

# Exam HPE0-S59 Tutorials | HPE0-S59 Exam Prep

BTW, DOWNLOAD part of PracticeDump HPE0-S59 dumps from Cloud Storage: [https://drive.google.com/open?id=1qegDFxPneZydJ6rIv\\_7uQaWBTzwwy1dX](https://drive.google.com/open?id=1qegDFxPneZydJ6rIv_7uQaWBTzwwy1dX)

There is no doubt that obtaining this HPE0-S59 certification is recognition of their ability so that they can find a better job and gain the social status that they want. Most people are worried that it is not easy to obtain the certification of HPE0-S59, so they dare not choose to start. We are willing to appease your troubles and comfort you. We are convinced that our HPE0-S59 test material can help you solve your problems. Compared to other learning materials, our HPE0-S59 exam questions are of higher quality and can give you access to the HPE0-S59 certification that you have always dreamed of.

If your job is very busy and there is not much time to specialize, and you are very eager to get a HPE0-S59 certificate to prove yourself, it is very important to choose a very high HPE0-S59 learning materials like ours that passes the rate. I know that the 99% pass rate of our HPE0-S59 Exam simulating must have attracted you. Do not hesitate anymore. You will never regret buying our HPE0-S59 study engine!

## HOT Exam HPE0-S59 Tutorials - High Pass-Rate HP HPE Compute Solutions - HPE0-S59 Exam Prep

Our delivery speed is also highly praised by customers. Our HPE0-S59 exam dumps won't let you wait for such a long time. As long as you pay at our platform, we will deliver the relevant HPE0-S59 test prep to your mailbox within 5-10 minutes. Our company attaches great importance to overall services, if there is any problem about the delivery of HPE0-S59 Test Braindumps, please let us know, a message or an email will be available. We are pleased that you can spare some time to have a look for your reference about our HPE0-S59 test prep.

### HPE Compute Solutions Sample Questions (Q146-Q151):

#### NEW QUESTION # 146

Which statement about manual orchestration during the firmware update is true?

- A. It is supported only for logical enclosures with at least three frames
- B. It allows all the interconnect modules to be activated manually at the same time.
- C. It provides the ability to install an older firmware version than currently Installed In the interconnect
- **D. It provides an ability to select and update one side of the Interconnect topology at a time**

**Answer: D**

Explanation:

Manual orchestration during a firmware update allows administrators to control the update process more precisely. Specifically, it enables the selection and update of one side of the interconnect topology at a time. This capability is particularly useful in maintaining network availability and minimizing downtime during the update process, as one side can be updated and verified before proceeding to the other side.

#### NEW QUESTION # 147

Your customer plans to deploy HPE OneView for VMware vCenter Server together with HPE Storage Integration Pack for VMware vCenter.

The customer wants to use them to manage HPE Synergy Gen10 compute modules, HPE ProLiant Gen10 servers, and an MSA array.

Which statement about compatibility of the existing environment with the planned software components is true?

- A. HPE ProLiant Gen10 systems require HPE OneView for VMware vCenter server licenses for each node.
- **B. Not all of HPE Storage Integration Pack for VMware vCenter features are supported with MSA arrays.**
- C. HPE OneView for VMware vCenter Server does not support standalone HPE ProLiant servers.
- D. Both HPE Synergy Gen10 full-height compute modules plugins will require a license.

**Answer: B**

#### NEW QUESTION # 148

Your customer plans to deploy VMware ESXi 7.0 U2, and they are looking for a hardware platform that will allow them to use up to 16 CPU sockets Which HPE compute system meets the customer requirements?

- A. HPE ProLiant DL580 Gen10
- B. HPE Synergy 480 Gen10 Plus
- **C. HPE Superdome Flex system**
- D. HPE ProLiant OL380 Gen 10 Plus

**Answer: C**

Explanation:

The HPE Superdome Flex system is the only HPE compute system that supports up to 16 CPU sockets, making it suitable for customers who require a hardware platform with such high scalability. The Superdome Flex is designed for mission-critical

workloads and provides exceptional scalability and performance.  
 Reference: HPE Superdome Flex QuickSpecs

**NEW QUESTION # 149**

Your customer has an HPE Synergy frame equipped with a D3940 Storage Module. Each of the compute nodes has an appropriate storage controller installed and two 12Gb SAS switches installed in the first fabric.

The customer reports that compute nodes cannot access the storage module. What should you verify first when troubleshooting this problem?

- A. If there is a logical interconnect created based on the 12Gb SAS switches.
- B. If the D3940 module is imported in managed state that allows volume provisioning.
- C. If there is at least one iSCSI network configured that will provide access to the module.
- D. If the D3940 storage module is property licensed through HPE OneView interface.

**Answer: A**

Explanation:

When compute nodes cannot access the D3940 Storage Module in an HPE Synergy environment, the first thing to check is whether a logical interconnect has been created based on the 12Gb SAS switches. Logical interconnects are essential for defining the connection and communication pathways between the compute nodes and the storage module. Without a proper logical interconnect configuration, the compute nodes will not be able to access the storage module.

**NEW QUESTION # 150**

Drag and Drop Question

Match HPE SimpliVity team with the definition.

Term	Definition
Arbiter	Non-hyperconverged servers that can exist in an HPE SimpliVity environment and provide additional compute capacity while consuming the storage provided by the hyperconverged nodes.
Compute node	Provides centralized management and events end-point for vCenter.
Intelligent Workload Optimizer	Integrates with VMware Distributed Resources Scheduler to ensure optimal placement of the VM compute resources.
Management Virtual Controller	Facilitates communication between nodes and resolves state conflicts to ensure service continuity.

**Answer:**
