### 質問 # 63

A company is using Dynamics 365 Finance to manage its customers.

A customer is past due on several invoices. Late fees and penalties are applied to the customer account based on the number of days late. Due to the past due payments and fees, the amount of product the customer can purchase before receiving a payment is reduced.

If all invoices are paid in full, the company will waive all late fees and increase the amount of product the customer can purchase before receiving a payment.

You need to identify the modules to use for the requirements.

Which modules should you use? To answer, drag the appropriate modules to the correct actions. Each module may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

Modules	Action	Module
<input type="text" value="Accounts payable"/> <input type="text" value="Accounts receivable"/> <input type="text" value="Credit and collections"/> <input type="text" value="General ledger"/>	Settle the payments against the past due invoices. Waive the late fees. Increase the customer outstanding amount due upper limit.	<input type="text"/> <input type="text"/>
