Pegasystems PEGACPBA24V1 Exam Syllabus Topics:

Topic	Details

Topic 1	<ul style="list-style-type: none"> • Case Management: This domain targets Case Designers and Process Architects and explores designing a case lifecycle, including setting case statuses and adding instructions for tasks. Candidates demonstrate ability to configure service level agreements with urgency, goals, and deadlines, and manage routing of assignments to users, work groups, or queues. This section also includes configuring email correspondence, identifying duplicate cases, adding optional actions and automating workflow decisions using conditions. Candidates learn to pause and resume case processing, skip stages or processes, configure child cases, use automation shapes appropriately, and create and manage user teams.
Topic 2	<ul style="list-style-type: none"> • Security: Designed for Security Analysts and Access Managers, this domain covers the relationship between personas, operators, and access groups within Pega. Candidates articulate the difference between authorization and authentication and understand their applications.
Topic 3	<ul style="list-style-type: none"> • User Experience: This domain assesses skills of UX Designers and Frontend Developers in configuring user interface elements. Candidates learn to group fields to create views, add or remove fields, configure portal content, adjust form appearance, visibility, and controls for an improved user experience.

Pegasystems Certified Pega Business Architect 24 Sample Questions (Q89-Q94):

NEW QUESTION # 89

Which two of the following are benefits of following Pega, guardrails?

(Choose Two)

Response:

- A. Guardrails help developers to track compliance with Pega best practices.
- B. Guardrails help project managers ensure that applications are completed on time.
- C. Guardrails help managers create schedules for efficiently allocating developer resources.
- D. Guardrails help developers build applications that are easier to maintain and have fewer defects.

Answer: A,D

NEW QUESTION # 90

The Organization layer is the only layer in which you find technical assets.

Response:

- A. True
- B. False

Answer: B

NEW QUESTION # 91

The goal of security features in a Pega Platform application is to maintain which three of the following concepts? (Choose Three)

- A. Integrity

- B. Maintainability
- C. Availability
- D. Confidentiality
- E. Extensibility

Answer: A,C,D

Explanation:

Comprehensive and Detailed Explanation From Exact Extract:

This question tests the core security principles of Pega Platform applications, as outlined in the Certified Pega Business Architect (CPBA) curriculum, specifically focusing on the security triad (CIA: Confidentiality, Integrity, Availability).

* A. Availability: Correct. Availability ensures that the Pega application remains accessible to authorized users, a key security goal. Pega's security features, such as load balancing and failover mechanisms, support this. Extract: Pega Academy, Security Overview: "Availability ensures applications are accessible to authorized users, supported by robust system design."

* B. Integrity: Correct. Integrity protects data from unauthorized modification, ensuring accuracy and reliability. Pega uses access controls and audit logging to maintain integrity. Extract: Pega Academy, Security Overview: "Integrity prevents unauthorized changes to data, using access roles and logging."

* C. Extensibility: Incorrect. Extensibility relates to application customization, not a primary security goal. Extract: Pega Academy, Application Design: "Extensibility enables customization but is not a security principle."

* D. Maintainability: Incorrect. Maintainability relates to system upkeep, not security. Extract: Pega Academy, System Administration: "Maintainability ensures ease of system updates, not security."

* E. Confidentiality: Correct. Confidentiality protects sensitive data from unauthorized access, using encryption and access controls in Pega. Extract: Pega Academy, Security Overview: "Confidentiality safeguards data through encryption and role-based access."

Pega Academy, Business Architect '23 Mission, Module on Security.

Pega Certified Business Architect Study Guide, Version 8.8, Section on Security Principles.

Pega Help Documentation, Security Overview.

NEW QUESTION # 92

Using the pega express delivery approach, governance is established during which phase of the project?

Response:

- A. Prepare
- B. Adopt
- C. Build
- D. Discover

Answer: A

NEW QUESTION # 93

Consider this requirement for a business transaction:

* If approved, the request is forwarded to the Fulfillment department

* If the manager rejects the request, it is sent back to the employee for reconciliation or cancellation

* The Fulfillment department will process the request if the requested items are in stock An employee submits a request to purchase equipment. The request is sent to the manager for review and approval.

Select the case life cycle design that most closely follows the guidelines for identifying and naming stages.
