

H12-891_V1.0題庫更新資訊， H12-891_V1.0題庫資料

P.S. VCESoft在Google Drive上分享了免費的、最新的H12-891_V1.0考試題庫：<https://drive.google.com/open?id=1b7FsoaYDcuLTdPIKtzx7YpMIRZOU57gr>

在如今人才濟濟的社會中，Huawei專業人士是很受歡迎的，但競爭也很大。所以很多Huawei專業人士通過一些比較難的權威的H12-891_V1.0認證考試來穩固自己，而我們VCESoft是專門為參加H12-891_V1.0認證考試的考生提供便利的。

華為 H12-891_V1.0 (HCIE-Datacom V1.0) 考試是一項專業認證考試，專為希望驗證他們在資料通訊領域的技能和知識的個人設計。這項認證考試針對希望在 ICT 行業中推進自己職業發展，並希望展示他們在複雜資料通訊網路的設計、實施和管理方面的專業知識的人而設計。

>> H12-891_V1.0題庫更新資訊 <<

高質量的H12-891_V1.0題庫更新資訊，免費下載H12-891_V1.0考試題庫幫助妳通過H12-891_V1.0考試

我們VCESoft免費更新我們研究的培訓材料，這意味著你將隨時得到最新的更新的H12-891_V1.0考試認證培訓資料，只要H12-891_V1.0考試的目標有了變化，我們VCESoft提供的學習材料也會跟著變化，我們VCESoft知道每個考生的需求，我們將幫助你通過你的H12-891_V1.0考試認證，以最優惠最實在的價格和最高超的品質來幫助每位考生，讓你們順利獲得認證。

最新的 Huawei Certified ICT Expert H12-891_V1.0 免費考試真題 (Q183-Q188):

問題 #183

If the number of MAC addresses learned on an interface enabled with port security reaches the upper limit, which of the following actions may the switch take?

- A. Sets the interface state to error-down and generates an alarm.
- B. Discards packets with unknown source MAC addresses without generating any alarm.
- C. Discards packets with unknown source MAC addresses and generates an alarm.
- D. Sets the interface state to error-down without generating any alarm.

答案：A

問題 #184

On a campus network, iMaster NCE-Campus is used to deploy two VNs (Virtual Networks): R&D VN and Marketing VN. Users in these two VNs belong to two separate security groups.

The campus network requires R&D personnel and sales personnel to communicate with each other. To meet this requirement, which of the following tasks does a network administrator need to perform?

- A. Configure inter-VN communication.
- B. Deploy network service resources.
- C. Deploy a policy control matrix.
- D. Deploy an external network.

答案：A,C

解題說明：

Comprehensive and Detailed Explanation:

#Inter-VN communication allows users in different VNs (R&D and Marketing) to communicate.

#Correct Steps:

#(B) Deploy a Policy Control Matrix# Defines rules for inter-VN communication between security groups.

#(C) Configure Inter-VN Communication# Enables routing between VNs through the border gateway or firewall.

#Why Not Other Options?

#(A) Deploy Network Service Resources# This is for internal VN service deployment, not inter-VN communication.

#(D) Deploy an External Network# This is for Internet or WAN access, not internal VN-to-VN communication.

問題 #185

OSPFv2 is an IGP running on IPv4 networks, whereas OSPFv3 is an IGP running on IPv6 networks. OSPFv2 and OSPFv3 have similar LSA types, but their LSA functions are slightly different. Which of the following is not an OSPFv3 LSA type?

- A. Network-LSA
- B. ASBR-Summary-LSA
- C. AS-External-LSA
- D. Router-LSA

答案：B

解題說明：

Comprehensive and Detailed Explanation:

OSPFv2 (for IPv4) and OSPFv3 (for IPv6) LSAs differ in function and naming conventions.

Key Differences in OSPFv3 LSAs:

OSPFv3 does not use ASBR-Summary-LSA. Instead, it introduces new Inter-Area Prefix LSAs (Type 3) and Inter-Area Router LSAs (Type 4).

OSPFv2 ASBR-Summary-LSA (Type 4) is replaced in OSPFv3 by Inter-Area Router LSA (Type 4).

OSPFv3 LSA Types:

#Router-LSA (Type 1)- Describes router interfaces and links.

#Network-LSA (Type 2)- Describes broadcast network links.

#Inter-Area Prefix LSA (Type 3)- Replaces Summary LSAs for routes.

#Inter-Area Router LSA (Type 4)- Replaces ASBR Summary LSAs.

