100% Pass Quiz 2026 Huawei H13-527_V5.0 – Professional Reliable Exam Papers

Prep4SureReview is one of the leading platforms that has been helping HCIP-Cloud Computing V5.0 exam candidates for many years. Over this long time period we have helped H13-527_V5.0 exam candidates in their preparation. They got help from Prep4SureReview H13-527_V5.0 Practice Questions and easily got success in the final HCIP-Cloud Computing V5.0 certification

exam. You can also trust Prep4SureReview H13-527_V5.0 exam dumps and start preparation with complete peace of mind and satisfaction.

Huawei HCIP-Cloud Computing V5.0 Sample Questions (Q43-Q48):

NEW QUESTION # 43

In Huawei Cloud Stack, if you want to realize interconnection between two VPCs in the same region, which of the following services can meet the requirements? (Multiple choice)

- A. Layer 2 bridging L2BR
- B. VPC peering connection
- C. Cloud connection CC
- D. VPC endpoint

Answer: B,D

NEW QUESTION # 44

Which of the following components are involved in Nova scheduling in OpenStack?

- A. Nova-Scheduler
- B. Nova-Conductor
- C. Nova-API
- D. Placement

Answer: A,D

Explanation:

This question is best treated as a multiple-correct-answer item, because official OpenStack documentation shows that Nova-Scheduler and Placement are both directly involved in the scheduling workflow. The Nova scheduling reference explains that the scheduler receives a request specification and then sends the requirements to Placement, which determines the resource providers capable of satisfying the request.

Placement returns candidate resource information, and Nova-Scheduler performs filtering, weighing, and final host selection.

OpenStack documentation also notes that the nova-scheduler and placement services are responsible for tracking resources and deciding which compute node instances should be on. That makes A and D the directly scheduling-related components. While Nova-Conductor and Nova-API participate in the broader instance build flow by receiving requests and coordinating actions, they are not the core components that actually perform the scheduling decision itself.

So, for strict technical accuracy based on official OpenStack architecture, the verified answer is A and D. If your exam system forces only one option, then A (Nova-Scheduler) is the closest single best answer, but the documentation supports A and D together.

NEW QUESTION # 45

Which of the following descriptions of OpenStack Endpoint are incorrect? (Multiple choice)

- A. The three Endpoints have different permissions. The admin can usually only be open to the external network.
- B. Each OpenStack service has three Endpoints: admin, public and internal
- C. Endpoint is an endpoint, which is a network location used to access a specific service.
- D. Before accessing a service, you must know its Endpoint

Answer: B,C,D

NEW QUESTION # 46

Based on the deployment and application of FusionAccess, the architecture of FusionAccess can be divided into: business application layer, virtualized os layer and infrastructure layer, among which the () layer is responsible for the scheduling and management of virtual resources.

Answer:

Explanation:
virtualized os

NEW QUESTION # 47

In the FusionSphere cloud DC scenario, what are the uses of the external network?

- A. VPC routing exit
- B. Shared network between tenants
- C. Network on which Elastic IP depends
- D. The network on which the internal network depends

Answer: A,B,C

NEW QUESTION # 48

.....

Our H13-527_V5.0 test torrent was designed by a lot of experts in different area. You will never worry about the quality and pass rate of our H13-527_V5.0 study materials, it has been helped thousands of candidates pass their H13-527_V5.0 exam successful and helped them find a good job. If you choose our H13-527_V5.0 study torrent, we can promise that you will not miss any focus about your H13-527_V5.0 exam. It is proved that our H13-527_V5.0 learning prep has the high pass rate of 99% to 100%, you will pass the H13-527_V5.0 exam easily with it.
