

최신 CompTIA DataSys+ DS0-001 무료샘플문제 (Q104-Q109):

질문 # 104

Which of the following concepts applies to situations that require court files to be scanned for permanent reference and original documents be stored for ten years before they can be discarded?

- A. Global regulations
- B. Data loss prevention
- C. Data retention policies
- D. Data classification

정답: C

설명:

The concept that applies to situations that require court files to be scanned for permanent reference and original documents be stored for ten years before they can be discarded is data retention policies. Data retention policies are rules or guidelines that specify how long data should be kept and when it should be deleted or archived. Data retention policies are often based on legal, regulatory, or business requirements, and help organizations manage their data lifecycle, storage, and compliance. The other options are either not related or not specific to this situation. For example, data loss prevention is a process that aims to prevent data from being leaked, stolen, or corrupted; data classification is a process that assigns labels or categories to data based on its sensitivity, value, or risk; global regulations are laws or standards that apply to data across different countries or regions. Reference: CompTIA DataSys+ Course Outline, Domain 4.0 Data and Database Security, Objective 4.1 Given a scenario, apply security principles and best practices for databases.

질문 # 105

Which of the following database instances are initiated by default when a database administrator installs a SQL Server instance for the first time? (Choose two.)

- A. Log
- B. Index
- C. Root
- D. Model
- E. Master
- F. View

정답: D,E

질문 # 106

A database administrator is assisting developers with finding the best tables and columns to include in an application. Which of the following resources is the most relevant for this task?

- A. ERD
- B. SOP documents
- C. Data dictionary
- D. Transaction log

정답: C

설명:

A data dictionary provides detailed information about database tables, columns, and their attributes, helping developers understand the structure and relationships to select the best tables and columns for the application.

질문 # 107

Which of the following cloud delivery models provides users with the highest level of flexibility regarding resource provisioning and administration?

- A. PaaS

- B. SaaS
- C. IaaS
- D. DBaaS

정답: C

설명:

The cloud delivery model that provides users with the highest level of flexibility regarding resource provisioning and administration is IaaS. IaaS, or Infrastructure as a Service, is a cloud delivery model that provides users with access to virtualized computing resources, such as servers, storage, network, and operating systems, over the internet. Users can provision, configure, and manage these resources according to their needs and preferences, without having to worry about the maintenance or security of the physical infrastructure. IaaS offers users the most control and customization over their cloud environment, as well as the ability to scale up or down as needed. The other options are either different cloud delivery models or not related to cloud computing at all. For example, DBaaS, or Database as a Service, is a cloud delivery model that provides users with access to database management systems and tools over the internet; SaaS, or Software as a Service, is a cloud delivery model that provides users with access to software applications and services over the internet; PaaS, or Platform as a Service, is a cloud delivery model that provides users with access to development platforms and tools over the internet. Reference: CompTIA DataSys+ Course Outline, Domain 2.0 Database Deployment, Objective 2.1 Given a scenario, select an appropriate database deployment method.

질문 # 108

A company wants to deploy a new application that will distribute the workload to five different database instances. The database administrator needs to ensure that, for each copy of the database, users are able to read and write data that will be synchronized across all of the instances.

Which of the following should the administrator use to achieve this objective?

- A. Failover clustering
- B. Availability groups
- C. [Peer-to-peer replication
- D. Log shipping

정답: C

설명:

The administrator should use peer-to-peer replication to achieve this objective. Peer-to-peer replication is a type of replication that allows data to be distributed across multiple database instances that are equal partners, or peers. Each peer can read and write data that will be synchronized across all peers. This provides high availability, scalability, and load balancing for the application. The other options are either not suitable for this scenario or do not support bidirectional data synchronization. For example, failover clustering provides high availability but does not distribute the workload across multiple instances; log shipping provides disaster recovery but does not allow writing data to secondary instances; availability groups provide high availability and read-only access to secondary replicas but do not support peer-to-peer replication. Reference: CompTIA DataSys+ Course Outline, Domain 5.0 Business Continuity, Objective 5.3 Given a scenario, implement replication of database management systems.

질문 # 109

.....

여러분은 CompTIA DS0-001 인증 시험을 패스함으로써 IT 업계 관련 직업을 찾고자 하는 분들에게는 아주 큰 가산점이 될 수 있으며, 성당한 IT 업계 사업자와 한 걸음 가까와 집니다.

DS0-001 시험 대비 인증 덤프: <https://www.itexamdump.com/DS0-001.html>

Itexamdump 의 CompTIA 인증 DS0-001 덤프는 PDF 버전과 소프트웨어 버전 두 가지 버전으로 되어 있는데 소프트웨어 버전은 시뮬레이션 버전입니다, CompTIA DS0-001 시험 탈락 시 CompTIA DS0-001 덤프 비용 전액을 환불해드릴만큼 저희 덤프 자료에 자신이 있습니다, Itexamdump의 경험이 풍부한 전문가들이 CompTIA DS0-001 인증 시험 관련 자료를 계획적으로 페펙트하게 만들었습니다. CompTIA DS0-001 인증 시험 응시에는 딱 좋은 자료들입니다, CompTIA DS0-001 시험 합격 덤프 만약 회사에서 승진하고 싶으시다면 자신의 가치를 높이는 것이 길이 아닌가 싶습니다, CompTIA 인증 DS0-001 인증 시험 패스는 아주 어렵습니다.

원하는 대로 하라고, 내가 잘하면 돼, Itexamdump 의 CompTIA 인증 DS0-001 덤프는 PDF 버전과 소프트웨어 버전 두 가지 버전으로 되어 있는데 소프트웨어 버전은 시뮬레이션 버전입니다, CompTIA DS0-001 시험 탈락 시 CompTIA DS0-

001덤프비용전액을 환불해드릴만큼 저희 덤프자료에 자신이 있습니다.

100% 유효한 DS0-001시험합격덤프 시험

Itexamdump의 경험이 풍부한 전문가들이CompTIA DS0-001인증시험관련자료들을 계획적으로 페팩트하게 만들었습니다.CompTIA DS0-001인증시험응시에는 딱 좋은 자료들입니다, 만약 회사에서 승진하고 싶으시다면 자신의 가치를 높이는것이 길이 아닌가 싶습니다.

CompTIA인증DS0-001 인증시험패스는 아주 어렵습니다.
