of business transformation - from discovery and design to implementation and adoption." Reference:

Unlike competitors that provide isolated tools, SAP enables continuous, data-driven transformation through unified visibility across business, IT, and adoption layers.

"SAP's integrated transformation platform supports data-driven insights, ecosystem collaboration, and transparency throughout the transformation journey." Incorrect Options:

A: SAP promotes transparency, not limits it.

B: SAP actively collaborates with partners (e.g., WalkMe, LeanIX, Signavio).

D: SAP uses modern, insight-driven approaches - not traditional static ones.

Verified Correct answer: C: By providing a comprehensive suite of capabilities across all project

NEW QUESTION # 32

What is the primary purpose of WalkMe's Digital Adoption Platform (DAP)?

- A. To manage payroll systems efficiently
- B. To automate recruitment processes
- **C. To reduce digital friction and guide users through complex software**
- D. To implement advanced hardware solutions

Answer: C

Explanation:

The WalkMe Digital Adoption Platform (DAP) is designed to improve the user experience by reducing friction when interacting with digital systems. It provides on-screen guidance, automation, and analytics that help users complete tasks accurately and efficiently.

"The primary purpose of WalkMe's Digital Adoption Platform is to reduce digital friction and guide users through complex software environments using AI-powered, context-aware assistance." Reference:

The platform enhances employee productivity, adoption success, and process efficiency across SAP and third-party applications by simplifying navigation and ensuring process compliance.

"WalkMe DAP provides contextual guidance directly within applications, enabling users to execute digital workflows with minimal errors or training." Incorrect Options:

A: WalkMe is software-based, not a hardware solution.

B: Recruitment automation is part of SAP SuccessFactors, not WalkMe.

D: Payroll management is unrelated to WalkMe's purpose.

Verified Correct answer: C: To reduce digital friction and guide users through complex software.

NEW QUESTION # 33

How can organizations leverage SAP Business Transformation Management solutions to address challenges in a transformation?

- A. By limiting communication and feedback channels within the organization.
- **B. By offering tailored recommendations and leveraging data-driven insights for process improvement.**
- C. By providing limited transparency and access to relevant process data.
- D. By avoiding collaboration with stakeholders and external experts.

Answer: B

Explanation:

SAP Business Transformation Management (BTM) Solutions - including SAP Signavio, SAP LeanIX, and WalkMe - are built to tackle transformation challenges by providing data-driven insights, personalized recommendations, and collaboration tools.

"SAP BTM solutions enable organizations to leverage analytics, benchmarking, and AI-driven recommendations to overcome transformation challenges and improve process performance." Reference:

These tools help organizations identify inefficiencies, model target states, and manage change efficiently. They also enable data transparency across business processes and IT systems, supporting faster, evidence-based decisions.

"By combining data-driven insights with tailored recommendations, SAP BTM helps organizations continuously improve their transformation outcomes." Incorrect Options:

A, B, and C describe obstacles that BTM solutions are designed to eliminate - not promote.

Verified Correct answer: D: By offering tailored recommendations and leveraging data-driven insights

NEW QUESTION # 34
