

Pass Guaranteed 2026 MikroTik MTCNA Marvelous Latest Braindumps Files

What's more, part of that Pass4sureCert MTCNA dumps now are free: <https://drive.google.com/open?id=1cZdvFSL3NWWfIP52X49Bw-hztBEISVA1>

After you use MTCNA exam materials and pass the exam successfully, you will receive an internationally certified certificate. After that, you will get a lot of promotion opportunities. You must be very clear about what this social opportunity means! In other words, MTCNA Study Materials can help you gain a higher status and salary. And your life will become better and better. Just trust in our MTCNA practice engine, you will get what you want.

The page of our MTCNA simulating materials provides demo which are sample questions. The purpose of providing demo is to let customers understand our part of the topic and what is the form of our MTCNA study materials when it is opened. In our minds, these two things are that customers who care about the MTCNA Exam may be concerned about most. And you can click all three formats of our MTCNA exam dumps to see.

MTCNA New Braindumps Questions & MTCNA Practice Tests

It is normally not a bad thing to pass more exams and get more certifications. In fact to a certain degree, MikroTik certifications will be magic weapon for raising position and salary. Finding latest MTCNA valid exam questions answers is the latest and simplest method for young people to clear exam. Our exam dumps include PDF format, soft test engine and APP test engine three versions. MTCNA Valid Exam Questions answers will cover all learning materials of real test questions.

MikroTik Certified Network Associate Exam Sample Questions (Q80-Q85):

NEW QUESTION # 80

Domain name system (DNS) requests can use protocol/port:

- A. TCP port 53
- B. UDP

Answer: A,B

NEW QUESTION # 81

RouterOS log messages are stored on disk by default

- A. True
- B. False

Answer: B

NEW QUESTION # 82

You want to implement a mechanism that automates the IP configuration, including IP address, subnet mask, default gateway, and DNS information. Which protocol will you use to accomplish this?

- A. SMTP
- B. SNMP
- C. ARP
- D. DHCP

Answer: D

NEW QUESTION # 83

What protocol is used for Ping and Trace route?

- A. UDP - trace route
- B. DHCP
- C. IP
- D. TCP
- E. ICMP - ping

Answer: A,E

Explanation:

Both ping and traceroute are diagnostic tools used to test connectivity and network path behavior. While both use IP as the transport layer, they rely on specific protocols:

* Ping uses ICMP Echo Request and Echo Reply messages.

* Traceroute typically uses UDP packets with increasing TTL (Time-To-Live) values to discover each hop.

On MikroTik devices, ping uses ICMP and traceroute uses UDP by default (though ICMP traceroute is also available in some implementations).

* A. DHCP is unrelated. It's a protocol for IP address assignment.

* B. IP is a network-layer protocol underlying ICMP and UDP, but it's not the specific diagnostic protocol.

* C. TCP is a connection-oriented protocol, not used for ping/traceroute.

* D. Correct. ICMP is the protocol behind ping.

* E. Correct. UDP is used by default in traceroute to trigger ICMP Time Exceeded messages from routers.

Extract from Official MTCNA Course Material - Tools Section:

"Ping uses the ICMP protocol to send Echo Request and receive Echo Reply. Traceroute sends UDP packets with incremented TTL values to discover intermediate hops." Extract from Rene Meneses Study Guide - Diagnostic Tools:

"Traceroute in RouterOS sends UDP packets to a random port. Routers that receive the packet send ICMP Time Exceeded messages back when TTL expires. Ping uses ICMP directly." Extract from MikroTik Wiki - Ping and Traceroute:

"Ping uses ICMP protocol. Traceroute sends UDP packets, increasing TTL by one for each hop."

NEW QUESTION # 84

What is the correct action for a NAT rule on a router that should intercept SMTP traffic and send it over to a specified mail server?

- A. redirect
- B. passthrough

- Answer: A**
