Its authority is undeniable. If you buy our C-SIGVT-2506 VCE Dumps, we will provide one year free renewal service.

SAP Certified Associate - Validating Business Transformation Sample Questions (Q12-Q17):

NEW QUESTION # 12
Which of the following are dimensions of the clean core concept?
(3 correct answers)

- A. Processes
- B. Applications
- C. Integrations
- D. Configurations
- E. Operations

Answer: A,C,D

Explanation:
The clean core concept is fundamental to SAP's cloud strategy and governs how organizations should structure their ERP systems to remain flexible, upgradeable, and stable. One key dimension isConfigurations
, which must follow SAP-recommended patterns and avoid unnecessary customizations that compromise upgradeability. Configurations define how the system behaves, and keeping them standardized ensures that the core can remain clean.
A second dimension isIntegrations. Clean core principles emphasize using SAP-approved integration patterns, APIs, and event-driven models rather than modifying the underlying system. By handling extensions and integrations through platforms like SAP Business Technology Platform, organizations avoid invasive changes that would otherwise jeopardize upgrades or system stability.
A third dimension isProcesses, referring to the ability to adopt SAP's standard end-to-end processes wherever possible. Aligning with SAP best practices minimizes the need for enhancements in the core system and ensures compatibility with future innovations.
Applications and operations are not part of the formal clean core dimensions; rather, they are broader parts of the overall IT landscape. The clean core dimensions focus specifically on system configuration, integration behavior, and business process alignment-ensuring that SAP systems remain cloud-ready and agile.

NEW QUESTION # 13
SAP LeanIX Fact Sheets can represent which of the following?

- A. RACI matrices
- B. Survey forms
- C. Audit logs
- D. Applications, interfaces, and capabilities

Answer: D

Explanation:
Fact Sheets are the central information objects used in SAP LeanIX. They document key architectural components such as applications, interfaces, and business capabilities. Each Fact Sheet provides lifecycle details, ownership, dependencies, and relationships to other IT and business elements. This structure enables organizations to maintain a clear and consistent representation of their enterprise architecture. Survey forms, audit logs, or RACI matrices are not core Fact Sheet types.

NEW QUESTION # 14
What component enables application development and integration in the toolchain?

- A. SAP HANA Studio
- B. SAP GUI
- C. SAP Business Technology Platform and SAP Build
- D. SAP S/4HANA

Answer: C

Explanation:
SAP Business Technology Platform (BTP), together with SAP Build, provides the infrastructure for creating extensions, integrations, and custom applications while preserving a clean core. BTP includes integration services, event-driven architecture, workflow automation, and low-code/no-code tools. This enables customers to extend SAP S/4HANA without modifying the core system. The other tools do not serve as the primary integration or extension platform in modern cloud transformation.

NEW QUESTION # 15
What tool offers access to SAP Activate roadmaps?

- A. Cloud ALM Dashboard
- B. Process Explorer
- C. Readiness Check
- D. Roadmap Viewer

Answer: D

Explanation:
The SAP Activate Roadmap Viewer provides complete access to SAP's implementation roadmaps. These roadmaps detail phases, deliverables, tasks, configuration steps, and accelerators required for SAP project execution. The Roadmap Viewer is specifically designed to guide project teams through standardized transformation activities. Other tools serve different purposes (e.g., process modeling or readiness evaluation) but do not host SAP Activate roadmaps.

NEW QUESTION # 16
What benefit does SAP LeanIX insights provide to stakeholders?

- A. Visibility into current and target architecture alignment
- B. Enhanced survey management
- C. Cost allocation mapping
- D. Lifecycle tag duration tracking

Answer: A

NEW QUESTION # 17
......

It is easy for you to pass the exam because you only need 20-30 hours to learn and prepare for the exam. You may worry there is little time for you to learn the C-SIGVT-2506 Study Tool and prepare the exam because you have spent your main time and energy on your most important thing such as the job and the learning and can't spare too much time to learn. But if you buy our SAP Certified Associate - Validating Business Transformation test torrent you only need 1-2 hours to learn and prepare the exam and focus your main attention on your most important thing.
