ISO-IEC-27001-Foundation トレーニング費用 & ISO-IEC-27001-Foundation 難易度

多くの受験生がAPMG-InternationalのISO-IEC-27001-Foundation認定試験に良い成績を取らせるために、ShikenPASSはより良い結果までずっと努力しています。長年の努力を通じて、ShikenPASSのAPMG-InternationalのISO-IEC-27001-Foundation認定試験の合格率が100パーセントになっていました。もしShikenPASSのAPMG-InternationalのISO-IEC-27001-Foundation問題集を購入したら、学習教材はどんな問題があれば、或いは試験に不合格になる場合は、全額返金することを保証いたします。

APMG-International ISO/IEC 27001 (2022) Foundation Exam 認定 ISO-IEC-27001-Foundation 試験問題 (Q28-Q33):

質問 # 28

Which action is an organization required to take to ensure that personnel are competent to perform their assigned tasks within the ISMS?

- A. Ensure that the controls for compliance with legal and contractual requirements are implemented
- **B. Hold up-to-date records on training, skills, experience and qualifications**
- C. Ensure all personnel are trained to ISO/IEC 27001 Foundation level
- D. Identify products which could be used in the organization to improve ISMS performance and effectiveness

正解: B

解説:

Clause 7.2 (Competence) requires the organization to:

- * "determine the necessary competence of person(s) doing work under its control that affects its information security performance;"
- * "ensure that these persons are competent on the basis of appropriate education, training, or experience;"
- * "retain appropriate documented information as evidence of competence." This makes holding up-to-date records on training, skills, experience, and qualifications (D) the correct answer. Option A is irrelevant to competence. Option B is incorrect since ISO does not require Foundation-level training - competence is context-based. Option C is related to compliance but does not ensure individual competence.

Thus, the verified correct answer is D.

質問 # 29

Who is required to ensure that staff are supported so that they can contribute to the information security management system?

- A. ISO/IEC 27001 practitioners within the organization
- B. Auditors who audit each area of operation
- C. Management responsible for each area of operation
- **D. Top management of the organization**

正解: D

解説:

Clause 5.1 (Leadership and Commitment) requires that:

"Top management shall demonstrate leadership and commitment with respect to the information security management system by... ensuring that the resources needed for the ISMS are available... and supporting persons to contribute to the effectiveness of the ISMS." This makes it explicit that top management has the responsibility to ensure personnel are supported so they can contribute to the ISMS. Option B (line management) may provide local support, but ultimate accountability rests with top management. Auditors (C) only evaluate compliance, not provide support.

Practitioners (D) help implement, but they don't bear formal responsibility under the standard.

Thus, the verified answer is A: Top management of the organization.

質問 # 30

Which of the following statements about the relationship between ISO/IEC 27001 and ISO/IEC 27002 is true?

- * ISO/IEC 27002 provides implementation advice on the controls selected during the ISO/IEC 27001 information security risk management process
- * ISO/IEC 27002 provides a process for information security risk management which implements the requirements of ISO/IEC 27001

- A. Neither 1 or 2 is true

- B. Only 1 is true
- C. Both 1 and 2 are true
- D. Only 2 is true

正解: B

解説:

Comprehensive and Detailed Explanation From Exact Extract ISO/IEC 27001 & 27002:2022 standards:
 ISO/IEC 27001 Annex A lists reference controls. ISO/IEC 27002 provides detailed guidance on the implementation of those controls, including purpose, guidance, and examples. Clause 6.1.3 of ISO/IEC 27001 makes the link explicit: controls from Annex A are referenced, but ISO/IEC 27002 explains how to implement them. However, ISO/IEC 27002 does not provide a process for risk management—that is covered by ISO/IEC 27005. Risk management requirements are in ISO/IEC 27001 (Clauses 6.1.2 and 6.1.3). Therefore, statement 1 is true, but statement 2 is false. Correct answer: A.

質問 # 31

Which trend in information security performance is required to be considered during a management review of the ISMS?

- A. Validity of information continuity controls
- B. Relevant external and internal requirements changes
- C. Decisions related to continual improvement opportunities
- D. Achievement of information security objectives

正解: D

解説:

Clause 9.3.2 (Management Review Inputs) states that management reviews shall include:
 "c) information on the information security performance, including trends in: (1) nonconformities and corrective actions; (2) monitoring and measurement results; (3) audit results; and (4) fulfilment of information security objectives." This makes achievement of information security objectives (option A) a required trend to be considered.
 While external/internal requirements (C) and continual improvement opportunities (D) are also part of management review inputs, they are not specifically listed under "trends in performance." Option B is outside the direct requirement.
 Thus, the verified answer is A.

質問 # 32

Which aspect of ISO/IEC 27001 requires that contractors know about the organization's information security policies?

- A. Nonconformity and corrective action
- B. Competence
- C. Awareness
- D. Communication

正解: C

解説:

Clause 7.3 (Awareness) requires:
 "Persons doing work under the organization's control shall be aware of: (a) the information security policy; (b) their contribution to the effectiveness of the ISMS, including the benefits of improved information security performance; (c) the implications of not conforming with the ISMS requirements." This applies not only to employees but also contractors and external parties under the organization's control.
 Competence (B) requires having skills, training, and experience, while Communication (C) covers defining communication processes (Clause 7.4). Nonconformity and corrective action (A) is part of Clause 10 (Improvement).
 Therefore, the specific requirement that ensures contractors are made aware of the information security policies is found in Clause 7.3 Awareness. Correct answer: D.