#AS-External LSA (Type 5)- Describes external routes (same as OSPFv2).

Since ASBR-Summary-LSA (Type 4) does not exist in OSPFv3, the correct answer is A.

#Reference: Huawei HCIE Datacom - OSPFv3 LSA Types

問題 #186

Which of the following statements is incorrect about access control on small and midsize campus networks based on the Huawei CloudCampus solution?

- A. iMaster NCE can interconnect with a third-party RADIUS server.
- B. iMaster NCE can function as an authentication server.
- C. Cloud APs support local Portal authentication.
- D. iMaster NCE can function as a Portal relay device.

答案：C

解題說明：

Understanding Huawei CloudCampus Access Control

Huawei's CloudCampus solution provides centralized authentication and policy management via iMaster NCE-Campus.

Analysis of Each Option:

A. iMaster NCE can function as an authentication server.

* Correct: iMaster NCE includes AAA (Authentication, Authorization, and Accounting) capabilities, reducing dependency on external servers.

B. Cloud APs support local Portal authentication.

* Incorrect: Huawei Cloud APs do NOT support local Portal authentication.

* Instead, Portal authentication is managed centrally by iMaster NCE, NOT by individual APs.

C. iMaster NCE can function as a Portal relay device.

* Correct: It can relay authentication requests to a RADIUS or AAA server.

D. iMaster NCE can interconnect with a third-party RADIUS server.

* Correct: It supports integration with external RADIUS authentication servers for enterprise authentication.

Real-World Application:

* Used in Wi-Fi 6 enterprise deployments where centralized authentication, security, and policy enforcement are needed.

問題 #187

In a scenario where a VXLAN tunnel is dynamically established through BGP EVPN, which of the following BGP EVPN routes is used to advertise MAC addresses, ARP entries, and IRB routes?

- A. Type 2
- B. Type 1
- C. Type 4
- D. Type 3

答案：A

解題說明：

Comprehensive and Detailed In-Depth

In BGP EVPN, Type 2 routes (MAC/IP Advertisement routes) are used to advertise:

MAC addresses of endpoints.

ARP entries (MAC-to-IP bindings).

IRB (Integrated Routing and Bridging) routes, allowing the advertisement of both Layer 2 and Layer 3 reachability.

These routes are essential for enabling dynamic VXLAN tunnel establishment and seamless host mobility.

Type 1 (Ethernet Auto-Discovery): Used for multi-homing information.

Type 3 (Inclusive Multicast Ethernet Tag): Used for BUM (Broadcast, Unknown unicast, and Multicast) traffic.

Type 4 (Ethernet Segment): Used for identifying Ethernet segments in multi-homing scenarios.

問題 #188

.....

面對激烈競爭，每個大學生都在為使自己在人才市場上脫穎而出而努力，多一張國際通行證無疑是為他們在就業及其他競爭中在同學中脫穎而出的法寶。所以，通過 Huawei 的 H12-891_V1.0 考試認證是我人生中的一大挑戰，需要拼命的努力學習，不過不要緊，你可以購買 VCESoft Huawei 的 H12-891_V1.0 考試認證培訓資料，幫你輕鬆通過考試。

H12-891_V1.0題庫資料: https://www.vcesoft.com/H12-891_V1.0-pdf.html

選擇性的做題，最新的H12-891_V1.0考題資料不僅能幫助考生提高IT技能，還能保證你的利益，提供給你最好的服務，VCESoft將成為你一個值得信賴的伙伴，Huawei H12-891_V1.0題庫更新資訊 現代社會高速發展，不學習不進步那麼不出多久就會被社會淘汰，我們的VCESoft的專家團隊利用自己的經驗為參加Huawei H12-891_V1.0 認證考試的很多人研究出了最新的有效的培訓工具，包括Huawei H12-891_V1.0 認證考試測試，考前試題，試題答案，有的客戶會擔心說要是我購買了你們公司的Huawei H12-891_V1.0題庫卻沒有通過考試，豈不是白花錢，還在苦苦等待H12-891_V1.0 認證考試的最新資料嗎？

那個地方有封印，尋常人根本找不到，當晚，林夕麒便潛入了朝天幫，選擇性的做題，最新的H12-891_V1.0考

分享最新版本的H12-891_V1.0題庫 - 免費下載HCIE-Datcom V1.0 - H12-891_V1.0擬真試題

有的客戶會擔心說要是我購買了你們公司的Huawei H12-891_V1.0題庫卻沒有通過考試，豈不是白花錢。
