NEW QUESTION # 26

You input new data for a private version in a story. What must you do to ensure the new data is added to the model?

- A. Save
- B. Send
- C. Nothing
- D. Publish

Answer: D

Explanation:

When inputting new data for a private version in a story in SAP Analytics Cloud, it is necessary to "Publish" the data to ensure it is added to the model. Publishing the private version commits the changes to the underlying model, making the new data visible and accessible to other users according to their permissions. This step is crucial for ensuring that the updated data is incorporated into the shared model for further analysis and decision-making.

NEW QUESTION # 28

Which dimension type can you use like a measure?

- A. Date
- B. Organization
- **C. Account**
- D. Entity

Answer: C

Explanation:

In SAP Analytics Cloud, the Account dimension can be used similarly to a measure. This dimension is specifically designed for financial data and can hold various types of financial metrics, such as revenues, expenses, assets, and liabilities. It allows for the application of financial calculations and aggregations, which is why it can function similarly to measures in the context of financial reporting and analysis.
