Reliable C-SIGDA-2403 Test Prep | C-SIGDA-2403 Latest Test Answers

Our C-SIGDA-2403 study braindumps can be very good to meet user demand in this respect, allow the user to read and write in a good environment continuously consolidate what they learned. Our C-SIGDA-2403 prep guide has high quality. So there is all effective and central practice for you to prepare for your test. With our professional ability, we can accord to the necessary testing points to edit C-SIGDA-2403 Exam Questions. So high quality C-SIGDA-2403 materials can help you to pass your exam effectively, make you feel easy, to achieve your goal.

SAP Certified Associate - Process Data Analyst - SAP Signavio Sample Questions (Q50-Q55):

NEW QUESTION # 50

Which of the following is essential information that an Event Log must contain? Note: There are 3 correct answers to this question.

- A. Unique Case ID
- B. Customer ID
- C. Variant ID
- D. Timestamp
- E. Activity name

Answer: A,D,E

Explanation:
An event log is the foundation of Process Mining, providing the raw data needed to reconstruct process flows.
The SAP Signavio documentation specifies the mandatory components of an event log:
* Option B (Unique Case ID):A unique identifier for each process instance (case) is essential to track individual process executions and correlate events within the same case.
* Option D (Timestamp):Timestamps indicate when each event occurred, enabling the sequencing of activities and calculation of metrics like cycle time or delays.
* Option E (Activity name):The name of each activity (e.g., "Order Created") describes the specific action performed, allowing Process Mining to map out the process flow.
* Option A (Customer ID)is incorrect as it is an optional attribute, not a mandatory component of an event log, though it may be included for specific analyses.
Reference:SAP Signavio Process Intelligence ETL Guide, section on "Event Log Requirements"; SAP Certified Associate - Process Data Analyst Study Guide, Chapter 5: Event Log Structure.

NEW QUESTION # 51
Who becomes Tenant Owner of a workspace in SAP Signavio Process Manager?

- A. Every user who is assigned to the user group Administrators account
- B. Dedicated users selected by the administrator
- C. The initial user who registered for a workspace
- D. Every user who is assigned to the user group Tenant Owner

Answer: A

NEW QUESTION # 52
How does a Workflow Management System contribute to business agility?

- A. By providing tools for rapid process prototyping
- B. By facilitating easier integration with other business applications
- C. By reducing the cost of process changes
- D. By enabling quicker responses to market changes

Answer: D

NEW QUESTION # 53
What is a Query?

- A. A request to show a data model
- B. A request to start a workflow
- C. A request created by the system
- D. A request for information from a database

Answer: D

NEW QUESTION # 54
What is the Process Conformance Widget used for?

- A. Visualizing customer journeys and live insights
- B. Visualizing different variants against a BPMN model of a process
- C. Visualizing activities in processes over time
- D. Visualizing the way tasks are performed and backtracking the process flow

Answer: B

Explanation:
The Process Conformance Widget in SAP Signavio Process Intelligence is designed to compare actual process execution data against a reference process model to identify deviations. According to the SAP Signavio documentation:
* Option C (Visualizing different variants against a BPMN model of a process):The Process Conformance Widget displays how actual process variants, derived from event logs, align or deviate from a predefined BPMN (Business Process Model and Notation) model. It highlights non-compliant steps and variations, enabling analysts to assess process adherence.
* Option A (Visualizing the way tasks are performed and backtracking the process flow)is incorrect because backtracking process flows is handled by the Process Discovery or Variant Explorer Widgets, not the Conformance Widget.
* Option B (Visualizing activities in processes over time)is incorrect as time-based analysis is performed by the Over Time Widget, not the Conformance Widget.
Reference:SAP Signavio Process Intelligence Widget Documentation, section on "Process Conformance Widget"; SAP Certified Associate - Process Data Analyst Study Guide, Chapter 4: Process Conformance Analysis.

NEW QUESTION # 55

......

SWREG payment costs more tax. Especially for part of countries, intellectual property taxation will be collected by your countries if you use SWREG payment for C-SIGDA-2403 exam test engine. So if you want to save money, please choose PayPal. Here choosing PayPal doesn't need to have a PayPal. In fact here you should have credit card.
