

First-class HPE0-S59 Preparation Materials: HPE Compute Solutions, Deliver You the High-quality Exam Dumps

The HP Practice Test engine included with HPE0-S59 exam questions simulates the actual HPE0-S59 examinations. This is excellent for familiarizing yourself with the HPE Compute Solutions and learning what to expect on test day. You may also use the HP HPE0-S59 online practice test engine to track your progress and examine your answers to determine where you need to improve on the HPE0-S59 exam.

ActualTorrent knows the importance of the HP HPE0-S59 certification exam in the field of information technology. That is why it has prepared the remarkable HP HPE0-S59 exam questions to help the aspirants pass it on the first go. The desiring candidates for the HP HPE0-S59 certificate need help to find reliable HPE0-S59 Exam Questions study material.

Dumps HPE0-S59 Vce | Learning HPE0-S59 Mode

With great outcomes of the passing rate upon to 98-100 percent, our HPE0-S59 practice engine is totally the perfect ones. We never boost our achievements on our HPE0-S59 exam questions, and all we have been doing is trying to become more effective and perfect as your first choice, and determine to help you pass the HPE0-S59 Study Materials as efficient as possible. Just to try on our HPE0-S59 training guide, and you will love it.

HPE0-S59 exam is a comprehensive test that requires a thorough understanding of HPE compute solutions. It is a challenging exam that requires the candidate to have hands-on experience with HPE solutions. HPE0-S59 Exam consists of multiple-choice questions, and the candidate has two hours to complete it. The passing score for the exam is 65%, and the certification is valid for three years.

HPE Compute Solutions Sample Questions (Q28-Q33):

NEW QUESTION # 28

What is a restriction of using a RoCE network?

- A. It does not support Private VLAN and Multicast VLAN.
- B. it is not supported with HPE Virtual Connect SE 40 GD F8 Module for HPE Synergy.
- C. It is by default configured as an untagged network and cannot be a part of a network set.
- **D. It does not support smart link and private network features.**

Answer: D

Explanation:

A restriction of using a RoCE (RDMA over Converged Ethernet) network is that it does not support smart link and private network features. These features are essential for certain network configurations and use cases, but they are not available in RoCE networks, which are designed for high-performance, low-latency communication.

NEW QUESTION # 29

Your customer has an HPE Synergy frame equipped with a D3940 Storage Module. Each of the compute nodes has the appropriate storage controller installed and two 12Gb SAS switches installed in the first fabric. The customer reports that the compute nodes cannot access the storage module. What will you verify first when troubleshooting this problem?

- A. If the D3940 module is imported in a managed state that allows volume provisioning.
- **B. If the SAS logical interconnect is a part of the logical enclosure and has a healthy state.**
- C. If the D3940 storage module is properly licensed through the HPE OneView interface.
- D. If there is at least one iSCSI network configured that will provide access to the module.

Answer: B

NEW QUESTION # 30

Which statement about the HPE OneView Update Readiness Checker is true?

- A. It can be used to examine the firmware version installed on compute nodes and compliance with HPE OneView version.
- **B. It can be used to evaluate the health of an HPE OneView appliance before proceeding with an appliance update.**
- C. It can be used to verify compatibility of a given Synergy Service Pack with a specific version of HPE OneView.
- D. It can be used to determine whether the latest milestone HPE OneView edition is currently installed.

Answer: B

NEW QUESTION # 31

Refer to the exhibit.

Which statement about this logical interconnect group is true?

- A. The master modules are located in the interconnect bays 2 and 5
- **B. Both master modules are located in the same HPE Synergy frame**
- C. For the given downlink speed, the maximum number of frames is reached
- D. To use interconnect bay set 3, all compute nodes must be half-height

Answer: B

NEW QUESTION # 32

Your customer wants to update the firmware for 36 HPE Synergy 480 Gen 10 compute modules with a server profile assigned from a server profile template.

Put the steps required to achieve this goal on the left into their correct order on the right.

Answer:

Explanation:

Explanation:

To update the firmware for the HPE Synergy 480 Gen 10 compute modules with a server profile assigned from a server profile template, the steps should be performed in the following order:

* Upload SPP to HPE OneView repository.(First, the Service Pack for ProLiant (SPP) containing the firmware updates must be uploaded to the HPE OneView repository.)

* Select Firmware baseline within server profile template.(Next, you need to select the desired firmware baseline in the server profile template.)

* Select installation method (online or offline).(Choose whether the firmware updates will be installed online or offline.)

* Update all server profiles from the template.(Finally, update all server profiles from the modified template to apply the firmware updates to the compute modules.)

NEW QUESTION # 33

HP HPE0-S59 practice test software can be used on devices that range from mobile devices to desktop computers. We provide the HP HPE0-S59 exam questions in a variety of formats, including a web-based practice test, desktop practice exam software, and downloadable PDF files. ActualTorrent provides proprietary preparation guides for the certification exam offered by the HP HPE0-S59 Exam Dumps. In addition to containing numerous questions similar to the HP HPE0-S59 exam, the HP HPE0-S59 exam questions are a great way to prepare for the HP HPE0-S59 exam dumps.
